# Key value creation strategies

A business built on trust, technology, longstanding client relationships and execution capability

Ability to grow earnings and deliver high returns on capital through cycles

---

Improve the consistency of our earnings by managing our exposure to short term interest rate movements

---

Continue to strengthen our business through technology investments and client innovations

---

Proven track record of completing large scale acquisition integrations and technology projects and delivering the anticipated benefits

---

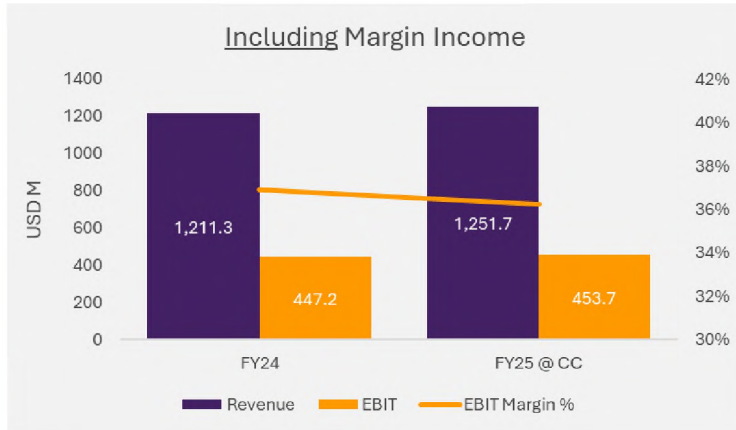

Maintain balance sheet strength to fund innovation, acquisitions and reward shareholders

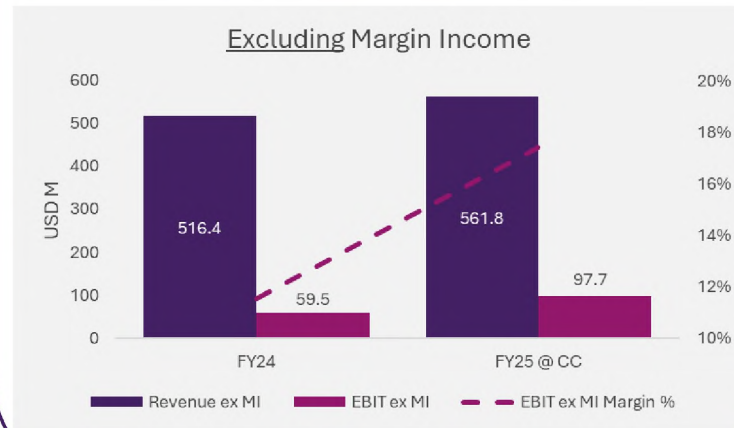

# FY25 Business performance

Revenue and EBIT growth across all businesses, with and excluding MI

## Issuer Services

## Corporate Trust

## Employee Share Plans

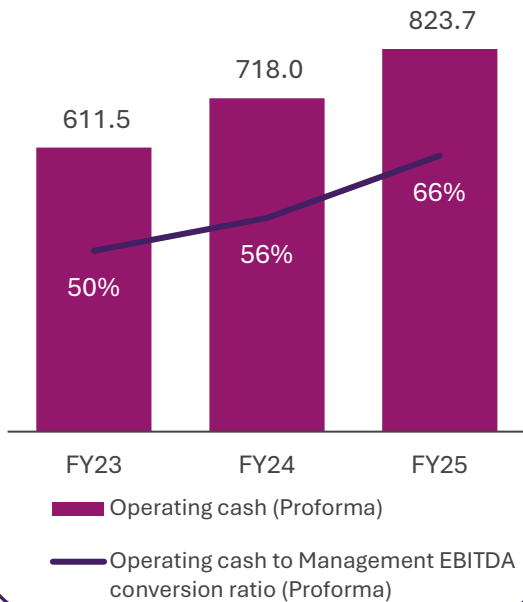

# High quality businesses drive strong returns

Balance sheet strength funds innovation, acquisitions and shareholder returns

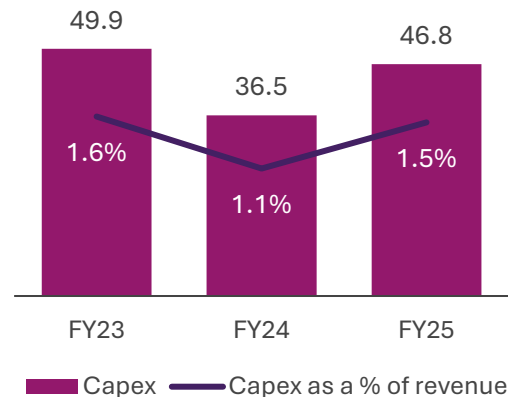

## Cash flow

Improving cash conversion reflects synergy programs progressing to completion.

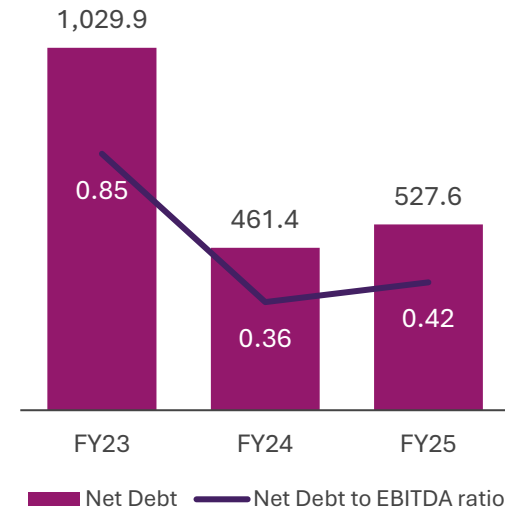

## Capex

Capital light businesses require low levels of ongoing capex to maintain performance levels. Majority of software development expensed, not capitalised.

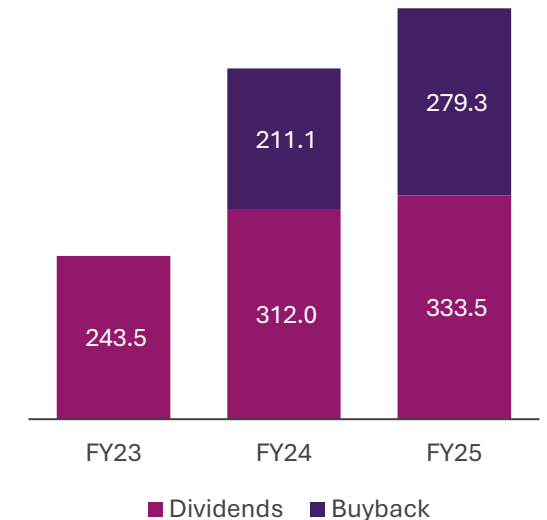

## Debt leverage

Low leverage ratio provides substantial capacity to invest in business growth and further reward shareholders.

## Shareholder returns

152% increase in shareholder returns vs. FY23. AU\$750m buyback completed in FY25, AU\$29.59 average purchase price.

Proforma defined as Group results excluding US MS and KCC. FY23 and FY24 cash flow excludes US MS and KCC (FY23 only). Numbers are in USD M at Actual fx rates, leverage ratio (times X), conversion ratio (%).

# FY26 trading update - strengthening confidence

FY26 guidance affirmed, Management EPS up around 4%, c. 140 cps. Q1 tracking well to expectations.

Revenue ex MI	Core fees, event fees and transactional income all a little ahead of expectations. Corporate actions activity is rising, debt issuance volumes are improving, and employee share plan trading remains consistent.	
Margin income	Client balances growing as activity levels increase. \$720m MI Guidance affirmed versus FY25 MI of \$761m. Higher balances offsetting lower yields. Balances now expected to be \$30.6bn for FY26.	
EBIT ex MI	EBIT ex MI slightly ahead of plan, ongoing margin expansion towards 20% mid-term target. FY26 guidance affirmed – up 5% v PCP.	
Capital management	Strong balance sheet provides capacity to fund innovation, acquisitions and rewards to shareholders. Sale of UK Mortgage Services announced. \$200m of USPP debt will be repaid Nov 25. Dividend payout under review given tax limitations on future share buybacks.	

Please refer to slide 8 of the FY25 ASX market presentation for guidance assumptions.

# Topics of focus

## Positioning Computershare for the next chapter of growth

Tokenization	Taking an active role working with the SEC's Crypto Task Force to assist with the design of best market practice for tokenized equities ensuring liquidity, Issuer controls and fungibility with existing issuances, as well as investor protection. Long term opportunity for the group.
Quality of earnings	As we near the completion of acquisition integrations and large-scale cost out projects, cash related management adjustments to earnings are falling sharply in FY26 and will be eliminated by the end of FY27.
Acquisition pipeline	We have clear acquisition targets in our core verticals and are in discussions with vendors. We will maintain our patient and disciplined approach to ensure we buy the right assets at the right price.
Organisational capabilities	Ongoing review from top down to provide Computershare with the right capabilities, technologies, regulatory approvals and structures to deliver the next chapter of growth.

# Computershare investment case
