

# Drilling Program Commenced at Golden Pike Gold and Antimony Project

## HIGHLIGHTS

- Diamond drill rig has commenced drilling at the Vail Road high grade gold deposit
- Access and drill pad clearing work has commenced at Bond Road Antimony Prospect
- Technical and support staff have been mobilised to site

Bryah Resources Limited (“**Bryah**” or “the **Company**”) has commenced its planned drilling program at its Golden Pike Gold and Antimony Project in New Brunswick, Canada.<sup>1</sup> The first part of the drill program is targeting infill and extensional drilling at the Vail Road high-grade gold deposit. Drill results and data acquired will be utilised to upgrade the existing foreign resource estimate to a JORC compliant mineral resource estimate. The program aims to acquire approximately 1000m of oriented diamond core for this purpose.

CEO, Greg Hill comments, *“It’s exciting to be commencing our inaugural drilling program at our Canadian project. I am grateful to the Government of New Brunswick and for community support for the project, which has enabled us to commence drilling within six months of acquiring the option over the claims.”*

On completion of drilling at the Vail Road gold deposit, the rig will be moved to the Bond Road area to undertake an exploration program targeting high grade antimony veins within interpreted fault structures. Up to 1200m of exploration drilling is planned across several hole locations.

## ABOUT BRYAH RESOURCES

Bryah Resources Limited is in the process of changing its name to Albright Metals Limited.<sup>2</sup> Bryah's current projects are located in Canada and Western Australia, both Tier One mining and exploration jurisdictions.

Bryah has executed an agreement with Globex Mining Enterprises Inc. (GMX-TSX, GLBXF-OTCQX, G1MN-FSE; "Globex") to acquire the Golden Pike Gold and Antimony Project in New Brunswick, Canada.<sup>3</sup> The project covers approximately 3,292ha of contiguous mining claims which includes the Vail Road high-grade gold deposit classified under NI 43-101,<sup>4</sup> and the exploration-stage Bond Road antimony prospect. The Golden Pike Project is in an area that is close to road, rail, port and grid power infrastructure. Southern New Brunswick is on the Canadian east coast, adjacent to Maine, USA. It enjoys a mild maritime climate, allowing year round exploration activities. The province has a mature mining services industry and has historically produced antimony and gold from multiple mines.

The Company's Bryah Basin licences cover 1,048km<sup>2</sup> and hold potential for copper and gold. Bryah also has a substantial \$7M manganese joint venture on the licences with ASX listed OM Holdings Limited (ASX: OMH), with OMH having already spent over \$4.5 million to earn-in to the Manganese Rights of the project.

Bryah holds a suite of mineral rights<sup>5</sup> over the Gabanintha project, near Meekatharra, which has a JORC 2012 Mineral Resource for Cu, Ni, Co and additional structural gold potential.

## EXPLORATION RESULTS

Where the Company refers to Exploration Results in this announcement (referencing previous releases made to the ASX), the Company is not aware of any new information or data that materially affects the information included in the relevant market announcements.

## FORWARD LOOKING STATEMENTS

This announcement may contain certain "forward-looking statements" which may not have been based solely on historical facts, but rather may be based on the Company's current expectations about future events and results. Where the Company expresses or implies an expectation or belief as to future events or results, such expectation or belief is expressed in good faith and believed to have a reasonable basis. However, forward looking statements are subject to risks, uncertainties, assumptions and other factors which could cause actual results to differ materially from future results expressed, projected or implied by such forward-looking statements. Readers should not place undue reliance on forward looking information. The Company does not undertake any obligation to release publicly any revisions to any "forward looking statement" to reflect events or circumstances after the date of this report, or to reflect the occurrence of unanticipated events, except as may be required under applicable securities laws.
