RESTORED PROFITABILITY

FY2025 marked a clear improvement in profitability despite the winding down of operational activity.

Revenue decreased by **23% to US\$26.8 million**, primarily due to the smaller fleet following the **redelivery of the M/V Ocean Swagman** in FY2024 and the **sale of the M/V Ocean Ute** during the year.

However, the reduction in activity was offset by **effective cost control** and a sharp **decline in bunker prices**, which fell by 46% year on year.

As a result, **Cost of Goods Sold** decreased by **47.7% to US\$16.0 million**, driving a significant increase in **gross profit** to **US\$10.9 million**.

The **gross profit margin improved to 40.5%**, the highest level recorded in recent years, reflecting the Company's disciplined cost management and operational efficiency even during the final phase of trading.

This result demonstrates how a leaner operating model, supported by lower fuel costs and prudent expense management, allowed Wellard to end its trading period with **restored profitability and strong margins**, before transitioning fully into the asset realisation phase.

THE IMPACT OF NON-RECURRING COSTS

In FY2025, Wellard achieved a **net profit of US\$1.3 million**, a result that includes a one-off, non-recurring expense of **US\$5 million**, recorded under “Other (losses)/gains from Other Activities.”

This expense related to the **acquisition of full ownership rights over the M/V Ocean Drover** from KPMG Singapore, the liquidators of *Ruchira Ships Limited (In Liquidation)*, and represented an exceptional cost not linked to trading performance but a necessary step to secure full and unencumbered ownership of the company's flagship vessel.

This extraordinary cost was instrumental in enabling the subsequent sale of the vessel for US\$50 million, thereby unlocking substantial value for shareholders.

Excluding this non-recurring item, Wellard's **underlying net profit after tax** would have been approximately **US\$6.3 million**, demonstrating the company's solid operating performance during the year.

The chart in this slide illustrates the difference between the statutory and underlying results, highlighting the impact of the one-off expense and providing shareholders with a clearer view of the company's financial performance.

STRONG CASH GENERATION

As mentioned in the previous slide, the **US\$5 million one-off expense** affected not only our profit result but also our cash flow from operations.

Even after absorbing this extraordinary payment, Wellard generated **US\$1.6 million in net operating cash flow** in FY2025. Excluding the one-off cost, the underlying operating cash flow would have reached **US\$6.6 million**, confirming the business's ability to convert trading activity into cash.

Cash flow from **investing activities** contributed a further **US\$11.8 million**, entirely from the sale of the *M/V Ocean Ute*, while **financing activities** reflected the **US\$6.9 million capital return** to shareholders in December 2024.

At year-end, the Group held **US\$15.1 million in cash**, up **US\$6.3 million** from the previous year, a result that demonstrates Wellard's sound cash discipline and prudent management of asset realisation proceeds.

FROM ASSET SALES TO CAPITAL RETURN

FY2025 marked the transition from operational activity to **value realisation** for shareholders.

In **FY2026**, this process continued with the sale of the *M/V Ocean Drover* for **US\$50 million**, which allowed the **second capital return of A\$79.7 million (A\$0.15 per share)**, completed on 28 August 2025.

Today, shareholders are being asked to approve a **third and final capital return of A\$8.0 million (A\$0.015 per share)**, which will bring the total amount distributed to **A\$98.2 million, or A\$0.185 per share**.

Together, these actions demonstrate the Board's commitment to **returning realised value efficiently and transparently**, ensuring that the proceeds from asset disposals are delivered directly to shareholders.

With this final slide, we close the overview of Wellard's financial position for the Financial Year 2025 and the value realisation process following the sale of our vessels and I will now hand back to Mr Klepec, who will lead the formal proceedings and resolutions for today's meeting.

CHAIRMAN (Mr Klepec): Thank you, Paolo.
