LATE LODGEMENT 3Y

6K Additive, Inc. (ASX:**6KA**) (**6K Additive** or the **Company)**, advises that in relation to the late lodgement of the Appendix 3Y for Mr David Seldin released today:

1. The Appendix 3Y was lodged late due to administrative issues by the Company Secretary. As soon as issues were corrected, the form was lodged with the ASX.

2. The Company and its officers are aware of their obligations under ASX Listing Rules 3.19A and 3.19B. The Company has a Security Trading Policy in place which sets out the requirement to notify the Company of changes in interests.

The Company considers the late lodgement an isolated incident and believes that its current practices are adequate to ensure compliance with the ASX Listing Rules.

This announcement is approved for release by the Company Secretary.

About 6K Additive

6K Additive, Inc. (ASX:6KA) is a US-based manufacturer and trusted supplier of premium metal powders for additive manufacturing and alloy additions for the aluminum melt industry, all made from sustainable sources. Headquartered in Burgettstown, PA, the Company's manufacturing process produces the highest quality metal powders that are truly spherical, void of porosity and satellites with better unit economics than competing technologies. 6K Additive utilizes proprietary UniMelt® microwave plasma system to produce the industry's most comprehensive portfolio of metal powder including a variety of Nickel, Titanium, Copper, and refractory powders that include, Tungsten, Rhenium, Niobium/C-103 and Tantalum. 6K Additive leverages feedstock such as certified turnings, millings, used additive powder, support material and failed builds that provide customers sustainable, domestically sourced metal powder.
