Introduction

ASX:ACU FY24-25

ACUMENTIS 2025 ANNUAL REVIEW

At Acumentis, we remain proud to be a service-focused, people-centric organisation. Our priority is to deeply understand our clients’ goals and provide trusted advice that empowers them to move forward with confidence.

Our people-first culture and the tangible outcomes we deliver continue to set us apart, driving enhanced client satisfaction while also attracting and retaining the industry’s top talent. With a focus on quality, innovation, and agility, we continually challenge ourselves to evolve and adapt in an ever-changing and competitive market.

Expanding Reach & Services

Acumentis’ diversification strategy continues to strengthen and mature. Several years ago, we identified over-reliance on mortgage finance valuations as a business risk, leaving the company exposed to property market cycles and fee pressure.

By prioritising service diversification, investing in upskilling, and recruiting strategically, we have successfully reshaped our business. Today, **non-mortgage related services represent more than 45% of total revenue**, demonstrating consistent progress in building resilient and sustainable income streams.

Growth has been driven by expanding our Projects & Infrastructure, Asset Advisory, and Business Valuations divisions, along with increasing demand for services across the Self-Managed Super Fund (SMSF) and Family Law sectors. Looking ahead, we remain committed to strengthening these markets while identifying new opportunities that align with our expertise and values.

SMSF ASSESSMENTS | FAMILY LAW SERVICES | ACQUISITION & COMPENSATION | ASSET ADVISORY INC. PLANT & EQUIPMENT

Our People, Our Strength

The success of Acumentis is powered by the enthusiasm, expertise, and client-focused commitment of our people. Guided by our values, our “compass” shows every decision and action is aligned with the principles that shape our culture and performance.

Our Guiding Principles are:

- Never Quit
- Embrace Equality of Opportunity
- Support Our People & Clients
- Walk the Talk

Making A Difference In Our Communities

Giving back remains central to who we are. Through our “Acumentis Caring for a Cause” program, we continue to support a wide range of charities and community initiatives. Our people also play a strong role, with many team members participating in fundraising events and championing causes close to their hearts. In 2025, Acumentis increased its direct contribution to local initiatives, further strengthening our community impact.

Quality, Safety & Trust

Acumentis remains unwavering in its commitment to quality, safety, and security for our clients, stakeholders, and people. We are proud to continue holding and expanding internationally recognised certifications:

These certifications reinforce our promise to deliver trusted, safe, and high-quality outcomes, ensuring confidence in every interaction with Acumentis.

Chairman's Report

It is with pleasure I present my Chairman's report for the FY25.

The last financial year saw a further improvement in the financial results of the business as the strategies pursued for several years continue to benefit the business. We have seen operating revenues grow by 4% year on year, resulting in operating profit increase by 35% and PBT increase by 13%.

With the continued improvement in profits, we are pleased to declare a final dividend of 0.22 cents per ordinary share. Whilst our profits indicate capacity for an increased dividend, the Board is focused on further investment in the company to deliver continued growth and diversification in revenue. We remain committed to improving profitability while reducing operating costs as a percentage of turnover. We believe these investments will position us to deliver greater returns to our loyal shareholders in the near future.

These results are the culmination of many years of hard work by the directors, executive management and employees. They also confirm the strategies in place continue to strengthen and grow the business.

Our strategy to continually diversify our services and products has driven growth in revenues from non-mortgage related areas. To sustain this momentum, we must continue to innovate by anticipating the needs of today's customers while also preparing for the customer of tomorrow. We believe the mortgage market will become increasingly competitive, making diversification and innovation essential to our long term success

Most economists expect modest improvement in economic conditions throughout Australia in FY26, supported by easing inflation and anticipated interest rate cuts. While global uncertainty and trade tensions remain key risks, the Australian economy is projected to strengthen over the coming year. The Company is well-positioned to benefit from this outlook, with its diversified revenue base, strong market presence, and continued focus on disciplined cost management and strategic growth initiatives, all of which provide a solid foundation for sustained profitability.

Taxation policy relating to self-managed super funds (SMSFs) is also expected to drive demand for both valuation services and depreciation schedules. These requirements are increasingly being mandated by trustees and auditors. Acumentis has strengthened its capability in this area, now conducting depreciation work in-house. This assists with margin improvement and greater control over service delivery.

Population growth, supported by net overseas migration continues to place upward pressure on housing demand, particularly in Sydney, Melbourne and Brisbane. Government initiatives to address housing supply, including build-to-rent and social infrastructure programs, are expected to generate new valuation and advisory opportunities as projects move through feasibility and financing stages.

The Company's national footprint, and ongoing investment in technology - including increasing use of AI - position it strongly to respond to these dynamics. While challenges remain, I believe the combination of improving credit conditions, refinancing activity, and structural demand for housing will underpin heightened levels of property advice and valuation activity through FY26. In parallel, we will maintain a strong focus on recruiting skilled executives to deliver high quality valuation and advisory services to our clients across financial institutions, corporate & private clients and, of course, government entities.

As we look ahead to the new financial year and beyond, with a clear focus on growth and on continuing to reward our shareholders, I would like to thank our senior leadership team, my fellow directors, all the Acumentis staff, our clients and our shareholders for their hard work, commitment and ongoing support of the business.

Keith Perrett
Acumentis Chairman

CEO's Report

Dear Shareholders,

I am pleased to present my FY25 CEO report to shareholders following a year in which we have delivered a 35% increase in underlying profit from \$1,260k in FY24 to \$1,701k in FY25. This is a result of the strategies we have implemented and executed over the last 2 years, including continuous diversification into higher margin revenue services, as well as a continued focus on costs and operational efficiency.

Revenue Growth & Diversification

Part of our Strategic Plan is to grow our alternate revenue services, whether that be tax depreciation, the self-managed super fund market, increasing our quantity surveying business or on general consultancy work.

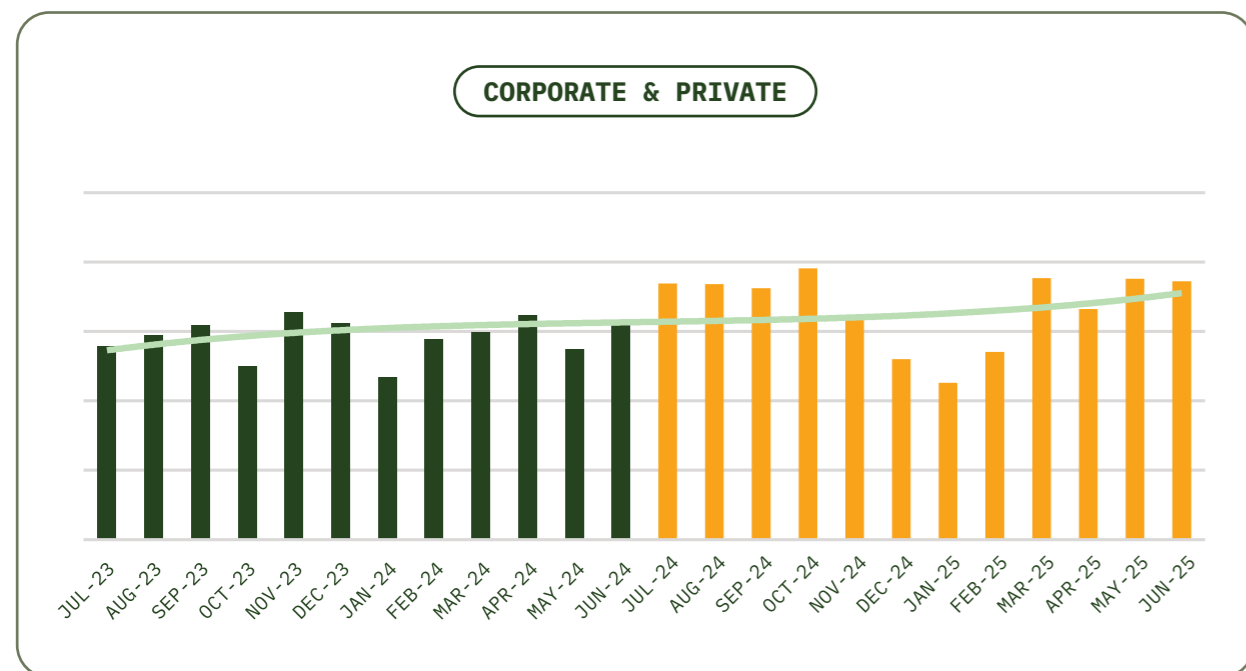

Over the last 5 years we have grown our revenue from our FY21 base, and in FY25 we continued to grow our top line revenue, delivering a 3.4% increase from FY24 of \$56.2M to \$58.1M in FY25.

“

I would also like to thank our many clients across all sectors who continue to engage with Acumentis, allowing Acumentis to deliver decision certainty and valuable services in support of their business success.

This increase has been most notable across our corporate and private work which has grown by approximately 16% from \$17.5M in FY24 to \$20.1M in FY25. This growth has offset a small reduction in our government work, which was the result of the NSW Government choosing to take various rating and taxing valuation contracts inhouse, we don't expect this to affect our other Government contracts

This increase in corporate and private work has been actively targeted as part of our diversification strategy, which we will continue to pursue and expand over the coming years.

Quantity Surveying Services

An outcome we are particularly pleased to have delivered on is internalising our tax depreciation and quantity surveying business work. Historically, we have worked with a partner to outsource this work, however in late 24/25 we have brought this service inhouse by employing our own team. This will not only help drive future profitability, but it will improve processes and increase efficiency, meaning we can provide a better service to our clients going forward.

Market Outlook

With signs that inflation is easing, there is an anticipation that interest rates will fall, and based on this we expect market conditions, subject to factors around global uncertainty and trade issues, to improve in FY26.

We expect stronger revenue through a combination of growth in our diversified business lines, as well as a pickup in residential and commercial instructions as interest rates ease and activity increases accordingly.

As our industry changes, we continue to look for opportunities to support our revenue and PBT growth, not only in our traditional valuation business but also in our new diversified business lines including tax depreciation, land acquisition and ESG services.

Conclusion

As we finish our reporting for FY25, I would like to take this opportunity to personally thank our Board of Acumentis Directors, our senior leadership team, and the talented, dedicated, hardworking and supportive team of employees across Australia.

As a business we are only as good as our people and I thank you all for everything you do and your ongoing commitment, despite the pressure and constant changing nature of our industry, and for your care and support of our clients.

I would also like to thank our Chairman, Keith Perrett, who is a great supporter and strong believer in the business.

To all our clients across Australia, both new and old, thank you for working with us and trusting us to assist you with your property needs and for allowing us to provide decision certainty in support of your business and personal property decisions.

Finally, I want to express my continued appreciation of our Shareholders and for your support. I look forward to continuing to reward this support through increasing profits, dividends and share price into the future.

*These numbers have been restated. Refer to note 10 for details.

The Company achieved a 4% year-on-year increase in revenue from continuing operations and average annual growth of 7.2% over the past four years. This result was driven by a 15% increase in revenue from corporate and private clients and a 2% increase in revenue from financial institutions, which more than offset a 23% decline in revenue from government clients following the conclusion of a major contract.

Operating profit for the year was \$1,701K (FY24: \$1,260K), representing a 35% increase from the prior year. Employment costs rose due to strategic investments in key management roles, positioning the business for continued execution of its diversification strategy. The company remains focused on expanding revenue streams from corporate and private clients, government clients, as well as from non-finance related valuation and advisory services. Overhead expenses remained tightly controlled. Profit after tax for the year was \$1,180K (FY24 \$1,325K).

Business Overview

During the financial year, the Company continued to execute its diversification strategy, achieving a 4% increase in revenue from operations. Strong growth from corporate and private clients underpinned performance and reflected the benefits of prior efforts in broadening the Company's client base. The overall business model remains consistent, with non-financial services clients continuing to contribute approximately 40% of total revenue, highlighting the Company's diversified and resilient customer base.

Outlook

The Board expects modest improvement in economic conditions in FY26, supported by easing inflation and anticipated interest rate cuts. While global uncertainty and trade tensions remain key risks, the Australian economy is projected to strengthen over the year. The Company is well-positioned to benefit from this, with its diversified revenue base, strong market presence, and continued focus on disciplined cost management and strategic growth initiatives providing a solid foundation for continued profitability.

Taxation policy relating to self-managed super funds (SMSFs) is also expected to drive demand for both valuation services and depreciation schedules. These requirements are increasingly being mandated by trustees and auditors. Acumentis has strengthened its capability in this area, conducting depreciation work internally. This assists with margin improvement and greater control over service delivery.

Population growth, supported by net overseas migration continues to place upward pressure on housing demand, particularly in Sydney, Melbourne and Brisbane. Government initiatives to address housing supply, including build-to-rent and social infrastructure programs, are expected to generate new valuation and advisory opportunities as projects move through feasibility and financing stages.

The Company's diversified service base, national footprint, and ongoing investment in technology including increasing use of AI, position it well to respond to these dynamics. While challenges remain, the Board believes the combination of improving credit conditions, refinancing activity, and structural demand for housing will underpin heightened levels of property advice and valuation activity through FY26.

Dividends

On 20 August 2025, the Directors resolved to pay a final, fully franked, dividend of 0.22 cents per ordinary share totalling \$490,501 (FY24: \$487,201).

The record date for the final dividend will be 5 September 2025, with payment to be made on 12 September 2025. Shares will trade excluding entitlement to the final dividend on 4 September 2025.

Events subsequent to the end of the reporting period

There were no significant events subsequent to the end of the reporting period

State of affairs

There have been no significant changes in the state of affairs of the Consolidated Entity that occurred during the year under review.

Likely Developments

Refer to the Outlook included in this Directors' Report above.

Environmental regulation

The operations of the Consolidated Entity are not subject to any significant environmental regulation under a law of the Commonwealth or of a State or Territory.

REMUNERATION REPORT – AUDITED

People & Culture Committee

The People & Culture Committee incorporates the roles of a Nominations & Remuneration Committee.

A major role of the People & Culture Committee is to ensure that the remuneration policies and outcomes achieve an appropriate balance between the interests of Acumentis Group shareholders and rewarding and motivating executives and employees in order to achieve their long-term commitment to the Consolidated Entity. The committee meets as required but generally at least four times per year. The members of the People & Culture Committee during the year were:

Name	Independent	Non-executive
Current members		
Keith Perrett (Member from 6 December 2024 and Chair from 20 February 2025 until 12 August 2025)	Y	Y
Leslie Wozniczka (Member from 22 April 2021)	N	Y
Jo Mikleus (Member from 1 December 2023)	Y	Y
Michael Wilde (Member and Chair from 12 August 2025)	Y	Y
Former members		
Andrea Staines (Member & Chair from 21 November 2019 until 22 October 2024)	Y	Y

Remuneration strategy

Remuneration levels are competitively set to attract and retain appropriately qualified and experienced directors and senior executives.

The remuneration of the Consolidated Entity's senior executives includes a mix of fixed components and performance-based incentives comprising short term incentives ("STI's") and long-term incentives ("LTI's").

Component	Settled	How Measured
Fixed	Cash	Market rates, reviewed annually.
STI	Cash	The performance of the Consolidated Entity and the individual performance of the executives based on achievement of specific key performance indicators (KPI's) which include financial and non-financial targets. STI's and the associated KPI's are reviewed and set annually with STI payments, if any, being made post finalisation of the annual external audit.
LTI	Share Based	The performance of the Consolidated Entity and the individual performance of the executives. The performance of the Consolidated Entity is based on total shareholder return and earnings per share. LTI's have a minimum period of 3 years and are forfeited if the executive ceases to be employed by the Consolidated Entity.

The board considers that the performance-based incentive is appropriate as it directly aligns the individuals reward with the Consolidated Entity's performance.

In considering the Consolidated Entity's performance, the board has regard to the following indices in respect of the current financial year and previous years.

	2025 \$000	2024 \$000	2023 \$000	2022 \$000	2021 \$000
Revenue from rendering services	58,119	56,203	53,519	55,163	44,043
EBITDA ¹	3,835	3,433 ²	3,420	2,035	4,902
Net profit / (loss) to equity holders of the Company	1,180	1,325 ²	429	1,445	(9,688)
Earnings / (loss) per share (cents)	0.53	0.60 ²	0.23	0.83	(6.19)

- EBITDA excludes gain on de-recognition of investment in associated company in 2022, fair value adjustment on early settlement of deferred, contingent consideration in 2024 and gain on disposal of non-current assets.
- In the table above, the 2024 financial information has been restated to reflect the correction of a prior period error, as detailed in Note 10 to the financial statements. Earlier years (prior to 2024) have not been restated, as determining the profit or loss impact for those periods would require extensive recalculations to allocate the correction across financial years. Given the age of those periods and their limited relevance to current performance, the directors consider restating the 2024 comparatives, along with the corrected 2023 closing balance sheet position, provides users with sufficient context to assess year-on-year trends.

The factors that are considered to affect total shareholders return are summarised below.

	2025	2024	2023	2022	2021
Dividends declared (per share)	0.22 cents	0.22 cents	-	-	-
Share price at the end of the period	\$0.073	\$0.067	\$0.061	\$0.095	\$0.115

Non-executive directors are paid an annual fee for their service on the board and committees which is determined by the People & Culture Committee. Aggregate remuneration for all non-executive directors is not to exceed \$580,000 per annum as approved by the shareholders. Non-executive directors' aggregate salary & fees for the year were \$319,302. These fees include statutory superannuation. Non-executive directors do not receive bonuses nor are they entitled to be issued with options or performance rights on securities in the Consolidated Entity. Non-executive directors do not receive any retirement benefits other than statutory superannuation payments. Non-executive directors do not receive separate fees for committee memberships, however, from February 2024, fees for chairing these committees were introduced (Chair of Audit & Risk Committee - \$20,000 pa, Chair of People & Culture Committee - \$15,000 pa). In circumstances where the Chair of the Board also chairs a committee, no committee chairing fee is paid.

The Consolidated Entity has a policy that prohibits those that are granted share-based payments as part of their remuneration from being compensated for changes in value of the underlying securities.

Notes in relation to the table of directors' and executive officers' remuneration

(a) Analysis of options & performance rights included in remuneration

Option & Performance Rights – Share Based Payments

The directors at their discretion allocate share options or performance rights that entitle key management personnel and senior employees to be issued shares in the Company. The terms of any options and performance rights including vesting conditions and performance criteria vary depending upon the incentive arrangements appropriate for key management personnel and senior employees and are a part of an approved Employee Share Acquisition Scheme, which was initially approved by shareholders at the 2018 Annual General Meeting and renewed for a further 3 years at the 2021 and 2024 Annual General Meetings.

Options

There were no options held by key management personnel outstanding at the date of this report (2024: none).

Performance Rights

Performance rights may be granted under the Acumentis Group Performance Rights and Option Plan which was first approved by shareholders at the 2018 Annual General Meetings and the approval was renewed for a further 3 years at the 2021 and 2024 Annual General Meetings. The Plan allows the Company to grant options or rights to selected senior executives to acquire ordinary shares in the Company. Participants are required to satisfy performance and service conditions at the time of the offer. The exercise price for performance rights is nil. Rights cannot be transferred and are not quoted on the ASX.

Performance rights on issue are as follows:

Tranche	Date	Transaction	Chief Executive Officer	Chief Financial Officer	Other employees	Total

2.5 & 3.4 cents for FY24	2.6 & 3.5 cents for FY25			1.0 & 2.0 cents for FY26

The Board has the discretion to adjust the number of rights that ultimately vest and/or the service condition period if it forms the view that the unadjusted outcome is not appropriate to the circumstances that prevailed over the measurement period.

The Board has discretion to determine that some or all unvested rights held lapse on a specified date if allowing the rights to vest would, in the opinion of the Board, result in an inappropriate benefit to the rights holder. Such circumstances would include joining a competitor or actions that harm the Consolidated Entities' stakeholders.

In the case of fraud or misconduct, all unvested rights will be forfeited.

Vesting and exercise of performance rights issued during prior years

During the year ended 30 June 2025, 1,000,000 performance rights vested and were exercised by the Chief Executive Officer and 500,000 for the Chief Financial Officer (2024: none).

(b) Analysis of short term incentives included in remuneration

The executive officers named are those who are directly accountable and responsible for the strategic direction and operational management of the Consolidated Entity. The directors are of the opinion that only the executive officers detailed above meet the definition of key management personnel as set out in AASB 124 Related Party Disclosures.

Transactions with Director-Related Entities

The Consolidated Entity did not enter into any transactions with any director-related entities, except for payment of non-executive directors' fees to some directors, in either of the years ended 30 June 2024 or 30 June 2025.

END OF REMUNERATION REPORT

Proceedings on behalf of the consolidated entity

During the financial year and in the interval between the end of the financial year and the date of this report the Consolidated Entity has made no application for leave under Section 237 of the *Corporations Act 2001*.

No person has applied for leave of court to bring proceedings on behalf of the Consolidated Entity or intervene in any proceeding to which the Consolidated Entity is a party for the purpose of taking responsibility on behalf of the Consolidated Entity for all or any part of these proceedings. The Consolidated Entity was not a party to any such proceedings during the year.

Directors' Interests

The relevant interest of each director in the shares issued by the Company as notified by the Directors to the Australian Securities Exchange in accordance with S205G(1) of the *Corporations Act 2001*, at the date of this report is as follows:

Shares issued on exercise of options

There were no options exercised during the year (2024: Nil).

Indemnification and Insurance of Officers and Auditors

Officers

The Company has agreed to indemnify all current Directors of Acumentis Group Limited to the maximum extent permitted by law against any liability incurred by them by virtue of their holding office as an officer of the Consolidated Entity other than:

- a liability owed to the Consolidated Entity or a related body corporate of the Company;
- a liability for a pecuniary penalty order under section 1317G of the Law or a compensation order under section 1317H of the Law; or
- a liability owed to a person other than the Consolidated Entity that did not arise out of conduct in good faith.

Since the end of the previous financial year, the Consolidated Entity has paid premiums in respect of Directors and Officers liability insurance, for all past, present, or future directors, secretaries, officers or employees of the Consolidated Entity. Conditions of the Insurance policy restrict disclosure of the premium amount.

The insurance premiums relate to:

- costs and expenses incurred by the relevant officers in defending proceedings, whether civil or criminal and whatever their outcome
- other liabilities that may arise from their position, with the exception of conduct involving a wilful breach of duty or improper use of information or position to gain a personal advantage.

Further details of insurance policies have not been disclosed as the policies prohibit such disclosure.

Auditors

The Company has not, during or since the end of the financial year, indemnified or agreed to indemnify the auditor of the Company or any related entity against a third-party liability incurred by the auditor.

During the year, the Company has not paid a premium in respect of a contract to insure the auditor of the Company or any related entity.

Rounding of Amounts

The Consolidated Entity has applied the relief available under ASIC Instrument 2016/191 and accordingly, amounts in the financial statements and directors' report have been rounded to the nearest thousand dollars, or in certain cases, to the nearest dollar.

Auditors Independence Declaration under Section 307C of the *Corporations Act 2001*

The auditor's independence declaration is set out on page 35 and forms part of the Directors' Report for the financial year ended 30 June 2025.

Non-audit Services

During the year, William Buck, the Company's auditor, has performed certain other services in addition to their statutory duties.

The board has considered the non-audit services provided during the year by the auditor and in accordance with written advice provided by resolution of the Audit & Risk Committee, is satisfied that the provision of those non-audit services during the year by the auditor is compatible with, and did not compromise, the auditor independence requirements of the *Corporations Act 2001* for the following reasons:

- all non-audit services were subject to the corporate governance procedures adopted by the Consolidated Entity and have been reviewed by the Audit & Risk Committee to ensure that they do not impact the integrity and objectivity of the auditors; and
- the non-audit services provided do not undermine the general principles relating to auditor independence as set out in APES 110 Code of Ethics for Professional Accountants (including Independence Standards), as they did not involve reviewing or auditing the auditor's own work, acting in a management or decision-making capacity for the Consolidated Entity, acting as an advocate for the Consolidated Entity or jointly sharing risks and rewards.

Details of the amounts paid to the auditors of the Consolidated Entity, William Buck, and its related practices for audit and non-audit services provided during the year are set out below:

	2025	2024
Statutory and other audit services	\$000	\$000
Full year audit	165,000	160,000
Half year review	60,000	60,000

HOW THE NUMBERS ARE CALCULATED

This section provides additional information about those individual line items in the financial statements that the directors consider most relevant in the context of the operations of the entity, including:

- Accounting policies that are relevant for an understanding of the items recognised in the financial statements. These cover situations where the accounting standards either allow a choice or do not deal with a particular type of transaction;
- Analysis and sub-totals, including segment information; and
- Information about estimates and judgements made in relation to particular items.

1 Revenue

	2025 \$000	2024 \$000
Revenue from rendering of services	58,034	56,164
Recovery of disbursements	64	18
Recharge of shared services to licensees	21	21
	58,119	56,203

(a) Revenue from rendering of services

Revenue from the rendering of services to clients is recognised when the individual performance obligation under the applicable contract is satisfied and at the price agreed in the contract. For the majority of contracts, there is a single performance obligation at the completion of the service and revenue is recognised at this point.

(b) Recovery of disbursements

Where the contract with the client allows the recovery of disbursements incurred in delivering the services, these are billed to the client at the time the performance obligation in the contract is satisfied or in accordance with an agreed billing schedule as appropriate.

(c) Recharge of shared services to licensees

Revenue relating to the provision of shared services to licensees is billed and recognised on a monthly basis over the term of the agreement relating to the provision of such services.

2 Material profit or loss items

The Consolidated Entity has identified a number of items which are material due to the significance of their nature and/or amount. These are listed separately here to provide a better understanding of the financial performance of the Consolidated Entity.

	Notes	2025 \$000	2024 \$000
Income			
Fair value adjustment on early settlement of deferred, contingent consideration	5(h)(i)	-	995
Expenses			
Impairment of intangible assets - computer software	6(v)	-	273
Settlement of cyber insurance aggregation claim	16	-	300
Costs incurred and provision for settlement of legal claim within insurance excess		-	180

3 Other income and expense items

This note provides a breakdown of the items included in 'other income' and 'finance income and expenses'. Information about specific profit and loss items (such as gains and losses in relation to the sale of plant & equipment) is disclosed in the related statement of financial position notes.

(a) Other income

	Notes	2025 \$000	2024 \$000
Fair value adjustment on early settlement of deferred, contingent consideration	5(h)(i)	-	995
Licence fee income		103	(32)
Sundry income		39	16
		142	979

Licence fee income represents fees charged to non-controlled entities which had been licenced to use the Acumentis brand and systems. Licence fees are charged as a percentage of revenue earned by the licensee. The negative income in 2024 is due to the write back of over-accrued income of \$197,000 from earlier years.

(b) Finance income and expense

	2025 \$000	2024 \$000
Finance income		
- Employee loans - \$nil capitalised (2024: nil)	12	13
- Lease income from sublease	3	18
- Term deposits	45	16
- Bank accounts	35	18
	95	65
Finance expenses		
- Borrowings	(45)	(31)
- Leases	(144)	(140)
- Overdrafts	-	-
- Insurance premium finance	(59)	(100)
	(248)	(271)

Finance income comprises interest income on funds invested. Interest income is recognised using the effective interest rate method, which, for floating rate financial assets, is the rate inherent in the instrument. Interest income is recognised as it accrues in the Statement of Profit & Loss and Other Comprehensive Income.

Finance expenses comprise interest expense on borrowings, leases and unwinding of the discount on financial assets. All borrowing costs are recognised in the Statement of Profit & Loss and Other Comprehensive Income using the effective interest method.

4 Income tax expense

This note provides an analysis of the Consolidated Entity's income tax expense, shows what amounts are recognised directly in equity and how the tax expense is affected by non-assessable and non-deductible items. It also explains significant estimates made in relation to the Consolidated Entity's tax position.

(a) Income tax expense

	2025 \$000	2024 \$000
Current tax		
Current year tax payable	446	(244)
Utilisation of brought forward tax losses	(446)	(244)
Adjustments for prior years	-	-
Total current tax expense	-	-
Deferred income tax		
Decrease in deferred taxes (note 6(e))	531	177*
Total deferred tax expense	531	177
Adjustment for prior years	(10)	-
Income tax expense	521	177

(b) Reconciliation of income tax expense to prima facie tax payable

	2025 \$000	2024 \$000
Profit from continuing operations before tax	1,701	1,502*
Prima facie income tax payable calculated at 30% on profit	510	451*
Increase / (decrease) in income tax expense due to:		
- Non-deductible entertainment expenses	21	25
- Effect of fair value adjustment on early settlement of deferred, contingent consideration	-	(299)
	531	177
Adjustments for prior years	(10)	-
Income tax expense	521	177

*These numbers have been restated. Refer to note 10 for details.

5 Financial assets and financial liabilities

This note provides information about the Consolidated Entity's financial instruments, including:

- An overview of all financial instruments held by the Consolidated Entity;
- Specific information about each type of financial instrument;
- Accounting policies; and
- Information about determining the fair value of the instruments, including judgements and estimation uncertainty involved.

The Consolidated Entity holds the following financial instruments:

	Note	2025 \$000	2024 \$000
Financial assets at amortised cost			
Cash and cash equivalents	5(a)	4,429	4,140
Term deposits	5(b)	713	940
Trade and other receivables	5(c)	5,864	5,702
Other financial assets	5(d)	173	280
		11,179	11,062
Financial liabilities at amortised cost			
Trade and other payables	5(e)	3,773	4,240
Borrowings	5(f)	-	39
Lease liabilities	5(g)	2,051	1,939
Deferred fixed consideration	5(h)	-	134
		5,824	6,352
Financial liabilities at fair value			
Deferred contingent consideration	5(h)	111	153

(a) Cash and cash equivalents

	2025 \$000	2024 \$000
Cash at bank and on hand	4,164	3,945
Receivables finance facility	265	195
Cash and cash equivalents in the Statement of Cash Flows	4,429	4,140

The receivables finance facility is able to be drawn down without notice and funds are immediately available. Receipts from trade receivables are banked into a specific bank account which is swept each day to credit the receivables finance account. As a result, the receivables finance account balance may fluctuate between being positive to being negative.

The receivables finance account forms an integral part of the Consolidated Entity's cash management and is operated as though it was a bank account with an overdraft facility.

The receivables finance facility account is therefore included in cash and cash equivalents in accordance with the requirements and definitions in Australian Accounting Standard AASB107 Cash Flow Statements.

Access was available at the reporting date to the following lines of credit:

	2025 \$000	2024 \$000
Available		
Receivables finance facility	3,000	3,000
Unused at reporting date		
Receivables finance facility	3,000	3,000

The receivables finance facility may be drawn at any time, may be terminated by the bank without notice and is secured via floating charges over the trade receivables of the Consolidated Entity together with fixed and floating charges of the other assets and business of the Consolidated Entity.

The facility carries interest at the 30-day bank bill rate plus a margin of 1.35%. The current rate is 6.26%. A line fee of 1.75% is also charged.

The facility is subject to annual review with the next review in October 2025.

(b) Term deposits

	2025 \$000	2024 \$000
Current		
Term Deposits	243	261
Non-current		
Term Deposits	470	679
Total	713	940

Term deposits are held to provide security for bank guarantees, which are required for property leases and a customer contract. Property leases are typically for fixed periods of up to 7 years but may include extension options. Term deposits have maturities ranging from 1 to 12 months, however will be rolled over for as long as bank guarantees are required to be kept.

(c) Trade and other receivables

	2025 \$000	2024 \$000
Current		
Trade receivables	5,907	5,738
Less: provision for expected credit losses	(95)	(82)
Other receivables	52	46
	5,864	5,702

(i) Classification as trade and other receivables

Trade receivables are amounts due from customers for services performed in the ordinary course of business. Other receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. If collection of the amounts is expected in one year or less they are classified as current assets. If not, they are presented as non-current assets. Trade receivables are generally due for settlement within 30 days and therefore are all classified as current. The Consolidated Entity's impairment policy for trade and other receivables is outlined in note 12(a).

(ii) Fair values of trade and other receivables

Due to the short-term nature of the current receivables, their carrying amount is considered to be the same as their fair value.

(iii) Impairment and risk exposure

Information about the impairment of trade and other receivables, their credit quality and the Consolidated Entity's exposure to credit risk, foreign currency risk and interest rate risk can be found in note 12(a).

(d) Other financial assets

	2025 \$000	2024 \$000
Current		
Lease receivable - right of use assets	-	95
Employee loans (note 19(d))	173	10
	173	105
Non-current		
Lease receivable - right of use assets	-	-
Employee loans (note 19(d))	-	175
	-	175
Total	173	280

(e) Trade and other payables

	2025 \$000	2024 \$000
Current		
Trade payables	942	739
Other payables and accrued expenses	2,831	3,401
	3,773	4,140
Non-current		
Other payables and accrued expenses	-	100
Total	3,773	4,240

Trade payables are unsecured and are usually paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

(f) Borrowings

	2025 \$000	2024 \$000
Current		
Motor vehicle loan	-	8
Non-current		
Motor vehicle loan	-	31

Repayments	(39)
Balance as at 30 June 2025	-

Secured liabilities

The motor vehicle loan carried fixed interest at 3.49% and had total repayments of \$836 per month. The motor vehicle loan was secured by fixed charge over the related motor vehicle. The loan was repaid on 8 April 2025.

(g) Lease liabilities

	2025 \$000	2024 \$000
Current		
Lease liabilities - right of use assets	883	1,179
Non-current		
Lease liabilities - right of use assets	1,168	760

One year or later and no later than five years	1,153	799
Later than five years	-	-
	2,228	2,043
Future finance charges	(177)	(104)
Recognised as a liability	2,051	1,939

Secured liabilities

Lease liabilities are effectively secured as the interests in the right of use assets recognised in the financial statements revert to the lessor in the event of default.

(h) Deferred consideration

Deferred consideration relates to the acquisition of Acumentis (WA) Holdings Pty Ltd (“ACU WA”) on 1 July 2021, the acquisition Acumentis (SA) Pty Ltd (“ACU SA”) on 1 February 2022 and the acquisition of the business and assets of Gill Wright & Associates Business Valuations (“GWA”) on 1 February 2024.

	2025 \$000	2024 \$000
Current		
Fixed consideration - Early settlement of deferred consideration		
ACU WA payable 19 July 2024	-	120
ACU SA payable 19 July 2024	-	14
	-	134
Contingent consideration		
GWA payable March 2025	-	42
GWA payable March 2026	51	-
	51	176
Non-Current		
Contingent consideration		
GWA payable March 2026	-	51
GWA payable March 2027	60	60
	60	111
Total	111	287

(i) Contingent consideration

Contingent consideration of \$797,000 was recognised for the acquisition of ACU WA, \$466,000 for the acquisition of ACU SA and \$153,000 for the acquisition of GWA.

In May 2024, Acumentis reached agreement with the vendors of ACU WA and ACU SA to settle the deferred, contingent consideration early at reduced amounts of \$240,000 for ACU WA and \$27,778 for ACU SA. 50% of these amounts were settled via the issue of Acumentis ordinary shares on 21 May 2024 with the balance paid in cash on 19 July 2024. The early settlement resulted in a fair value adjustment recognised within other income of \$557,000 for ACU WA and \$438,000 for ACU SA.

The fair value of the contingent consideration for GWA is based upon estimates of revenues generated by the acquired business for the period to January 2027. These estimates are based on pre-acquisition trading and managements’ assessments of growth to be achieved when the business is integrated into the wider Acumentis group.

Contingent consideration has not been discounted to its present value as the effect is not material.

Movement in deferred contingent consideration

	2025 \$000	2024 \$000
Balance at 1 July	153	1,263
Acquisition of GWA	-	153
Settled early		
• ACU WA	-	(240)
• ACU SA	-	(28)
Fair value adjustment recognised in other income		
• ACU WA	-	(557)
• ACU SA	-	(438)
GWA contingent consideration paid in April 2025	(42)	-
Balance at 30 June	111	153

The deferred contingent consideration liability represents the fair value of amounts which may become payable in March 2026 & 2027 in connection with the acquisition of GWA. The amount payable is dependent on the acquired businesses performance over the three years ending 31 January 2027.

The deferred consideration was measured as at 30 June 2025 and no adjustment was required to be recorded for the year ended 30 June 2025.

6 Non-financial assets and liabilities

This note provides information about the Consolidated Entity’s non-financial assets and liabilities, including:

- Specific information about each type of non-financial asset and non-financial liability:
 - Plant and equipment (note 6(a))
 - Right of use assets (note 6(b))
 - Intangible assets (note 6(c))

(i) Recognition and measurement

Items of plant and equipment are stated at cost less accumulated depreciation (see below) and impairment losses.

When parts of an item of plant and equipment have different useful lives, they are accounted for as separate items (major components) of plant and equipment.

Gains and losses on disposal of an item of plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of plant and equipment and are recognised net within "other income" in the Statement of Profit & Loss and Other Comprehensive Income.

(ii) Depreciation

Depreciation is charged to the Statement of Profit & Loss and Other Comprehensive Income on a straight-line basis over the estimated useful lives of each part of an item of plant and equipment.

The estimated useful lives in the current and comparative periods are as follows:

- Office equipment 2-5 years
- Furniture and fittings 4-5 years
- Leasehold improvements lesser of life of the lease or 10 years
- Motor vehicles 5 years

The residual value, the useful life and the depreciation method applied to an asset are reassessed at least annually.

(b) Right of use assets

(i) Amounts recognised in the consolidated statement of financial position

Lease liabilities	2025 \$000	2024 \$000
Current	883	1,179
Non-current	1,168	760
	2,051	1,939

(ii) Amounts recognised in the statement of profit or loss

The statement of profit or loss shows the following amounts relating to leases:

	2025	2024
Depreciation and impairment charge of right of use assets	\$000	\$000
Buildings	1,244	1,203
Office equipment	31	70
	1,275	1,273
Interest expenses (included in finance expenses)	141	138
Expenses relating to short term leases (included in occupancy expenses)	268	183

The total cash outflow for leases in 2025 was \$1,477,000 (2024: \$1,859,000).

Depreciation is charged to the Statement of Profit & Loss and Other Comprehensive Income on a straight-line basis over the shorter of the lease term and their useful lives, unless it is reasonably certain that the Consolidated Entity will obtain ownership by the end of the lease term.

The estimated useful lives in the current and comparative periods for right of use assets is the life of the underlying lease.

(iii) The Consolidated Entities leasing activities and how these are accounted for

The Consolidated Entity leases offices, equipment and software. Contracts are typically for fixed periods of up to 7 years but may include extension options.

Contracts may contain both lease and non-lease components. The Consolidated Entity allocates the consideration in the contract to the lease and non-lease components based on their relative stand-alone prices, however for leases of real estate for which the Consolidated Entity is the lessee, it has elected not to separate lease and non-lease components and instead accounts for these as a single lease component.

Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. These agreements do not impose covenants other than the security interests in the leased assets that are held by the lessor. Leased assets may not be used as security for borrowing purposes.

Leases are recognised as a right of use asset and a corresponding liability at the date at which the leased asset is available for use by the Consolidated Entity.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments, less incentives receivable;
- variable payments that are based on an index or rate, initially measured using the index or rate as at the commencement date; and
- amounts expected to be payable under residual value guarantees.

Lease payments to be made under reasonably certain extension options are also included in the measurement of liability.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be determined, the lessee's incremental borrowing rate is used.

Lease payments are allocated between principal and finance cost with the finance cost charged to the profit

and loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Right of use assets are measured at cost comprising the following:

- the amount of the initial measurement of the lease liability;
- any lease payments made at or before the commencement date less any lease incentives received;
- any initial direct costs; and
- restoration costs.

Right of use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

Payments associated with short term leases (with a term of 12 months or less) or low value assets are recognised on a straight-line basis as an expense in the profit or loss.

(c) Intangible assets

	Notes	2025	2024
		\$000	\$000
Goodwill	(i) - (iv)	20,567	20,567
Computer software	(v)	540	821
Trademarks	(vi)	241	241
		21,348	21,629

(i) Goodwill

The acquisition method of accounting is used to account for all business combinations, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the fair values of the assets transferred, the liabilities incurred and the equity interests issued by the Consolidated Entity.

Where the acquired subsidiary has significant long-term contracts or other customer relationships the future value of these relationships is assessed and is included as an asset in the fair value, above, of assets transferred.

Goodwill on the acquisition of subsidiaries is included in intangible assets. Goodwill is not amortised but it is tested for impairment annually or more frequently if events or changes in circumstances indicate that it might be impaired and is carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold. Goodwill is allocated to cash generating units for the purpose of impairment testing. The allocation is made to those cash generating units or groups of cash generating units that are expected to benefit from the business combination in which the goodwill arose.

(ii) Subsequent expenditure

Subsequent expenditure on capitalised intangible assets excluding goodwill is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is expensed as incurred.

(iii) Impairment tests for goodwill

Goodwill has an indefinite useful life and is not amortised. The goodwill amounts are tested for impairment annually by estimating the recoverable amount of the cash generating units (CGU) based on value in use.

The following cash generating units have significant carrying amounts for goodwill:

	2025 \$000	2024 \$000
Goodwill		
Residential valuations	8,745	3,016
Regional valuations	10,915	9,486
WA Business	-	6,393
SA Business	-	1,429
Commercial valuations	664	-
Business valuations	243	243
	20,567	20,567

Following a restructure of the Group's operations, goodwill has been reallocated to reflect the revised CGU structure. This reallocation was performed in accordance with AASB 136 Impairment of Assets, which requires goodwill to be assigned to CGUs that represent the lowest level at which it is monitored for internal management purposes.

	2025 \$000	2024 \$000
Movement in Goodwill		
Balance at 1 July	20,567	20,324
Acquisition of unincorporated business (note 14(a))	-	243
Impairment charge	-	-
Balance at 30 June	20,567	20,567

(iv) Impairment review and charge

The Company tests whether goodwill has suffered any impairment on a six-monthly basis. The recoverable amount of cash generating units is determined based on value in use calculations which require the use of assumptions.

The calculations use cash flow projections based on financial forecasts approved by management covering the 12 months post reporting date. Cash flows beyond the 12-month period are extrapolated using the estimated growth rates stated below.

	Residential Business	Regional Business	WA Business	SA Business	Business Valuations
30 June 2025					
Annual increase in revenues	3.0%	3.0%	n/a	n/a	5.0%
Increase in employee expenses as a % of increased revenues	55.0%	55.0%	n/a	n/a	55.0%
Annual increase in overheads	3.0%	3.0%	n/a	n/a	3.0%
Terminal growth rate	2.0%	2.0%	n/a	n/a	2.0%
Discount rate	15.3%	15.3%	n/a	n/a	15.3%
30 June 2024					
Annual increase in revenues	3.0%	3.0%	3.0%	5.0%	5.0%
Increase in employee expenses as a % of increased revenues	55.0%	55.0%	55.0%	55.0%	55.0%
Annual increase in overheads	3.0%	3.0%	3.0%	3.0%	3.0%
Terminal growth rate	2.0%	2.0%	2.0%	2.0%	2.0%
Discount rate	15.6%	15.6%	15.6%	15.6%	15.6%

Management has determined the values assigned to each of the key assumptions as follows:

Assumption	Approach used to determine values
Revenues	Annual growth rate based on past performance, current and expected market conditions and management's expectations of business development opportunities and likelihood of success.
Employee expenses	Based on past performance and management's expectations for the future.
Overheads	Fixed and semi-variable costs of the cash generating units, which do not vary significantly with revenue. Management forecasts these costs based on the current structure of the business, adjusting for anticipated inflationary increases and known restructuring and cost-saving measures.
Terminal growth rate	This is conservatively set at a level below the long-term inflation rate in Australia. The Company operates in a mature market sector and accordingly long-term growth will be achieved via diversification in services, client base and geographies rather than long term growth of existing business lines.
Discount rate	The pre-tax rate discount rate adopted is based on the risk-free interest rate and business specific risk factors, market borrowing rates and investor expected returns.

Impact of reasonably possible changes in key assumptions

Business Valuations

The recoverable amount of the Business Valuations business cash generating unit is estimated to exceed the carrying amount of the cash generating unit at 30 June 2025 by \$226,000 (30 June 24: \$122,000).

The recoverable amount at 30 June 2025 would equal its carrying amount if the key assumptions were to change as follows:

	From	To
Annual increase in revenues	5.0%	0.4%

Residential Valuations

The recoverable amount of the Residential Valuations business cash generating unit is estimated to exceed the carrying amount of the cash generating unit at 30 June 2025 by \$4,683,000.

The recoverable amount at 30 June 2025 would equal its carrying amount if the key assumptions were to change as follows:

	From	To
Annual increase in revenues	3.0%	0.3%
Annual increase in overheads	3.0%	7.5%

Regional Valuations

The recoverable amount of the Regional Valuations business cash generating unit is estimated to exceed the carrying amount of the cash generating unit at 30 June 2025 by \$9,779,000.

The recoverable amount at 30 June 2025 would equal its carrying amount if the key assumptions were to change as follows:

	From	To
Annual increase in revenues	3.0%	(0.5%)

Other cash generating units

Reasonably possible changes in key assumptions for other cash generating units would not result in the recoverable amounts equalling their carrying values.

(v) Computer software

Movement in computer software	2025 \$000	2024 \$000
Balance at 1 July	821	1,575
Additions	75	81
Amortisation	(356)	(558)
Impairment charge for obsolete software	-	(273)
Disposals	-	(4)
Balance at 30 June	540	821

Costs incurred in developing products or systems and costs incurred in acquiring software and licences that will contribute to future period financial benefits through revenue generation and/or cost reduction are capitalised to software and systems.

Costs capitalised include external direct costs of materials and service and direct payroll and payroll related costs of employees' time spent on the project.

IT development costs include only those costs directly attributable to the development phase and are only recognised following completion of technical feasibility and where the Consolidated Entity has an intention and ability to use the asset.

Amortisation is calculated on a straight-line basis over periods generally ranging from 3 to 5 years.

In 2024, the Company booked an impairment charge against previously capitalised software which is now deemed obsolete as the company's strategy is to move away from in-house developed software to use of cloud-based systems and "low-code / no-code" platforms to support the business.

(vi) Trademarks

Movement in trademarks	2025 \$000	2024 \$000
Balance at 1 July	241	241
Disposals	-	-
Balance at 30 June	241	241

Trademarks have indefinite useful lives and are not amortised. Trademarks are tested for impairment annually by estimating the recoverable amount of the cash generating units based on value in use.

(d) Current tax liabilities

Current	2025 \$000	2024 \$000
Tax liability	-	28

The current tax liability for the Consolidated Entity of \$Nil (2024: \$Nil) represents the amount of income taxes payable in respect of current and prior financial periods. In accordance with the tax consolidation legislation, Acumentis Group Limited as the head entity of the Australian tax-consolidated group has assumed responsibility for the current tax asset/liability initially recognised by the members in the tax-consolidated group.

Income tax on the Statement of Profit & Loss and Other Comprehensive Income for the year comprises current and deferred tax. Income tax is recognised in the Statement of Profit & Loss and Other Comprehensive Income except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the end of the reporting period, and any adjustment to tax payable in respect of previous years.

The Company and its wholly owned Australian resident entities have formed a tax-consolidated group with effect from 1 July 2003 and are therefore taxed as a single entity from that date. Newly acquired wholly owned entities are immediately added to the tax-consolidation group. The head entity within the tax-consolidated group is Acumentis Group Limited.

(i) Tax consolidation

Current tax expense/income, deferred tax liabilities and deferred tax assets arising from temporary differences of the members of the tax-consolidated group are recognised in the separate financial statements of the members of the tax-consolidated group using the group allocation approach by reference to the carrying amounts of assets and liabilities in the separate financial statements of each entity and the tax values applying under tax consolidation.

Any current tax liabilities (or assets) and deferred tax assets arising from unused tax losses of the subsidiaries are assumed by the head entity in the tax-consolidated group and are recognised as amounts payable (receivable) to (from) other entities in the tax-consolidated group in conjunction with any tax funding arrangement amounts (refer below). Any difference between these amounts is recognised by the

Company as an equity contribution or distribution.

The Company recognises deferred tax assets arising from unused tax losses of the tax-consolidated group to the extent that it is probable that future taxable profits of the tax-consolidated group will be available against which the tax losses can be utilised.

Any subsequent period adjustments to deferred tax assets arising from unused tax losses as a result of revised assessments of the probability of recoverability are recognised by the head entity only.

(ii) Nature of tax funding arrangements and tax sharing arrangements

The head entity, in conjunction with other members of the tax-consolidated group, has entered into a tax funding arrangement which sets out the funding obligations of members of the tax-consolidated group in respect of tax amounts. The tax funding arrangements require payments to/from the head entity equal to the current tax liability (asset) assumed by the head entity and any tax-loss deferred tax asset assumed by the head entity, resulting in the head entity recognising an inter-entity receivable (payable) equal in amount to the tax liability (asset) assumed. Any such inter-entity receivables (payables) are at call.

Contributions to fund the current tax liabilities are payable as per the tax funding arrangement and reflect the timing of the head entity's obligation to make payments for tax liabilities to the relevant tax authorities.

The head entity in conjunction with other members of the tax-consolidated group has also entered into a tax sharing agreement. The tax sharing agreement provides for the determination of the allocation of income tax liabilities between the entities should the head entity default on its tax payment obligations. No amounts have been recognised in the financial statements in respect of this agreement as payment of any such amounts under the tax sharing agreement is considered remote.

The current portion of this liability includes all of the accrued annual leave, the unconditional entitlements to long service leave where employees have completed the required period of service and also for those employees who are entitled to pro-rata payments in certain circumstances. The entire amount of the annual leave provision is presented as current, since the group does not have an unconditional right to defer settlement for any of these obligations.

The non-current portion of the long service leave liability is measured based on the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period. Consideration is given to expected future wage and salary increases and past experience of employee retention. Expected future payments are discounted using market yields at the end of the reporting period of high-quality corporate bonds with terms and currencies that match, as closely as possible, the estimated future cash outflows. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

Based on past experience, the group does not expect all employees to take the full amount of accrued leave or require payment within the next 12 months. The following amounts reflect leave that is not expected to be taken or paid within the next 12 months.

7 Equity

(a) Ordinary shares

The holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share on a poll at meetings of the Company. On a show of hands, every shareholder present at a meeting or by proxy is entitled to one vote. There are currently 221,455,046 ordinary fully paid shares on issue (2024: 219,955,046). Shares have no par value, and the Company does not have a limited amount of capital.

10 Restatement of prior period errors

During the year, the company identified a misstatement in the long service leave provision due to an error in the pay rates used in the provision calculations. This has been corrected by restating comparative amounts.

RISK

This section of the notes discusses the Consolidated Entity's exposure to various risks and shows how these could affect the Consolidated Entity's financial position and performance.

11 Significant estimates & judgements

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Consolidated Entity's accounting policies.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be wrong. Detailed information about each of these estimates and judgements is included in notes 1 to 7 together with information about the basis of calculation for each affected line item in the financial statements.

The areas involving significant estimates or judgements and which have the potential for material impact to the financials are:

- Deferred contingent consideration (note 5(h))
- Intangible assets (note 6(c))
- Employee benefits (note 6(g))

12 Financial risk management

This note explains the Consolidated Entity's exposure to financial risks and how these risks could affect the Consolidated Entity's future financial performance. Current year profit and loss information has been included where relevant to add further context.

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, trade receivables and debt investments and contract assets	Ageing analysis Credit ratings	Diversification of bank deposits Credit limits
Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of borrowing facilities
Interest rate risk	Long-term borrowings at variable rates	Sensitivity analysis	Accept risk given low levels of debt

The Board of Directors has overall responsibility for the establishment and oversight of the risk management framework. The Chief Executive Officer and Chief Financial Officer are responsible for developing and monitoring risk management policies.

Risk management policies are established to identify and analyse the risks faced by the Consolidated Entity, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Consolidated Entity's activities. The Consolidated Entity, through their training and management standards and procedures, aim to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Consolidated Entity's Audit & Risk Committee oversees how management monitors compliance with the Consolidated Entity's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Consolidated Entity.

(a) Credit Risk

Credit risk is the risk of financial loss to the Consolidated Entity if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Consolidated Entity's receivables from wholesale and retail clients.

Trade and other receivables

The Consolidated Entity's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the Consolidated Entity's customer base, including the default risk of the industry and country, in which clients operate, has less of an influence on credit risk.

The Consolidated Entity has established a credit policy under which each new customer is analysed individually for creditworthiness before the Consolidated Entity's standard payment and delivery terms and conditions are offered. Credit limits are established for each customer, these limits are reviewed regularly. Clients which fail to meet the Consolidated Entity's benchmark creditworthiness are placed on a restricted customer list and may transact with the Consolidated Entity only on a prepayment basis.

In monitoring customer credit risk, clients are grouped according to their credit characteristics, including whether they are an individual or legal entity, whether they are a wholesale, retail or end-user customer, geographic location, industry, ageing profile, maturity and existence of previous financial difficulties. The Consolidated Entity's trade and other receivables relate mainly to the Consolidated Entity's retail clients. The Consolidated Entity does not require collateral in respect of trade and other receivables.

The Consolidated Entity has established an allowance for credit losses that represents their estimate of expected credit losses in respect of trade and other receivables.

Exposure to credit risk

The carrying amount of the Consolidated Entity's financial assets represents the maximum credit risk exposure.

The Consolidated Entity's maximum exposure to credit risk at the end of the reporting period was:

	Note	2025 \$000	2024 \$000
Trade and other receivables	5(c)	5,864	5,702
Other financial assets	5(d)	173	280
Cash and cash equivalents	5(a)	4,429	4,140
Term deposits & other	5(b)	713	940
		11,179	11,062

The Consolidated Entity's maximum exposure to credit risk for trade and other receivables before impairment losses at the end of the reporting period by type of customer was:

	2025 \$000	2024 \$000
Financial clients	4,025	3,821
Non-financial clients	939	1,355
Government non-financial clients	995	608
	5,959	5,784
The Consolidated Entity's most significant clients included the following amounts within trade and other receivables carrying amounts:		
An Australian financial client	834	1,025
An Australian non-financial client	79	89
An Australian Government non-financial client	164	205

Impairment Losses

The ageing of the Consolidated Entity's trade and other receivables and expected loss rates at the end of the reporting period was:

	Gross 2025 \$000	Expected Loss Rate 2025 %	Impairment 2025 \$000	Gross 2024 \$000	Expected Loss Rate 2024 %	Impairment 2024 \$000
Not past due	4,462	0.0%	2	4,451	0.1%	4
Past due 0-30 days	1,010	0.3%	3	850	0.4%	3
Past due 31-120 days	381	1.3%	5	341	2.9%	10
Past due 121 days or more	106	80.2%	85	142	45.8%	65
	5,959		95	5,784		82

The movement in the allowance for impairment in respect of trade receivables during the year was as follows:

	2025 \$000	2024 \$000
Balance at 1 July	82	152
(Decrease) / Increase during year	13	(70)
Balance at 30 June	95	82

The Consolidated entity applies the AASB 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowances for all trade receivables. To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due.

The expected loss rates are based on payment profiles of sales over a 5 year period ended 30 June 2024 and the corresponding historical credit losses experienced over this period and to 30 June 2025 (for invoices raised prior to 30 June 2024). The historical loss rates are adjusted to reflect current and forward-looking macro-economic factors that might impact the ability of customers to settle the receivables.

Trade receivables are written off when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of the debtors to engage in a repayment plan and the failure to make contractual payments for a period of greater than 120 days past due.

Impairment losses on trade receivables are presented as net impairment losses within operating profit. Subsequent recoveries of amounts written off are credited against the same line item.

(b) Liquidity risk

Liquidity risk is the risk that the Consolidated Entity will not be able to meet its financial obligations as they fall due. The Consolidated Entity's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Consolidated Entity's reputation.

Typically, the Consolidated Entity ensures that it has sufficient cash on demand to meet expected operational expenses for a period of 45 to 60 days, including the servicing of financial obligations; this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

The following are the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting arrangements:

Non-derivative financial liabilities	Note	Carrying Amount \$000	Contractual cash flows \$000	Payable 6 months or less \$000	Payable between 6 and 12 months \$000	Payable after 12 months \$000

Deferred consideration	5(h)	287	287	134	42	111
		6,505	6,505	4,903	600	1,002

(c) Interest risk

Interest rate risk is the risk that changes in interest rates will affect the Consolidated Entity's income and expenses or the value of its holdings of financial instruments and financial liabilities. The objective of interest rate risk management is to manage and control interest rate risk exposures within acceptable parameters, while optimising the return.

Interest rate risk is managed by seeking to maximise the yield achieved on cash held at bank and minimise the interest rates incurred on borrowings.

At the end of the reporting period the interest rate profile of the Consolidated Entity's interest-bearing financial instruments and borrowings was:

	Note	2025 \$000	2024 \$000
Variable rate instruments			
Assets			
- Cash and cash equivalents	5(a)	4,429	4,140
- Non-current financial assets	5(d)	173	10
- Cash and cash equivalents	5(a)	-	175
Liabilities			
- Current borrowings	5(f)	-	8
- Non-current borrowings	5(f)	-	31

- Current financial assets	5(d)	-	95
Liabilities			
- Current lease liabilities	5(g)	883	1,179
- Non-current lease liabilities	5(g)	1,168	760

(d) Cash flow sensitivity analysis for rate instruments

The impact of interest rate changes on the profitability of the Consolidated Entity is likely to be immaterial.

(e) Fair values

The Directors consider that the fair value of financial assets and financial liabilities of the Consolidated Entity approximate their carrying amount.

(f) Financial instruments at fair value

The Consolidated Entity has adopted the following fair value hierarchy in relation to its financial instruments that are carried in the balance sheet at fair value:

Level 1	Quoted prices (unadjusted) in active markets for identical assets or liabilities.
Level 2	Inputs, other than quoted prices included within Level 1, that are observable for the asset or liability either directly (as prices) or indirectly (derived from prices).
Level 3	Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following table sets out the fair value of liabilities that are measured at fair value:

	Level 1 \$000	Level 2 \$000	Level 3 \$000	Total \$000
30 June 2025				
Deferred contingent consideration (note 5(h))	-	-	111	111
30 June 2024				
Deferred contingent consideration (note 5(h))	-	-	153	153

The fair value of the deferred contingent consideration is determined based on the expected payment which is dependent upon the revenue for the acquired business for the three years ended 31 January 2025, 2026 and 2027. This unobservable input is estimated by applying an annual growth in revenue of 18% over the remaining two years of the three year measurement period.

If the weighted average growth in revenue changed then the deferred consideration would change as follows:

- Growth in profit increased by 10%, deferred consideration would increase by \$15,000
- Growth in profit decreased by 10%, deferred consideration would decrease by \$14,000

The amount is not discounted due to the immaterial impact that discounting would have.

13 Capital management

(a) Risk management

The Company's objectives when managing capital are to:

- Safeguard their ability to continue as a going concern, so they can continue to provide returns to shareholders and benefits to other stakeholders;
- To maintain a capital structure that is appropriate for a professional services firm with limited tangible assets; and
- To reduce the overall cost of capital.

In order to maintain or adjust capital structure, the Company may adjust the level of dividends to shareholders, return capital to shareholders, issue new shares, source new debt finance or repay debt finance.

The Company monitors capital on the basis of the following gearing ratio:

Net debt (borrowings minus cash or cash equivalents) / total equity

	Note	2025 \$000	2024 \$000
Borrowings	5(f)	-	39
Cash or cash equivalents	5(a)	(4,429)	(4,140)
(Net cash) / net debt		(4,429)	(4,101)
Total Equity		26,041	25,260
Net debt to equity ratio		(17%)	(16%)

The Company also monitors net working capital calculated as follows:

	Note	2025 \$000	2024 \$000
Cash or cash equivalents	5(a)	4,429	4,140
Trade and other receivables	5(c)	5,864	5,702
Trade and other payables	5(e)	(3,773)	(4,240)
Current borrowings	5(f)	-	(8)
Current tax liabilities	6(d)	-	-
Current deferred consideration	5(h)	(51)	(176)
Current employee benefit obligations			
- Total	6(g)	(5,516)	(5,905)
- Expected to be settled after 12 months	6(g)	2,095	2,051
		3,048	1,564

The net working capital increased during the year as a result of the improved trading performance.

The Company has access to a \$3M receivables finance facility which does not require the Consolidated Entity to comply with any financial covenants or capital restrictions.

(b) Dividends

(i) Ordinary shares

Dividends recognised in the current and prior years by the Company are:

	Cents per share	Total amount \$000	Franked/unfranked	Date of Payment
2025				
Final dividend for the year ended 30 June 2024	0.22	487	100%	13 September 2024
2024				
No dividends declared	-	-	-	-

(ii) Franked dividends

After the end of the reporting period, the directors have not declared a final dividend.

	Company 2025 \$000	Company 2024 \$000
Dividend franking account		
30% franking credits available to shareholders of Acumentis Group Limited for subsequent financial years	1,871	2,079

The above available amounts are based on the balance of the dividend franking account at the end of the reporting period adjusted for:

- a) Franking credits that will arise from the payment of the current tax liabilities;
- b) Franking debits that will arise from the payment of dividends recognised as a liability at the year-end; and
- c) Franking credits that will arise from the receipt of dividends recognised as receivables by the tax consolidated group at the year-end.

The ability to utilise the franking credits is dependent upon there being sufficient available profits to declare dividends.

1. The existing employee loan was advanced to a vendor shareholder of Acumentis (WA) Holdings Pty Ltd to enable retirement of debt secured against that shareholder's investment in Acumentis (WA) Holdings Pty Ltd. The loan carries interest at market rates, equal to the 6 monthly bank bill swap rate plus 2.6%. On grant, this loan was repayable in full when the deferred, contingent consideration relating to the acquisition of Acumentis (WA) Holdings Pty Ltd was settled. When the deferred, contingent consideration was settled early in May 2024 (refer note 5(h)) the terms were amended so that the loan now has minimum payments of \$20,000 capital plus accrued interest per calendar year. The loan is secured by the 2,606,565 ordinary shares in Acumentis Group Limited issued to the vendor as part consideration for the acquisition. The employee has resigned and their employment was terminated on 31 July 2025 at which point the loan become repayable in full.
2. A \$9,000 loan was provided to an employee to assist with personal financial hardship. The loan accrues interest at 8.62%, being the statutory Fringe Benefits Tax rate for the year ending 31 March 2026. It is to be fully repaid by 31 October 2025 through payroll deductions.

20 Share-based payments

(a) Employee option & performance rights plans

The directors at their discretion allocate share options or performance rights that entitle key management personnel and senior employees to purchase shares in the entity. The terms of the options including vesting conditions and performance criteria vary depending upon the incentive arrangements appropriate for key management personnel and senior employees and are a part of an approved Employee Share Acquisition Scheme, which was approved by shareholders at the 2018 Annual General Meeting and renewed for a further 3 years at the 2021 and 2024 Annual General Meetings.

Movements in options during the period were as follows:

Performance rights were granted under the Acumentis Group Performance Rights and Option Plan which was approved by shareholders at the 2018 Annual General Meeting and renewed at the 2021 and 2024 Annual General Meetings.

The Plan allows the Company to grant options or rights to selected key employees to acquire ordinary shares in the Company. Participants are required to satisfy performance and service conditions at the time of the offer. The exercise price for performance rights is nil. Rights cannot be transferred and are not quoted on the ASX.

Movements in performance rights during the period were as follows:

1. Rights granted subject to TSR condition are valued using Monte Carlo Simulation. Rights granted subject to EPS condition are valued using the Black-Scholes model. Expected dividends were not incorporated into these measurements.

The Board has the discretion to adjust the number of rights that ultimately vest and/or the service condition period if it forms the view that the unadjusted outcome is not appropriate to the circumstances that prevailed over the measurement period.

The Board has discretion to determine that some or all unvested rights held lapse on a specified date if allowing the rights to vest would, in the opinion of the Board, result in an inappropriate benefit to the rights holder. Such circumstances would include joining a competitor or actions that harm the Company's stakeholders.

In the case of fraud or misconduct, all unvested rights will be forfeited.

24 Going concern

The directors are satisfied that the going concern basis of preparation is appropriate and therefore the financial information does not include any adjustments relating to the recoverability or classification of recorded asset amounts or to the amounts or classification of liabilities that might be necessary should the company not be able to continue as a going concern.

25 Summary of significant accounting policies

This note provides a list of the other potentially material accounting policies adopted in the preparation of these consolidated financial statements to the extent they have not already been disclosed in the other notes above. These policies have been consistently applied to all the years presented, unless otherwise stated. The financial statements are for the Consolidated Entity consisting of Acumentis Group Limited and its subsidiaries.

(a) Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board and the *Corporations Act 2001*. Acumentis Group Limited is a for-profit entity for the purpose of preparing the financial statements.

(i) Compliance with IFRS

The consolidated financial statements also comply with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

(ii) Historical cost convention

The financial statements have been prepared on a historical cost basis, except for deferred consideration which is recorded as a financial liability at fair value with changes recorded through the statement of profit and loss and other comprehensive income.

(iii) New and amended standards adopted by the Consolidated Entity

No new or amended standards were applicable to the Consolidated for the current financial year.

(iv) New standards and interpretations not yet adopted

The AASB has issued new and amended accounting standards and interpretations that have mandatory application dates for future reporting periods and which the Consolidated Entity has decided not to early adopt. These standards are not expected to have a material impact on the Consolidated Entity in the current or future reporting periods and on foreseeable future transactions.

(b) Segment reporting

The Consolidated Entity's operations and clients are located entirely in Australia.

The Consolidated Entity's operating segments have been identified based on the segments analysed within management reports. Based on these criteria, it has been determined that the Consolidated Entity only operates in the Valuation segment, which provides valuation, research and advice services in relation to property and businesses.

Accordingly, no separate segment reporting is required.

(c) Employee benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits, that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the consolidated statement of financial position.

(ii) Other long-term employee benefit obligations

The liabilities for long service leave and annual leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the end of the reporting period of high-quality corporate bonds with terms and currencies that match, as closely as possible, the estimated future cash outflows. Re-measurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the consolidated statement of financial position if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

(iii) Post-employment obligations

The Consolidated Entity operates various defined contribution pension plans.

Pension obligations

For defined contribution plans, the Consolidated Entity pays contributions to publicly or privately administered pension insurance plans on a mandatory, contractual or voluntary basis. The Consolidated Entity has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

(iv) Share-based payments

Share-based compensation benefits are provided to employees via the Acumentis Group Employee Option & Performance Rights Plan and an employee share scheme. Information relating to these schemes is set out in note 30.

Employee options and performance rights

The fair value of options and performance rights granted under the Acumentis Group Limited Employee Option and Performance Rights Plan is recognised as an employee benefits expense with a corresponding increase in equity. The total amount to be expensed is determined by reference to the fair value of the options and performance rights granted:

- Including any market performance conditions (e.g. the entity's share price);
- Excluding the impact of any service and non-market performance vesting conditions (e.g. profitability, sales growth targets and remaining an employee of the entity over a specified time period); and
- Excluding the impact of any non-vesting conditions (e.g. the requirement for employees to save or holdings shares for a specific period of time).

The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of options and performance rights that are expected to vest based on the non-market vesting and service conditions. It recognises the impact of the revision to original estimates, if any, in profit or loss, with a corresponding adjustment to equity.

The Employee Option and Performance Rights Plan is administered by the Acumentis Employee Share Trust, which is not consolidated. When the options or performance rights are exercised, the trust transfers the appropriate number of shares to the employee. The proceeds received net of any directly attributable transaction costs are credited directly to equity.

(v) Profit-sharing and bonus plans

The Consolidated Entity recognises a liability and an expense for bonuses and profit-sharing based on a formula that takes into consideration the profit attributable to the company's shareholders after certain adjustments. The Consolidated Entity recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

(vi) Termination benefits

Termination benefits are payable when employment is terminated by the Consolidated Entity before the normal retirement date, or when an employee accepts voluntary redundancy in exchange for these benefits. The Consolidated Entity recognises termination benefits at the earlier of the following dates: (a) when the Consolidated Entity can no longer withdraw the offer of those benefits; and (b) when the entity recognises costs for a restructuring that is within the scope of AASB 137 and involves the payment of terminations benefits. In the case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than 12 months after the end of the reporting period are discounted to present value.

(d) Rounding of amounts

The company is of a kind referred to in ASIC Legislative Instrument 2016/191, relating to the 'rounding off' of amounts in the financial statements. Amounts in the financial statements have been rounded off in accordance with the instrument to the nearest thousand dollars, or in certain cases, the nearest dollar.

Directors' declaration

ASX:ACU FY24-25

DIRECTORS' DECLARATION

- 1 In the opinion of the directors of Acumentis Group Limited ('the Company'):
 - (a) the financial statements and notes set out on pages 36 to 92 and the remuneration disclosures of the Remuneration report in the Directors' report, set out on pages 18 to 31, are in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the financial position of the Company and the Consolidated Entity as at 30 June 2025 and of its performance, for the financial year ended on that date; and
 - (ii) complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the Corporations Regulations 2001;
 - (b) the financial report also complies with International Financial Reporting Standards
 - (c) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable;
 - (d) the Consolidated Entity Disclosure Statement set out on page 95 is true and correct.
- 2 The directors have been given the declarations required by Section 295A of the *Corporations Act 2001* from the Chief Executive Officer and Chief Financial Officer for the financial year ended 30 June 2025.

Dated at Sydney this 20th day of August 2025

Signed in accordance with a resolution of the directors:

Keith Perrett
Director

Independent auditor's report to the members of Acumentis Group Limited

Report on the audit of the financial report

Our opinion on the financial report

In our opinion, the accompanying financial report of Acumentis Group Limited (the Company) and its subsidiaries (the Consolidated Entity) is in accordance with the *Corporations Act 2001*, including:

- giving a true and fair view of the Consolidated Entity's financial position as at 30 June 2025 and of its financial performance for the year then ended; and
- complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

What was audited?

We have audited the financial report of the Consolidated Entity, which comprises:

- the consolidated statement of financial position as at 30 June 2025,
- the consolidated statement of profit or loss and other comprehensive income for the year then ended,
- the consolidated statement of changes in equity for the year then ended,
- the consolidated statement of cash flows for the year then ended,
- notes to the financial statements, including material accounting policy information,
- the consolidated entity disclosure statement, and
- the directors' declaration.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial report* section of our report. We are independent of the Consolidated Entity in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional & Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Impairment assessments - Goodwill	Area of focus (refer also to notes 6 (c), & 13(a))	How our audit addressed the key audit matter
	<p>The Consolidated Entity's net assets include a significant amount of intangible assets, the majority of which have originated from acquisitions in the prior years.</p> <p>As at 30 June 2025, the Consolidated Entity's net assets include Goodwill of \$20.5 million (2024: \$20.5 million)</p> <p>There is a risk that the Consolidated Entity may not trade in line with initial expectations and forecasts, resulting in the carrying amount of intangible assets exceeding the recoverable amount and therefore requiring impairment.</p> <p>In accordance with the requirements of AASB 136 <i>Impairment of Assets</i>, the Consolidated Entity is required to test goodwill for impairment annually and whenever there is an indicator of impairment. The recoverable amount for each Cash Generating Unit (CGU) to which goodwill has been allocated has been calculated based on value-in-use models, which use discounted cash flow forecasts. The Directors make judgements over certain key inputs including, but not limited to, revenue growth, gross margins, discount rates, long term growth rates and inflation rates.</p> <p>Due to the high degree of judgement and estimation involved in the determination of the recoverable amount of each CGU, and the significance of the carrying amounts involved, we have determined that this is an area of significance in our audit of the financial report.</p>	<p>Our audit procedures included:</p> <ul style="list-style-type: none"> — Giving consideration to and performing an assessment of management's determination of CGUs; — A detailed evaluation of the Consolidated Entity's budgeting procedures upon which the forecasts are based and testing the principles and integrity of the discounted future cash flow models; — Testing the accuracy of the calculation derived from each forecast model and assessing key inputs to the calculations such as revenue growth, gross margins, discount rates and working capital assumptions; — Engaging our own valuation specialists to critically evaluate the appropriateness of the discount rates and the long-term growth rates used in the discounted cash flow model; — Reviewing the historical accuracy of the forecasts by comparing actual results with the original forecasts from prior years — Performing sensitivity analysis of the calculations; and — Assessing whether disclosure in the financial report is appropriate.

Other information

The directors are responsible for the other information. The other information comprises the information contained in the Directors' Report but does not include the financial report and the auditor's report thereon, which we obtained prior to the date of this auditor's report, and the annual report, which is expected to be made available to us after this date.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the financial report

The directors of the Company are responsible for the preparation of:

- the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001*; and
- the consolidated entity disclosure statement that is true and correct in accordance with the *Corporations Act 2001*, and

for such internal control as the directors determine is necessary to enable the preparation of:

- the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
- the consolidated entity disclosure statement that is true and correct and is free of misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Consolidated Entity to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Consolidated Entity or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at:

https://www.auasb.gov.au/media/bwvjcgre/ar1_2024.pdf

This description forms part of our auditor's report.

Report on the Remuneration Report

Our opinion on the Remuneration Report

In our opinion, the Remuneration Report of Acumentis Group Limited, for the year ended 30 June 2025, complies with section 300A of the *Corporations Act 2001*.

What was audited?

We have audited the Remuneration Report in the directors' report for the year ended 30 June 2025.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
