ABOUT PANTERA LITHIUM

Pantera Lithium Limited (ASX: PFE) is a forward-looking critical minerals exploration and development company focused on advancing projects in critical minerals across the United States with a particular focus on its projects located in Southwest Arkansas. With newly acquired mineral leases covering historically productive ground, Pantera is positioned to re-establish exploration in a district that has seen no systematic modern work for nearly a century.

The Company is committed to leveraging modern exploration methods – including geochemistry, geophysics, and advanced modelling – to unlock value in regions historically mined for critical minerals, which are recognised by the U.S. government as essential to supply chain security.
