

September 2025 Quarterly Report

For the period ending 30 September 2025

HIGHLIGHTS

Morogoro Project

- Results of all 5 trenches from Kumba prospect received and confirm high-grade graphite up to 31.4% Total Graphitic Carbon (TGC), including:
 - 212m @ 13.5% TGC in trench TRUM23-002
 - including 40m @ 18.5% TGC with up to 29.0% TGC, and
 - 312m @ 8.8% TGC in trench TRUM23-001
 - Including 30m @ 12.2% TGC
 - 68m @ 18.7% TGC in trench TRUM23-004
 - including 30m @ 21.9% TGC with up to 27.1% TGC, and
 - 84m @ 15.2% TGC in trench TRUM23-003
 - including 6m @ 27.5% TGC and up to 31.4% TGC, and
 - 88m @ 14.0% TGC in trench TRUM23-005
- The Maiden drilling program has commenced at the Kumba deposit, Morogoro Project targeting high-grade trench results.

Corporate

- Mr Andrew Lawson was appointed as Managing Director following his initial 3-month period as CEO.
- Cash position of A\$3.3m.

InVert Graphite Limited (the Company or InVert Graphite) (ASX: IVG) provides its quarterly report for the period ended 30 September 2025. Activities during the quarter were largely focused on initial exploration at the Morogoro Graphite Project in Tanzania.

InVert's Managing Director, Andrew Lawson, commented:

"The September quarter has been a period of operational progress as we move from acquisition into active exploration across our new project portfolio."

"At Morogoro, we were very encouraged by trenching results from the Kumba prospect confirming high-grade graphite of up to 31.4% TGC, and the commencement of our maiden drilling program marks an exciting next step in unlocking the project's potential."

“With a clear strategy focused on advancing our critical minerals assets, InVert is well placed to continue building momentum through the remainder of the year. We look forward to delivering further exploration results and creating value for our shareholders as these programs advance.”

Morogoro Project

Trench Results

Five trenches for 1,105 metres of excavation were completed at the Kumba deposit and a further three trenches for 1,397 metres at Kasanga.

Results from the 5 trenches at Kumba were received and subsequently reported in two batches during the quarter. All 5 trenches returned wide zones of high-grade graphite at surface including:^{1,2}

- **212m @ 13.5% Total Graphitic Carbon (TGC)** in trench TRUM23-002
 - including **40m @ 18.5% TGC** with **up to 29.0% TGC**, and
- **312m @ 8.8% TGC** in trench TRUM23-001
 - Including **30m @ 12.2% TGC**
- **68m @ 18.7% TGC** in trench TRUM23-004
 - including **30m @ 21.9% TGC** with **up to 27.1% TGC**, and
- **84m @ 15.2% TGC** in trench TRUM23-003
 - including **6m @ 27.5% TGC** and **up to 31.4% TGC**, and
- **88m @ 14.0% TGC** in trench TRUM23-005

Field mapping and grab sampling at Kumba had identified broad zones of outcropping and inferred graphitic schist over a strike length of approximately 2km. Trenches were dug on approximately 500m spacings with samples collected for assay (Figure 1 and Photo 1).

Trench TRUM23-001 is located on the south-eastern edge of the currently mapped graphitic schists and located adjacent to a small river stream. The trench was dug over a length of 325m and returned a wide interval of **80m at 9.1% TGC from 6m** plus a further **220m at 8.8% TGC from 92m** and included higher grade zones of **30m at 12.2% from 120m** along the trench and **28m @ 10.9% from 172m**. When a low-grade interval of 6m at 3.1% TGC is included, the combined interval is increased to **312m zone at 8.8% TGC**.

Trench TRUM23-002 is located approximately 1km to the west of the first trench and excavated over a length of 240m, returning two zones of mineralisation; 1) **140m at 14.1% TGC from 18m**, including a higher-grade zone of **60m averaging 17.4% TGC** and inclusive of the highest-grade sample of **29.0% TGC**; and 2) a further **48m at 13.7% TGC from 182m**.

Trench TRUM23-003 is located approximately 300m to the west of TRUM23-002 and returned **84m @ 15.2% TGC** from 0m including **6m @ 27.5% TGC** and including a **2m interval over 31.4% TGC**.

¹ ASX Announcement 17 July 2025 - First Trench Results Confirm High-Grade Graphite at Morogoro

² ASX Announcement 4 August 2025 - Consistent High-Grade Graphite Demonstrated Over 2km Strike

Trench TRUM23-004 is located between TRUM23-001 and 002, returning multiple zones with **64m @ 12.8% TGC** from 20m and **68m @ 18.7% TGC** from 224m, inclusive of **30m @ 21.9% TGC** from 226m with up to **27.1% TGC**.

Trench TRUM23-005 is located approximately 750m to the northwest of TRUM23-003 and is linked by a region of mapped graphitic sub-crop. TRUM23-005 returned **88m @ 14.0% TGC** from 12m.

In all trenches structural measurements indicate a shallow foliation dip of approximately 35° to the NNE. This dip angle indicates a true thickness of the units of approximately 60% of the outcrop width.

Photo 1: Excavation of trench TRUM23-002

Table 1: Kumba Trench graphite assay results

Trench ID	From	To	Width	TGC %
TRUM23-001	6	86	80	9.1
	92	312	220	8.8
	including	120	150	12.2
	and	172	200	10.9
TRUM23-002	18	230	212	13.5
	including	18	158	14.1
	including	98	158	17.4
	118	158	40	18.5
	182	230	48	13.7
TRUM23-003	0	84	84	15.2
	including	50	6	27.5
	98	108	10	11.0
TRUM23-004	20	84	64	12.8
	202	216	14	13.0
	224	292	68	18.7
	including	226	30	21.9
TRUM23-005	12	100	88	14.0

Samples from the three at Kasanga are at the laboratory with results pending.

Maiden Drill Program³

The Company commenced its maiden drilling program at the Kumba Deposit during the reporting period. The first pass RC drill program, comprised of 1,300m across 13 drillholes, is designed to follow up on the high-grade trench results and confirm the presence of mineralisation to a depth of approximately 80m.

The shallow 30° dip of the mapped graphitic units means an initial broad drill spacing can be used with a limited number of holes to provide an effective first pass and allow for an optimised follow up in subsequent drill programs.

Drilling commenced adjacent to trench TRUM23-002 with subsequent drill lines to be completed along adjacent trenches and on lines between trenches.

A second phase of drilling is intended upon confirmation of initial results with further RC drilling as well as completion of a number of diamond drill holes. A diamond drill rig has already commenced mobilisation to the project area.

³ ASX Announcement – 17 September 2025 - Maiden Drilling Program Commenced at Kumba

Figure 2: RC drill rig in operation at Kumba Deposit, Morogoro Graphite project, Tanzania. Drilling has commenced adjacent to trench TRUM23-002.

Managing Director Appointment⁴

Chief Executive Officer, Mr Andrew Lawson, transitioned to Managing Director and was appointed to the Board of the Company, effective immediately.

Mr Lawson served as Chief Executive Officer (CEO) from 3 June 2025 as part of the Company's ASX relisting pursuant to the InVert Graphite Limited Prospectus dated 13 March 2025. In accordance with Mr Lawson's CEO employment contract, the Board in its sole discretion has determined to appoint him as the Managing Director of InVert Graphite following his initial 3-month period as CEO.

Terms and conditions for Mr Lawson's appointment remain unchanged and are as announced on 24 September 2024 and in the Company's Prospectus dated 13 March 2025.

ASX - Additional Information

Mining Exploration Expenditures

Upon readmission to the ASX the Company commenced final planning and mobilisation for field activities at the Morogoro project in Tanzania. Field crews began logistical work and gained access to the Kumba deposit to enable drill access and commencement of the initial Reverse Circulation (RC) drilling program in the quarter ending 30 September 2025.

There were no other exploration activities, mining production or development activities engaged in by the Company during the quarter ended 30 September 2025.

⁴ ASX Announcement 19 September 2025 – Managing Director Appointment

Acquisition and Relisting Costs

Acquisition and relisting costs relate to legal, technical, and other costs incurred in relation to the Tanzanian Critical Minerals Project and the preparation of documentation required to reinstate the Company's Shares to trading on the official list of the ASX.

Related Party Payments and Administration and Corporate Costs

As at 30 September 2025, the Company held approximately A\$3.3m in cash.

During the quarter, the Company made payments of approximately \$168,000 to related parties and their associates. These payments relate to executive directors' remuneration, non-executive directors' fees, and superannuation contributions.

Administration and corporate costs totalled \$165,000 for the September quarter. Other corporate costs include, ASX listing fees, share registry fees, information technology costs and website maintenance costs.

Information required by Listing Rule 5.3.4

Below is a comparison of expenditure incurred in the period from 10 June 2025 (being the date of the Company's relisting on ASX) to 30 September 2025 in relation to the proposed Use of Funds in accordance with the prospectus which the Company lodged with ASIC on 13 March 2025 and the supplementary prospectus which the Company lodged with ASIC on 7 April 2025.

Use of Funds	Use of Funds per Prospectus (Note 1) A\$'000	Expenditure Incurred since relisting on 10 June 2025 (Note 2) A\$'000	Actual expenditure as a % of Proposed use of Funds %
Exploration expenditure Morogoro Project	2,337	516	22.1%
Exploration - White Hill Licences	378	21	5.6%
Working capital and administrative costs	1,758	402	22.9%
Repayment of loan	85	81	95.3%
Transaction costs	37	35	94.6%
Costs of Chapters 1 and 2 Listing Rules re-compliance and Listing and other expenses	391	319	81.6%
TOTAL	4,986	1,374	27.6%

Note 1 – Represents the Proposed Use of Funds for the 24-month period following listing included at Section 1.6 of the Prospectus dated 13 March 2025 and at Section 3.12 of the Supplementary Prospectus dated 7 April 2025.

Note 2 – Represents expenditure incurred in the period from 10 June 2025 (being the date of the Company's re-listing on the ASX) to 30 September 2025 analysed according to the categories of expenditure set out in the Use of Funds in the Prospectus

Mineral Tenements

As at 30 September 2025, InVert Graphite held ownership interest in mineral tenements totalling approx. 386km² in Tanzania and approx. 1,362km² in South Australia as set out in the table below.

Region	Description	Tenement Number	Status	Interest Owned (%)		Area (km ²)
				This Qtr	Last Qtr

Compliance Statement

This announcement contains information relating to Exploration Results extracted from ASX market announcement reported previously in accordance with the 2012 edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves" ("2012 JORC Code") and published on the ASX platform on 17 July 2025 and 4 August 2025. The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement.

About InVert Graphite

InVert Graphite (ASX: IVG) is an Australian company focused on exploration and development of critical minerals in Tanzania and South Australia.

In 2025, Dominion Minerals Limited (ASX: DLM) undertook a corporate transformation and renamed as InVert Graphite Limited, as part of its readmission to trading on the official list of the Australian Stock Exchange (ASX).

IVG is led by a highly experienced Board and Management team with strong capabilities in mineral exploration, mine development, capital markets and project commercialisation.

The Company's flagship project is the 100% owned Morogoro Project, comprised of approximately 386km² of granted and application stage exploration ground in Tanzania. The project is prospective for high-grade graphite and strategically located near existing rail, sealed roads and port infrastructure.

In addition, the Company's 100% owned White Hill Project is comprised of two exploration licences in South Australia that are prospective for Rare Earth Elements.

The Morogoro Project location and nearby graphite projects.

5.3 Bank overdrafts	-	-
5.4 Other (provide details)	-	-
5.5 Cash and cash equivalents at end of quarter (should equal item 4.6 above)	3,283	4,215

6. Payments to related parties of the entity and their associates	Current quarter \$A'000
6.1 Aggregate amount of payments to related parties and their associates included in item 1	168
6.2 Aggregate amount of payments to related parties and their associates included in item 2	-

Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.

7.	Financing facilities	Total facility amount at quarter end \$A'000	Amount drawn at quarter end \$A'000
<p><i>Note: the term "facility" includes all forms of financing arrangements available to the entity.</i></p> <p><i>Add notes as necessary for an understanding of the sources of finance available to the entity.</i></p>			
7.1	Loan facilities	-	-
7.2	Credit standby arrangements	-	-
7.3	Other (please specify)	-	-
7.4	Total financing facilities	-	-
7.5	Unused financing facilities available at quarter end		
7.6	<p>Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.</p> <p>Not applicable</p>		

8.	Estimated cash available for future operating activities	\$A'000
8.1	Net cash from / (used in) operating activities (item 1.9)	(367)
8.2	(Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	(478)
8.3	Total relevant outgoings (item 8.1 + item 8.2)	(845)
8.4	Cash and cash equivalents at quarter end (item 4.6)	3,283
8.5	Unused finance facilities available at quarter end (item 7.5)	-
8.6	Total available funding (item 8.4 + item 8.5)	3,283
8.7	Estimated quarters of funding available (item 8.6 divided by item 8.3)	3.9
<p><i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i></p>		
8.8	<p>If item 8.7 is less than 2 quarters, please provide answers to the following questions:</p> <p>8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?</p> <p>Answer: Not applicable</p> <p>8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?</p> <p>Answer: Not applicable</p>	

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: **Not applicable**

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date: **29 October 2025**

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [*name of board committee – eg Audit and Risk Committee*]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
