

ASX RELEASE | CLEARVUE TECHNOLOGIES LIMITED | (ASX:CPV | OTCQX:CVUEF)

## ClearVue & Kukyoung Enter Official License Partner Agreement

*South Korean leader in the production of architectural glass, Kukyoung, has become an Official ClearVue Fabricator. As an Official ClearVue Fabricator, Kukyoung is supporting ClearVue in redefining energy-generating architecture and integrating solar glass into advanced façade systems.*

### HIGHLIGHTS:

- **ClearVue Official License Partner:** Kukyoung is formally authorised to market and deploy ClearVue's Solar Façade technology within its advanced glass products.
- **Renewable Project Development:** Kukyoung will integrate ClearVue into façade projects focused on delivering enhanced energy efficiency, sustainability and renewable energy generation.
- **Market Expansion:** The partnership opens access to Kukyoung's established customer network and supports property developers, architects, and government stakeholders in adopting Building Integrated Photovoltaic (BIPV) solutions.
- **Innovation and R&D:** Joint research programs will align with South Korea's national initiatives for green building and carbon neutrality.
- **Product Co-Development:** The combination of ClearVue's solar technology and Kukyoung's architectural glass expertise will drive new product innovations in façade systems for the Asian Market.
- **Strategic Significance:** This License Partner Agreement strengthens ClearVue's commercialisation strategy and expands its presence in one of the world's most dynamic construction markets.

05 November 2025 – Perth, Australia – Today, ClearVue Technologies Limited (ASX:CPV) (ClearVue or the Company) and Kukyoung Glass and Metal Co., Ltd. (Kukyoung, KOSDAQ: 006050), a recognized leader in architectural glass, announced a three-year license partner agreement to accelerate the integration of ClearVue's advanced Solar Façade solutions into premium commercial and institutional building projects across South Korea and the broader Asia Pacific region.

The agreement opens doors to Kukyoung's established network of customers and partners, expertise in advanced glass engineering, and reputation for delivering high-quality architectural glass solutions. It marks another pivotal step in ClearVue's commercialisation strategy. South Korea is recognised as one of the world's most dynamic construction markets and this relationship will strengthen opportunities for

large-scale adoption of sustainable building technologies. Kukyoung's reputation for delivering premium architectural glass solutions complements ClearVue's mission to accelerate the global adoption of sustainable building technologies.

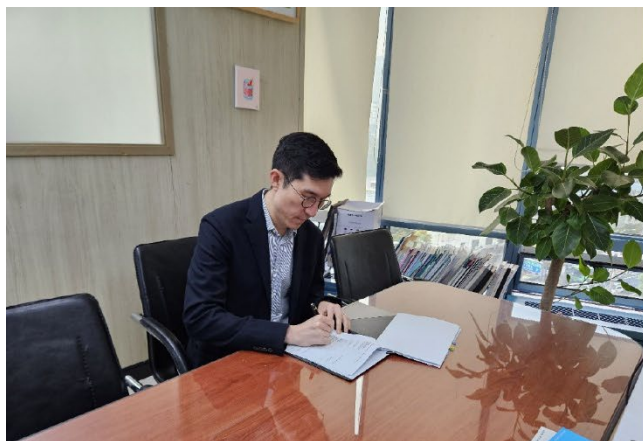

Managing Director and Chief Executive Officer, Mr. Douglas (Doug) Hunt, commented on the agreement:

*"We are proud to be working with Kukyoung because they are a highly respected leader in the South Korean glass façade industry. Kukyoung's deep expertise in architectural glass systems going back to 1959 means they are known for delivering premium, high-performance solutions to architects, developers and construction firms across the region. This makes Kukyoung an valuable partner for ClearVue as our companies work together to accelerate adoption of ClearVue Solar Façade solutions. Their market presence and trusted relationships add significant strength to our commercialization strategy. ClearVue now has a direct channel into projects where innovation, quality and sustainability are top priorities."*

*"Our companies are dedicated to making a measurable contribution to reducing building emissions while helping customers unlock new value from their building envelopes."*

Kukyoung, Chief Executive Officer, Mr. Justin Choe, commented:

*"Kukyoung's mission has always been to deliver architectural glass and façade systems that combine design excellence with high performance. We have developed trusted relationships with developers, architects and contractors over decades of consistently delivering innovative and reliable solutions. ClearVue's Solar Façade technologies enhance our value proposition by enabling us to offer customers an integrated renewable energy solution. Now we can meet the growing demand for sustainable construction while positioning Kukyoung at the forefront of smart building innovation. By working together with ClearVue, we can expand the impact of our solutions and drive greater efficiencies for our clients."*

Kukyoung, Chief Executive Officer, Mr. Justin Choe at signing of ClearVue License Partner Agreement

## **ABOUT CLEARVUE TECHNOLOGIES LIMITED**

ClearVue Technologies Limited (ASX: CPV; OTCX: CVUEF) is an Australian technology company that integrates solar technology into building façade and rooftop surfaces to provide renewable energy generation and offset the operational carbon footprint of buildings. The Company's advanced, patented glass technology preserves glass transparency maintaining building aesthetics while generating energy.

ClearVue has extended solar energy-generation to vision glass, cladding, spandrel, balustrade, and skylight solutions. These solutions can offset operational energy requirements significantly contributing to the net zero building.

ClearVue's integrated solar façade is revolutionizing the way buildings are designed, constructed, and renovated. Experience how building façades will become a major contributing factor to reducing operational carbon by visiting ClearVue at [www.clearvuepv.com](http://www.clearvuepv.com).
