

Commentary on Full Year Results

The Directors of Victor Group Holdings Limited (“Victor Group” or “the Company”) and its controlled entities (“the Group”) hereby present the Company’s Appendix 4E – Preliminary Final Report. Through this report, the Board seeks to provide an update to its Shareholders and the market on the results achieved for the financial year ended 30 June 2025. It should be noted that the group’s financial reporting period is from 1 July 2024 through 30 June 2025.

Overview: The loss for the consolidated entity after providing for income tax amounted to \$275,449 (30 June 2024: loss \$3,531,266). The prior period included approximately \$3.9m of pre-customer preparation expense that did not recur this year. FY25 also includes a \$(38,322) share of loss from the new LIT Technology associate, and a \$228,057 gain on disposal of certain legacy software intangibles.

Revenue rose 3% to \$8,751,555 (2024: \$8,498,254), driven by stronger software development and operations activity. Gross profit was \$2,096,758 (2024: \$2,291,891), with a gross margin of 24% (2024: 27%), reflecting revenue mix and cost dynamics in People’s Republic of China.

Balance sheet and liquidity: Net tangible assets increased to 0.76 cents per share (2024: 0.01 cents), supported by the balance sheet reset completed in FY24 and disciplined spend in FY25. Year-end cash was \$924,828 (2024: \$1,332,258). While cash and cash equivalents have decreased, based on current forecasts and available facilities, management expects liquidity to remain adequate.

Strategy and portfolio: On 3 December 2024, VIG completed the acquisition of a 25% stake in LIT Technology for \$4.32m (80,000,000 VIG shares at \$0.054), broadening exposure to digital payments in Vietnam. Post balance date, on 21 July 2025, shareholders approved the issue of 97,834,000 shares at \$0.06 to acquire 15% of iRich Finance, extending VIG’s fintech capabilities in Australia.

Outlook: Management will continue to prioritise higher-margin SaaS, PaaS and IaaS delivery, disciplined capital allocation, and integration of the new fintech associates to support sustainable growth.

About Victor Group Holdings Limited

All amounts are denominated in Australian Dollars unless otherwise stated.

Part 12 – Details of associates

On 3 December 2024, Victor Group Holdings Limited (VIG) acquired a 25% equity stake in LIT Technology Pty Ltd (LIT), a company incorporated in Australia with operations in Vietnam, for a total consideration of A\$4,320,000. The investment was settled through the issue of 80,000,000 fully paid ordinary shares in VIG at A\$0.054 per share. The transaction was subject to shareholder approval, which was obtained on 16 September 2024.

LIT Technology is engaged in providing digital payment solutions and financial services to small and medium enterprises (SMEs) and consumers in Vietnam. Given VIG's 25% ownership and its ability to exert significant influence over LIT's financial and operating policies, the investment is classified as an associate under AASB 128 – Investments in Associates and Joint Ventures and is accounted for using the equity method.

Foreign Currency Translation Reserve	649,190	325,062
	<u>1,206,704</u>	<u>882,576</u>

Pursuant to the current People's Republic of China Company Law, the Company is required to transfer 10% of its profit after taxation to statutory reserve until the surplus reserve balance reaches minimal 50% of the registered capital.

For the purpose of calculating the transfer to this reserve, the profit after taxation shall be the amount determined under the People's Republic of China accounting standards. The transfer to this reserve must be made before the distribution of dividends to the shareholders.

Foreign Currency Translation Reserve

The foreign currency translation reserve represents exchange differences arising from translation of the parent entity's subsidiaries functional currency (RMB) into the presentation currency of the Group (AUD).

Part 14 – Commentary to Financial Results

Overview of results

For the year ended 30 June 2025 sales revenue increased by \$253,301 and gross profit decreased by \$195,133, while the group realised a loss of \$275,449 from operations (30 June 2024: \$3,531,226). The reduction in loss and increase in sales revenue are largely due to the improved economic conditions faced in the 2025 financial year.

The group anticipates that the online education market in Australia will continue to thrive in the coming years. As such, it will seek to develop a more effective strategy while continuing to explore the local market. Management remains committed to safeguarding the group's cash flow and will focus capital expenditure on projects that offer high certainty and stability. The group recorded a \$924,828 cash and cash equivalents position at the end of the financial year (30 June 2024: \$1,332,258). Despite the reduction in the cash and cash equivalents position, management anticipates the group's cash flow will remain at a healthy state.

Significant Changes in the State of Affairs

During the financial year, the company completed the acquisition of a 25% equity interest in LIT Technology Pty Ltd for a total consideration of A\$4,320,000, which was satisfied through the issuance of 80,000,000 fully paid ordinary shares at A\$0.054 per share. This transaction resulted in an increase in issued capital and a corresponding recognition of an investment in associate, reflecting the company's expansion into digital financial services in Vietnam.

The transaction was approved by shareholders on 16 September 2024 and has been accounted for using the equity method in accordance with AASB 128 Investments in Associates and Joint Ventures. Aside from this investment, there were no other significant changes in the state of affairs of the company during the financial year.

Part 15 – Share capital

During the year, the company issued 80,000,000 fully paid ordinary shares at A\$0.054 per share as consideration for the acquisition of a 25% interest in LIT Technology Pty Ltd. These shares carry the same rights and obligations as the existing ordinary shares.

Part 17 – Subsequent Events

On 21 July 2025, shareholders approved (by poll) the issue of 97,834,000 fully paid ordinary shares as consideration for the acquisition of a 15% equity interest in iRich Finance Pty Ltd. This approval follows and implements the transaction previously disclosed in the Company's Appendix 3B lodged on 5 June 2025, which outlined the proposed terms of the share issue and acquisition.

The issue price is A\$0.06 per share (indicative total consideration of approximately A\$5.87 million). The shares rank equally in all respects with existing ordinary shares and are subject to 12 months' voluntary escrow from the issue date (release subject to Board approval). The vendors are independent of the Group.

This is a non-adjusting subsequent event under AASB 110. Accordingly, no adjustments have been made to the amounts recognised in the FY25 financial statements. The financial effects, if any, will be recognised in the period in which the transaction completes and the shares are issued, with the equity consideration measured at fair value at the issue date.

No other matter or circumstance has arisen since 30 June 2025 that has significantly affected, or may significantly affect, the Group's operations, results or state of affairs in future financial years.

Part 18 – Contingent liabilities

There were no contingencies as at 30 June 2025 (2024: nil).

Part 19 – Segment reporting

The consolidated entity is organised into predominantly 2 operating segments: The first consisting of SaaS, IaaS and PaaS solutions and the second being Cloud Education. These operating segments are based on the internal reports that are reviewed and used by the Board of Directors (who are identified as the Chief Operating Decision Makers ('CODM')) in assessing performance and in determining the allocation of resources.

The consolidated entity is managed primarily on the basis of product category and service offerings as the diversification of the consolidated entity's operations inherently have notably different risk profiles and performance assessment criteria. Operating segments are therefore determined on the same basis. There have been no changes from prior period in the measurement methods used to determine operating segments and reported profit and loss.

Part 20 – Audit Status

This report is based on accounts to which one of the following applies: (Tick one)			
The accounts have been audited	<input type="checkbox"/>	The accounts have been subject to review	<input type="checkbox"/>
