

## Quarterly Report

For the period ending 30 September 2025, dated 31 October 2025

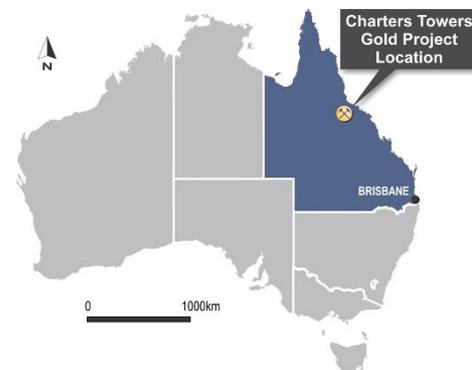

### ABOUT THE COMPANY

Citigold Corporation Limited (ASX:CTO) is an Australian gold exploration and development company located in northeast Australia. The Company's prime focus is the high-grade Charters Towers Gold Project. The Company continues to advance its core activities, including broad regional exploration programs, mine design, engineering, and working to restart its gold mine.

**Our aim is to be a 300,000 plus ounces per annum ultra-low-cost gold producer using state-of-the-art technologies and efficiencies, all with the aim of returning substantial profits to shareholders in harmony with the local environment<sup>1</sup>.**

Citigold holds 175 square kms of prospective exploration grounds surrounding the Central Mine mineralisation area and is actively exploring new reefs to further increase mineral resources over time.

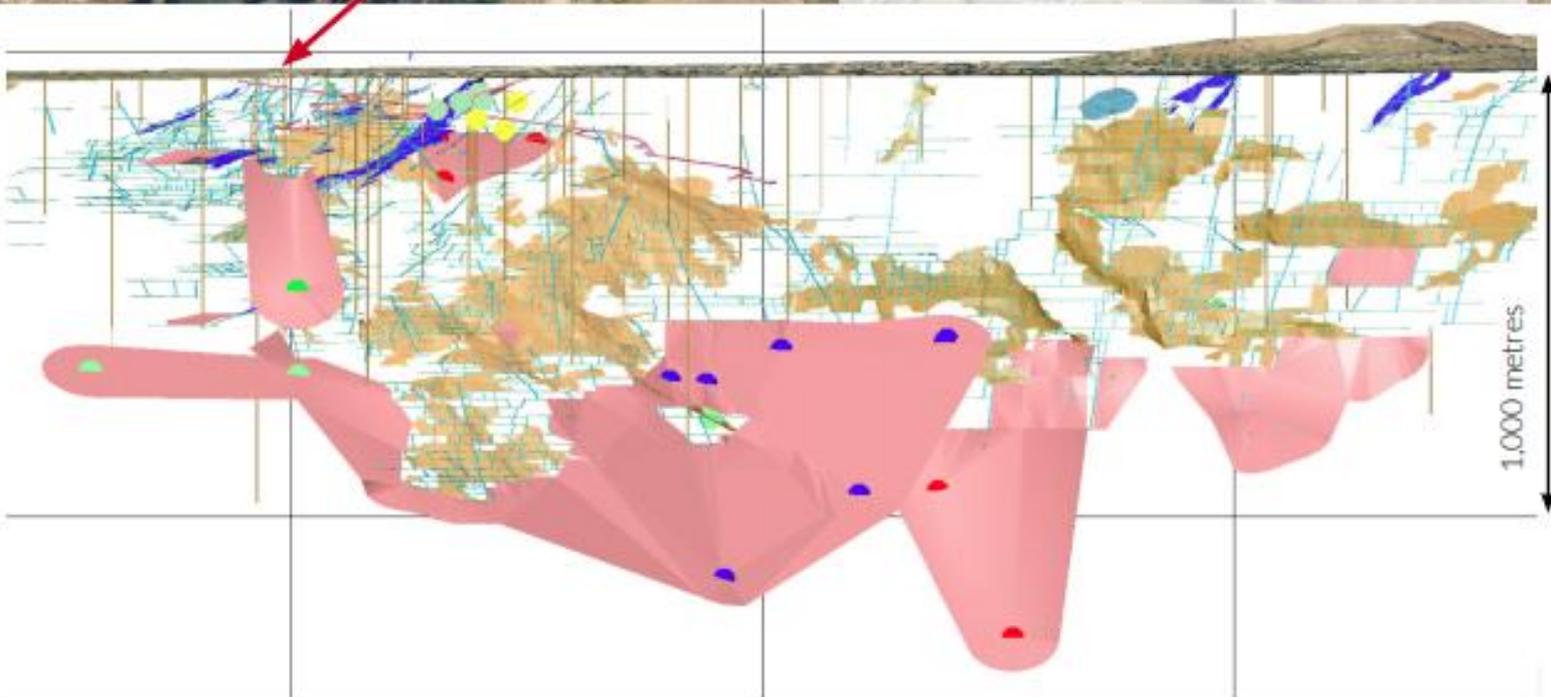

<sup>1</sup> See ASX Announcement dated 11 February 2019, [Updated December 2018 Quarterly Activities Report](#).

# CENTRAL MINE SITE

The red arrow shows the entrance to the underground mine. The main access tunnel is 1.6Kms long with plans to initially increase by a further 1,000 metres.

**ABOVE TOP:** Photo of Citigold's Central mine site and the entrance to the underground ramp portal.

**ABOVE:** Shows the gold areas to be mined in **PINK** and, the **BROWN** areas were previously mined.

GREY lines are 1 kilometer grid spacing, large gold deposit is in **PINK** and mining gold starts at relatively shallow 300 metres deep.

Long section looking south, showing the drill pierce points through the Central Area Indicated Mineral Resource structures. Above diagram, see ASX announcement dated 9 December 2020, Mineral Resources & Ore Reserves 2020 Report.

The above diagram is based on estimates of mineral resources. The material assumptions and technical parameters underpinning the estimates continue to apply and have not materially changed.

## GEOLOGY AND EXPLORATION

Mineral resources and reserves are summarised below<sup>2</sup>:

CATEGORY	TONNES	GRADE	CUT-OFF	CONTAINED OUNCES
Inferred Mineral Resources*	32,000,000	14 g/t	3.0g/t	14,000,000
Indicated Mineral Resources (includes Probable Ore Reserves)	3,200,000	7.7 g/t	4.0 g/t	780,000
Probable Ore Reserves (derived from and contained within Indicated Mineral Resource)	2,500,000	7.7g/t	4.0 g/t	620,000

Citigold's Mineral Resources and Ore Reserves for the overall Gold Project are reported in accordance with the Australasian JORC Reporting Code 2012<sup>2</sup>. Mineral Resources and Ore Reserves remained unchanged during the Quarter. The material assumptions and technical parameters underpinning the estimates continue to apply and have not materially changed<sup>2</sup>.

A concerted effort has been made to update and modernise the existing 3D model data pertaining directly to the Central resource, reserve and development area. The work completed included the updating of all structural data, model structures, resource and reserve surfaces and associated drill hole and geological data into a new, cross-platform file set. The work has been completed in preparation for the integration of the existing modelling into multiple 3D modelling and mine design software which will, in turn, be utilised to provide a refined, early-stage mine target area and integrate this with an efficient mine development plan.

In addition, the drill hole database has been updated and also integrated into the new formatting, together with composite geological data from existing structures reported in shafts by the historical mining operations. This data provides a critical additional set of geological observations to help build accurate and better constrained structural models in areas where drilling has yet to reach.

The exploration program is ongoing on Citigold's five Exploration Permits and three Mineral Development Licences and results will be reported in due course.

In accordance with regulatory requirements, the Company has prepared its long term, post mining, Progressive Rehabilitation and Closure Plan (PRCP). The plan has been submitted to the Queensland Department of Environment, Tourism, Science and Innovation. The PRCP covers Citigold's Charters Towers Gold Project's mining leases and outlines the Company's long term framework for the future, post-mining progressive rehabilitation and closure plans of its operations in accordance with the requirements of the Environmental Protection Act 1994 (Qld).

Exploration analysis, preparation of studies, reviews and maintenance of data, tenement optimisation, and other exploration activities continued. During the Quarter, no new exploration drilling was undertaken. Normal regulatory compliance reporting for exploration, mine and environmental continued during the Quarter.

<sup>2</sup>See ASX Announcement dated 9 December 2020, [Mineral Resources and Ore Reserves 2020](#).

## MINE DESIGN AND ENGINEERING

During this quarter a visit to the mining leases at Charters Towers was carried out to inspect the current condition of the leases and facilities in order to prepare a work program to bring the assets into production.

Central Mine design and engineering continued to be optimised during the period. Other Central Mine design and engineering activities continued to progress including, planning, scheduling, and optimisation reviews.

## HEALTH, SAFETY, COMMUNITY AND ENVIRONMENT

There were no Lost Time Injuries, significant environmental, health, or safety issues during the quarter.

## CORPORATE

### Annual General Meeting

The 2025 Annual General Meeting will be held on Wednesday, 19<sup>th</sup> November 2025 at 2pm (Brisbane) at Belise at Bowen Hills, Jabiru Conference Room, Ground floor, 510 St Pauls Terrace, Bowen Hills QLD 4006 Australia.

For further information, please see the [Notice of Annual General Meeting & Proxy Form](#), released 3 October 2025.

### Financial Discussion

The Annual Report as of 30 June 2025 was released during the quarter. The loss after tax for the Company was \$22.1 million for the year (2024: net loss was \$2.3 million). The net assets for the Company are \$74.3 million as at 30 June 2025 (2024: \$96.5 million). [Click here](#) to download a copy of the 2025 Annual Report to Shareholders.

Shareholders have funded the Company over many years. Management seeks to structure funding beneficial to the funder(s) and shareholders. There is interest by entities to join Citigold in the development of the gold mine. Citigold is continuing to work with parties who are at various stages of discussions regarding funding opportunities. The Company's mine sites continued to remain in care and maintenance.

The Company has in the past undertaken broad shareholder share purchase plans and share placements. The Company further has the ability to raise funds from the forward sale of gold in the ground and drawing on loan facilities as previously announced.

### Appendix 5B Disclosures

The Company's accompanying Appendix 5B (Quarterly Cash Flow Report) includes amounts in items 6.1 & 6.2 which constitute directors' accrued fees and reimbursements during the Quarter.

During the period, the Company made a payment of \$55,000 (capitalised), on exploration activities at its Charters Towers Gold Project, which included a regional exploration program, desktop studies, review of historical data, tenement optimisation and exploration technologies etc. Exploration payments totalling \$356,000 (expense) included tenement management costs, mining rent and environmental fees etc. Development payments totalling \$24,000 (capitalised) as reported in item 2.1(f) included mine design and engineering optimisation, scheduling, planning, reviewing data, and economic evaluation etc. Payment for administration and corporate costs amounted to \$129,000 and included listing, compliance, consultants, administration, and project marketing activities etc.

The above activities were summarised in this quarterly report.

## Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
