

Scout Security (ASX: SCT) is a white label security-as-a-service platform and product suite powering recurring revenue for some of the largest security, internet service and telco providers in the world.

ASX RELEASE

20 October 2025

Update on Capital Raising Activity

Home security provider **Scout Security Ltd (ASX: SCT) ("Scout" or "the Company")** is pleased to provide an update on its capital raising activities.

Further to the announcement on 11 September 2025, the Company confirms it has received binding commitments to raise a further \$220,000 (before costs) through the placement of 550,000 fully paid ordinary shares in the capital of the Company ("**New Shares**") at an issue price of \$0.40 per New Share.

This tranche was completed on the same terms as the placement announced in September, bringing the total funds raised under the Company's broader equity capital raising to \$820,000 (before costs).

The New Shares under the Second Tranche will be issued out of the Company's placement capacity under ASX Listing Rule 7.1.

The Company intends to apply the funds raised toward the previously stated purposes, including the satisfaction of existing creditors, completion of outstanding periodic reports and other administrative and working capital requirements.

The Company's securities are currently suspended from trading. The Board remains committed to having the Company's securities reinstated to trading on the ASX as soon as practicable and will continue to keep shareholders updated on its progress towards relisting.

The Company is in ongoing discussions with respect to potential corporate and capital raising proposals.

This announcement has been authorised for release by the Board of Directors.
