Community Sponsorships and Donations

We are committed to making a positive and lasting contribution to the communities in which we operate. Through our community sponsorships, donations and in-kind support, we aim to support local priorities, strengthen community connections and create shared benefits.

We welcome requests from non-profit and community organizations that align with our values and focus areas, including education and skills development, youth and recreation, arts and culture, community health and well-being, and local environmental stewardship.

All requests are assessed on a voluntary basis, considering their alignment with our Corporate Social Responsibility Policy, the potential benefits to the community, and available resources. Our goal is to support initiatives that make a meaningful difference and contribute to thriving, resilient communities.

To submit a sponsorship or donation request, please complete the Community Sponsorships and Donations Application Form and send your request to; community@fireflymetals.ca
