FINANCIAL AND OPERATIONS REVIEW

For the financial period ended 30 September 2025

Overview of the Global Economic Environment (April – September 2025)

The first half of FY2026 unfolded against a backdrop of moderating inflation, stabilising interest rates, and renewed optimism in the global equity markets—particularly in the United States technology sector. Despite persistent geopolitical uncertainties and continued trade frictions between major economies, investors displayed stronger risk appetite, driving broad-based market gains across key indices.

The U.S. Federal Reserve maintained its policy rate at elevated levels through much of the period but signalled a potential pivot towards gradual easing should inflation remain contained. This expectation, combined with resilient corporate earnings and robust consumer demand, bolstered investor confidence and reignited momentum in equity markets.

The technology sector was the standout performer, driven by sustained enthusiasm for artificial intelligence (AI), semiconductor innovation, and cloud infrastructure investments. Mega-cap technology companies posted record valuations, underpinned by strong earnings and continued capital expenditure on AI-driven efficiency gains. The NASDAQ Composite led global benchmarks, extending its upward trajectory amid renewed investor confidence in long-term digital transformation trends.

However, not all was smooth sailing. The resurgence of trade tensions—particularly the renewed U.S. tariff threats on key imports from China and selected European goods—introduced intermittent volatility. These policy shifts, coupled with currency fluctuations, posed challenges for practically all investors.

In Asia, market sentiment remained mixed. While Japan benefited from corporate reform momentum and foreign inflows, China's economic recovery continued to face headwinds due to property sector weakness and subdued domestic consumption. Nonetheless, targeted policy support from the Chinese government offered short-term stability to selected industries.

Against this backdrop, markets rewarded disciplined, fundamentals-driven investors. The period demanded agility, strategic positioning, and prudent risk management—principles that 8IH has continued to uphold.

Operational and Financial Performance

For the half-year ended 30 September 2025, 8IH Holdings Limited delivered a strong financial performance, reflecting both the improved global investment environment and the Group's focused execution of its investment strategy.

The Group recorded investment gains of S\$2.3 million, a significant improvement compared to the preceding year's results, driven primarily by positive performance in U.S. equity markets—particularly within the technology and innovation sectors. Select exposures to semiconductor, AI infrastructure, and cloud computing companies delivered outsized returns, underscoring the benefits of our fundamentals-driven investment approach.

At the same time, foreign exchange losses of \$\$0.4 million were recorded, largely attributable to currency translation effects arising from our U.S. dollar-denominated investments. As a result, the Group achieved a net profit of \$\$1.3 million for the six-month period, marking a solid rebound from the prior year's loss and demonstrating the resilience and scalability of our refined investment model.

Throughout the period, 8IH continued to uphold its risk-managed portfolio strategy, balancing concentrated positions in high-conviction growth equities with diversified, low-cost ETF holdings to manage volatility and preserve liquidity. With market conditions improving, the Group also deployed a substantial portion of its cash reserves into investments, positioning itself to capture near- and medium-term opportunities in technology and other structural growth sectors.

The Group maintained strict cost discipline, with operating expenses remaining well-controlled, allowing a significant share of investment gains to translate effectively into bottom-line performance.

81H's Strategic Outlook: Focused for Future Growth

Disciplined Investment Mandate

As we progress into the second half of FY2026, our focus remains on navigating an increasingly complex global landscape through disciplined capital allocation and prudent risk management. The volatility of recent years has underscored the importance of maintaining a structured investment process and a well-balanced portfolio, combining growth potential with capital preservation.

FINANCIAL AND OPERATIONS REVIEW

For the financial period ended 30 September 2025

Long-Term Value Creation

Our investment philosophy remains grounded in fundamentals-driven, value-based investing. We continue to seek opportunities where market sentiment has diverged from intrinsic value, focusing on companies with strong balance sheets, durable competitive advantages, and sustainable earnings trajectories. This approach, complemented by selective ETF exposure, provides both diversification and the potential for above-market returns.

Strategic Shift - Option to Use Leverage

While 8IH has historically maintained a no-leverage policy, the Board is now exploring the measured use of limited leverage as a strategic tool to enhance returns in favourable market conditions. This marks a thoughtful evolution in our capital management strategy—designed to accelerate net tangible asset (NTA) growth and deliver greater shareholder value.

Any deployment of leverage will be tightly controlled, undertaken only under Board oversight, and accompanied by robust liquidity buffers and diversification safeguards. This disciplined approach ensures that we remain aligned with our long-standing commitment to capital preservation while maximising opportunity in rising markets.

Targeting Structural Trends

Looking ahead, we will continue to identify opportunities within sectors underpinned by long-term structural trends—particularly technology, semiconductors, Al innovation, and healthcare. These sectors remain at the forefront of global transformation, offering compelling potential for sustained value creation.

The Group's strengthened investment framework, combined with improved market positioning and operational efficiency, provides a solid foundation for continued growth in the second half of the financial year and beyond.

Conclusion

The first half of FY2026 marked a strong start for 8IH Holdings Limited. With improved profitability, disciplined execution, and a clear strategic roadmap, the Group is well-positioned to navigate the evolving global landscape.

We remain committed to long-term shareholder value creation through prudent risk management, selective capital deployment, and an unwavering focus on fundamentals. As global markets continue to adjust to shifting economic and geopolitical realities, 8IH's agility and disciplined investment approach will remain its greatest strengths.

DIRECTORS' STATEMENT

REPORT ON REVIEW OF CONDENSED INTERIM CONSOLIDATED FINANCIAL INFORMATION TO THE MEMBERS OF 81 HOLDINGS LIMITED

Introduction

We have reviewed the accompanying condensed interim consolidated statement of financial position of 8I Holdings Limited and its subsidiaries (the "Group") as of 30 September 2025 and the related condensed interim consolidated statements of comprehensive income, changes in equity and cash flows for the six-month period then ended, and material accounting policy information and other explanatory notes. Management is responsible for the preparation and fair presentation of this interim financial information in accordance with Financial Reporting Standards in Singapore, Interim Financial Reporting ("FRSs 34"). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Review

We conducted our review in accordance with Singapore Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Singapore Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim consolidated financial statements does not give a true and fair view of the consolidated financial position of the Group as at 30 September 2025, and of its consolidated financial performance, its consolidated changes in equity and its consolidated cash flows for the six-month period then ended in accordance with FRSs 34.

2. Basis of preparation and changes in accounting policies

The condensed interim consolidated financial information for the half-year ended 30 September 2025 has been prepared in accordance with FRS 34, Interim Financial Reporting.

The condensed interim consolidated financial information does not include all the notes of the type normally included in annual financial statements. Accordingly, this report is to be read in conjunction with the annual financial statements as at 31 March 2025 and any public announcements made by 8I Holdings Limited during the interim reporting period.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period.

The financial statements are presented in Singapore Dollars (SGD or S\$).

3. Significant accounting judgement and estimates

The preparation of the Group's condensed interim consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future periods.

3.1 Critical judgements in applying the entity's accounting policies

Estimates, assumptions and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

9. Fair value of assets and liabilities

(a) Fair value hierarchy

The Group categorised fair value measurements using a fair value hierarchy that is dependent on the valuation inputs used as follows:

- (i) quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1);
- (ii) inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (Level 2); and
- (iii) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3).

Fair value measurements that use inputs of different hierarchy levels are categorised in its entirety in the fair value hierarchy as the lowest level input that is significant to the entire measurement.

(b) Financial instruments measured at fair value

The following table shows an analysis of each class of financial instruments measured at fair value at the end of the reporting period:

Fair value measurements at the end of the reporting period using

As at 30 Sep 2025 Assets measured at fair value	Quoted prices in active markets for identical instruments <u>Level 1</u> \$\$	Significant observable inputs other than quoted prices <u>Level 2</u> \$\$	Unobservable inputs Level 3 S\$	<u>Total</u> S\$

Financial assets as at 30 Sep 2025	12,503,338	-	451,855	12,955,193
As at 31 Mar 2025 Assets measured at fair value				
Financial assets:				
Financial assets, at FVPL	9,598,695	-	-	9,598,695
Financial assets, at FVOCI		-	451,855	451,855
Financial assets as at 31 Mar 2025	9,598,695	-	451,855	10,050,550

There were no transfers between levels 1 and 2 during the period.

The fair value of financial instruments traded in active markets (such as fair value through profit and loss and financial assets through other comprehensive income) is based on quoted market prices at the reporting date. The quoted market price used for financial assets held by the Group is the current bid price. These instruments are included in Level 1.

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. The Group uses a variety of methods and makes assumptions that are based on market conditions existing at each balance sheet date. Where a valuation technique for these instruments is based on significant unobservable inputs, such instruments are classified as Level 3. Level 3 instruments include unquoted equity securities which fair values are measured based on Guideline Public Company Method, a market approach which values the underlying investee based on trading multiples derived from publicly traded companies that are similar to the investee. The steps taken in applying the Guideline Public Company Method include identifying comparable public companies, adjusting the guideline public company multiples for differences in the size and risk of these companies compared to the investee, and then applying the adjusted pricing multiples from the representative companies.

The carrying amount less impairment provision of trade receivables and payables are assumed to approximate their fair values.
