Plant-Based Beverages

We are passionate about bringing consumers more plant-based beverage options.

Whether it be for medical, ethical, environmental, or taste reasons, we know there is growing consumer demand for plant-based beverages and this will continue for generations to come. Our long history of continual investment in the innovation of plant-based beverages reflects our passion for supporting consumers' modern lifestyle choices.

Our Site

We have a long history of developing and manufacturing a wide range of plant-based UHT products. In the 1980s the company pioneered the plant-based milk boom through our first facility in Taren Point. As plant-based categories have expanded we have invested in a brand new state-of-the-art facility in Ingleburn spanning more than 66,000 square metres. The site is built for growth and innovation and uses the latest in UHT technology to produce quality long-life products in aseptic Tetrapak and bottle pack formats.

The site incorporates a comprehensive quality management process; this is implemented by our experienced team to ensure all products produced adhere with the most stringent regulatory requirements.

Our list of accreditations include:

- DAFF
- SQF
- ISO 9001-2008
- Codex HACCP
- Organic
- Halal
- Kosher

Our Products

We specialise in the production of a wide range of quality long-life plant-based milk products including:

- Plant-based (soy milk, almond milk, rice milk, macadamia milk, coconut milk, cashew milk and others not listed)
- Liquid cooking stocks and meal bases
- On-the-go beverages (breakfast drinks, meal replacements, protein drinks, smoothies, juices)

Our dedicated Product Development, Marketing and Commercial teams will work closely with you to conceptualise and develop unique, customised products to meet your commercial needs. We are constantly upgrading our capabilities, from product development to flexible packaging options, we are open to enquiries and will assure competitive pricing.

We offer flexibility and variety through a wide range of innovative packaging formats to ensure your product stands out.

Work with us

Whether you have an idea for a great tasting milk product or you'd just like more information, feel free to contact us through the link below and one of our team will be in touch as soon as possible.
