About TALi Digital

TALi Digital Limited (ASX: TD1) is a digital health company delivering diagnostic and therapeutic solutions to enhance attention cognitive function. The Company has built a patented platform technology with our first programs targeting cognitive attention skills during early childhood via an evidence-based screening tool (DETECT®) and training modules (TRAIN® and ReadyAttentionGo!).

These programs are designed to be play-based interactions and can be complementary to existing therapy, placing TALi at the forefront of improving early intervention for childhood attention and concentration performance, which supports our vision to deliver a personalised digital experience to enhance cognitive care.

In June 2025, TALi Digital expanded its portfolio with the acquisition of You Can Do It! Education (YCDI!), a leading Australian social-emotional learning program. YCDI! has reached over one million students and is aligned with the ACARA national curriculum. Recognised by Beyond Blue's Be You initiative, it provides evidence-based programs for children aged 3 to 18, self-paced tertiary online courses, professional development for educators, and parent education micro courses. These programs focus on five essential social-emotional skills: confidence, persistence, organisation, getting along, and resilience. This acquisition enhances TALi's presence in the education sector and underscores its dedication to delivering innovative and accessible solutions.
