Request for Extension of Voluntary Suspension – Microba Life Sciences Ltd (ASX: MAP)

Microba Life Sciences Ltd (ASX: MAP) (**Microba**) refers to the voluntary suspension of its securities granted on Tuesday, 17 November 2026.

Pursuant to ASX Listing Rule 17.2, Microba requests an extension to the voluntary suspension of its securities.

As at the date of this ASX Announcement, Microba's current cash reserves provide a limited cashflow runway, with the exact timeline under active review as management and the Board finalise its cashflow assessment and seek to identify funding options (**Stated Purpose**). As such, Microba considers that continued trading in its securities is likely to be materially prejudicial to its ability to complete any transaction to raise capital critical to its continued financial viability.

In accordance with ASX Listing Rule 17.2, Microba provides the following information:

(a) Microba requests the voluntary suspension be put in place until the earlier of commencement of trading on Friday, 27 November 2026 or such time that Microba makes an announcement to the market in relation to the Stated Purpose above;

(b) Microba is not aware of any reason why the voluntary suspension should not be granted; and

(c) Microba is not aware of any other information necessary to inform the market about the voluntary suspension.

Yours sincerely,

James Heath
CFO & Company Secretary
