

QUARTERLY ACTIVITIES AND CASHFLOW REPORT

ASX RELEASE: 28 October 2025

The Board of Resource Base Limited (ASX: RBX, Resource Base or the Company) is pleased to present its quarterly activities report for the September 2025 quarter.

Mitre Hill REE Project

The Company believes the Murray Basin has the potential to be a globally significant REE precinct.

The Mitre Hill Project tenements are highly prospective for clay hosted Rare Earth Elements (REE) within the southern margin of the Murray Basin on the South Australia / Victoria border. Drilling results have confirmed the occurrence of shallow mineralisation across the two tenements drilled so far.

The maiden JORC Inferred Mineral Resource estimate of 21 Mt @ 767 ppm TREO consists of thick zones of near-surface mineralisation. Significantly, the existing resource has the potential to substantially grow in size and scale as the Mineral Resource estimate only incorporates a portion of the identified Exploration Target drilled to date. The Company has also completed significant aircore drilling in Exploration Lease EL7646 located approximately six (6) km east of EL7647 however is not included in this Mineral Resource estimate.

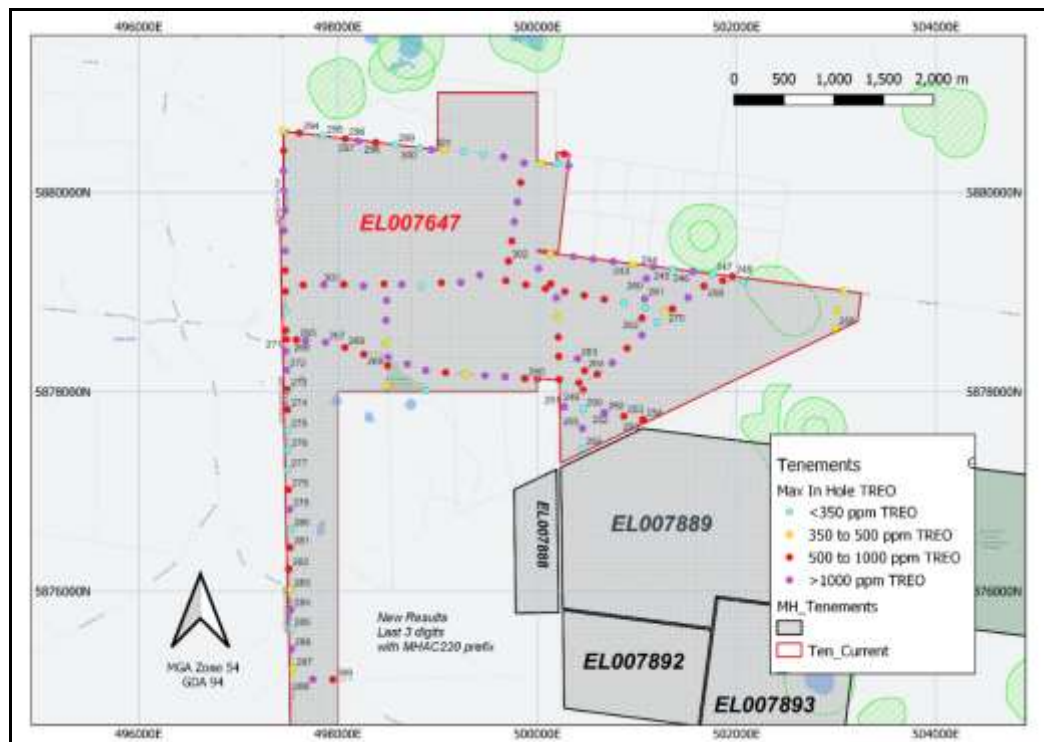

Figure 1: Plan view showing location of mineralised drill holes on EL007647, coloured by maximum TREO grade intercepted. Resource Base, 13 December 2022.

No work was undertaken at Mitre Hill during the Quarter.

South Australian Projects

During the June quarter the Company announced that it had been granted two highly prospective tenements; EL7054 and EL7060, in the Gawler Craton, South Australia. The tenements were applied for directly with the Department for Energy and Mining (DEM) in November 2024 when the initial heavy mineral sands discoveries in the region were unfolding.

Following the appointment of Mr Michael Beven as a consultant to the Company, data compilation and a review was undertaken during the granting process. Michael has been involved in the discovery and development of rare earth projects in South Australia and played a critical role in the early development of Petratherm's Muckanippie Titanium projects.

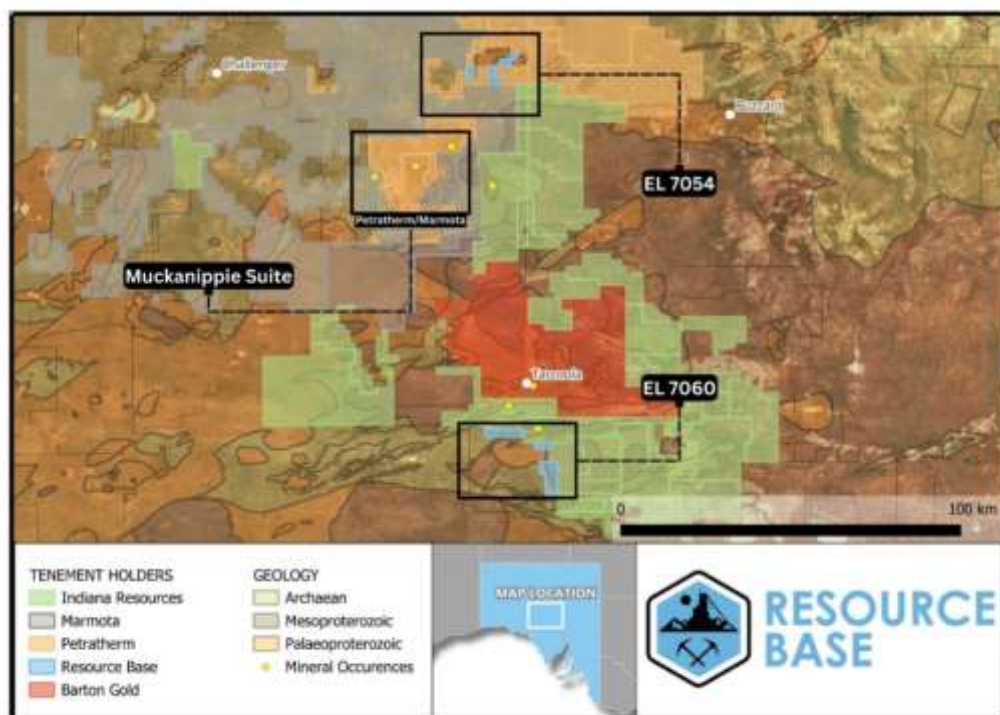

Figure 2: Tenement Locations within the Gawler Craton.

EL7054

EL7054 is located ~100km south of Coober Pedy, within the northern Gawler Craton of South Australia. The tenements cover a combined area of 27km², located approximately 14 kilometres north-east of PTR's recent discovery. In addition, the tenements are located directly adjacent to PTR's Artemis Rare Earth prospect. Recent discoveries of neighbouring tenement holders Petratherm (ASX:PTR) and Marmota (ASX:MEU) have created a renewed focus on titanium, gold, REEs and platinum group minerals (PGMs).

EL7060

The project encompasses a combined area of 69km², and is located 15 kilometres south of Tarcoola, within the Gawler Craton. EL7060 adjoins the only other known occurrence of an Anorthosite Complex within the Gawler Craton, other than the ground held by PTR. EL7060 is located circa seven (7) kilometres from Indiana's (ASX:IDA) Boomerang Prospect and approximately 15 kilometres south of Barton Gold's (ASX:BGD) Perseverance Prospect. The tenements are proximate to substantial surrounding deposits, being prospective for Proterozoic gold occurrences and titanium rich mineral sands.

James Bay Lithium Projects

Ernst Lake Lithium Project

The Ernst Lake Lithium Project comprises 109 mineral claims totaling 5,631.72 hectares (56.31 Km²), located in the James Bay Region of northern west-central Québec (Figure 2).

The Ernst Lake Project is located directly along the Trieste formation like recent lithium discoveries made by Winsome Resources Limited (ASX: WR1) on its Adina project. The Project is located just 13km south of the Adina Project partly within the same greenstone belt which is prospective for lithium with over 10km of strike.

No work was undertaken at Wali or Ernst Lake during the Quarter.

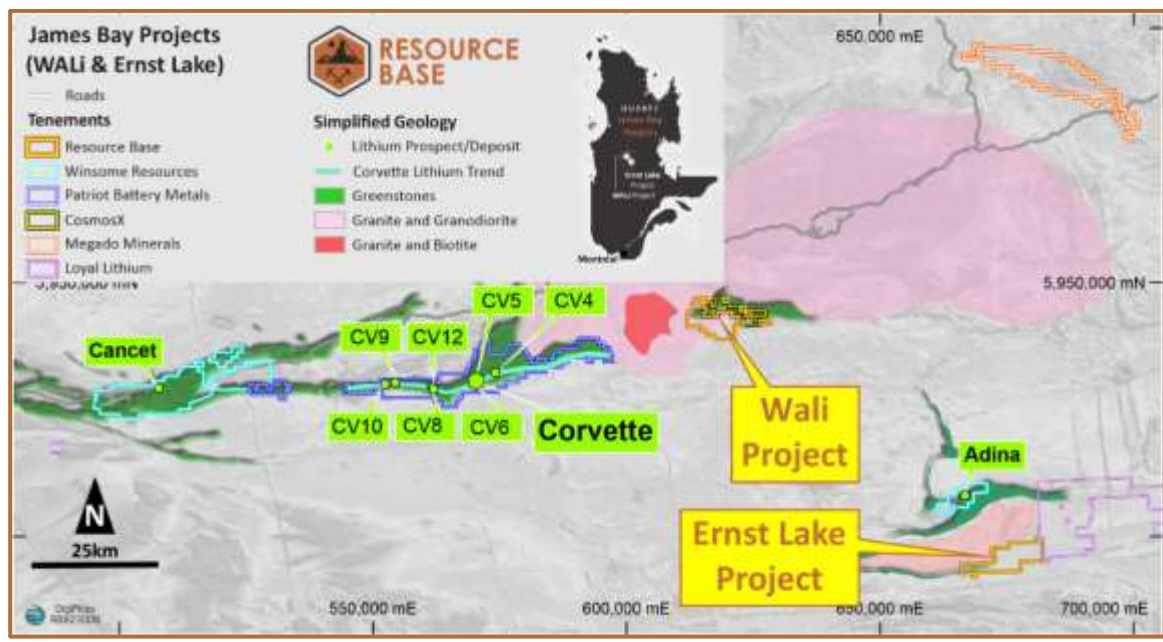

Figure 3: Location of the Wali and Ernst Lake Lithium projects James Bay Lithium Region over simplified geology

Given the focus on the Company’s titanium and critical minerals portfolio in South Australia, the Company has undertaken an assessment for potential impairment of capitalised exploration, as announced 17 September 2025. Following this review, the Company has relinquished the Wali Project totalling 100 claims.

Following completion of the review, Resource Base advises that it has recorded a non-cash impairment of the full carrying value of the Wali and Ernst Lake Projects in Quebec in the Company’s financial statements for the year ended 30 June 2025. The Company is currently assessing its options in relation to the Ernst Lake Project.

New Project Opportunities

In addition to advancing its existing exploration projects in Canada and Australia, the Board of Resource Base continues to assess new project opportunities.

Tenement Schedule

This section is provided in compliance with ASX Listing Rule 5.3. Please refer to Annexure 1 for a listing of tenements.

Changes in Tenements held during the Quarter:

Project	Interest at quarter start	Change in quarter	Interest at quarter end	Country / Province
Wali (100 claims)	100%	Relinquished	NIL	Quebec, Canada

Corporate & Administration

Board Changes

On 10 October 2025, the Company announced the appointment of Mr Michael Beven as Non-Executive Director. Mr Beven is a highly experienced exploration geologist with over a decade of expertise spanning uranium, rare earths elements, lithium, gold, copper and titanium projects across Australia, Brazil, and Canada. Concurrently with Mr Beven's appointment, Mr Paul Hissey resigned as a Director of the Company. The Board would like to thank him for his valuable contribution and wish him well in his future endeavours.

Cash Position

The Company had cash reserves as at 30 September 2025 of \$738,000.

Canadian R&D Tax Credit

During the Quarter, the Company announced that it had received a tax credit of CAD\$131,679.54 (approximately A\$147,000) from Revenue Quebec in Canada.

Summary of Exploration Expenditure

In accordance with Listing Rule 5.3.1, the Company reports that there was ~\$30,000 exploration expenditure incurred during the September quarter.

Related Party Payments

In line with its obligations under ASX Listing Rule 5.3.5, the Company has advised in the Appendix 5B for the quarter ended 30 September 2025, payments to related parties of the Company totalling \$68,000 pertain to payments to Directors for fees and superannuation.

Competent Person Statement

The Information in this report that relates to exploration results, mineral resources or ore reserves is based on information compiled by Mr Michael Beven, a consultant to the Company, who is a Member of the Australasian Institute of Geoscientists. Mr Beven has sufficient experience which is relevant to the style of mineralisation and type of deposits under consideration and to the activity that he is undertaking to qualify as a Competent Person as defined in the 2012 edition of the 'Australian Code for Reporting Exploration Results, Mineral Resources and Ore Reserves' (the JORC Code). Mr Beven consents to the inclusion of this information in the form and context in which it appears in this report. Mr Beven does not hold securities in the Company.

The Company first released the exploration results relating to Mitre Hill Project tenement EL007646 on 18 May 2022 and further results were released on 23 August 2022. The Company first released the exploration results relating to Mitre Hill Project tenement EL007647 on 10 October 2022, and further results were release on 24 October 2022. The Company first released the JORC mineral resource estimate on 3 February 2023. The Company first released the exploration results for the Wali Project on 11 October 2024.

The Company confirms that it is not aware of any new information or data that materially affects the information included in the above original market announcements and that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcements.

Annexure - Tenement Schedule as at 30 September 2025

In accordance with ASX Listing Rule 5.3.3, Resource Base Limited provides its list of exploration licenses with its September 2025 quarterly activities report.

Project	Location	Tenements Held at End of Quarter	Tenements Acquired or Disposed of During Quarter	Beneficial Interest at End of Quarter
Gawler Craton Project	South Australia, Australia	EL7054	Held	100%
Gawler Craton Project	South Australia, Australia	EL7060	Held	100%
Mitre Hill Project	Victoria, Australia	EL7646 EL7640 EL7641 EL7647 EL7888 EL7889 EL7891 EL7892 EL7893 EL7894 EL7898 and EL7900	Held	100%
Wali Project	Quebec, Canada	100 claims 2662066 to 2662105 and 2668944 to 2668976 and 2671306 to 2671319 and 2672867 to 2672879	100%	Not Held
Ernst Lake Project	Quebec, Canada	109 claims 2684840 to 2684881 and 2689914 to 2689917 and 2696399 to 2696400 and 2705256 to 2705316	Held	100%

7.5	Unused financing facilities available at quarter end		-
7.6	Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

8. Estimated cash available for future operating activities	\$A'000
8.1 Net cash from / (used in) operating activities (item 1.9)	(58)
8.2 (Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	-
8.3 Total relevant outgoings (item 8.1 + item 8.2)	(58)
8.4 Cash and cash equivalents at quarter end (item 4.6)	738
8.5 Unused finance facilities available at quarter end (item 7.5)	-
8.6 Total available funding (item 8.4 + item 8.5)	738
8.7 Estimated quarters of funding available (item 8.6 divided by item 8.3)	12.7
<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	
8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer: N/A	
8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer: N/A	
8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?	
Answer: N/A	
<i>Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.</i>

Notes

- This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.

2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
