

Solara Executes Heritage Agreement to Progress Exploration Activities

Solara Minerals Ltd (ASX: SLA) (**Solara** or the **Company**) is pleased to advise that the Company has successfully executed a Heritage Agreement with the Traditional Owners, the Nharnewangga Wajarri and Ngarlawangga peoples, represented by the Jidi Jidi Aboriginal Corporation (**JJAC**).

The heritage agreement covers the Degrusa West, Wilgeena, Wagtail and Mikhaburra project areas (Figure 1). The agreement ensures that both Solara and the JJAC maintain channels of communication and work collaboratively, preserving culture and the environment. The agreement covers early-stage exploration work allowing drilling activities to take place once the area has been surveyed by the JJAC.

A heritage survey is upcoming at the Degrusa West property where drilling activities will test the contact between the Peak Hill Schist and the Naracoota Volcanics where a **MLEM/VTEM target exists** (Figure 2). This target is in a key structural position showing promising geophysical and geochemical responses¹.
