2025 Annual General Meeting Presentation

constellation technologies

SOLVING CRITICAL INDUSTRY CHALLENGES THROUGH IOT INNOVATION

UNIFIED IoT ECOSYSTEM

CALLISTO SOLUTIONS

EFFORTLESS DIGITAL TRANSFORMATION

CALLISTO SOLUTIONS

- Hospitality
- Hospitals
- Healthcare
- Aged Care

Industry-specific IoT for safety & compliance

Meridian
CT Platform

MERIDIAN CT PLATFORM

- Environmental
- Emergency
- Agritech
- Digital Twin

Industrial IoT, analytics & digital twins

CALLISTO SOLUTIONS

EFFORTLESS DIGITAL TRANSFORMATION

Callisto Solutions

Solving Operational Industry Challenges

Real-Time Monitoring

Asset Safety

Automated HACCP

Meals & Allergens

Vertical Configurations

Across Hospitality | Healthcare | Aged Care | Retail

Callisto Solutions
Vertical Applications

Hospitality & Catering
- HACCP automation
- Temperature monitoring
- Food safety workflows

Healthcare & Hospitals
- Pharmacy & vaccine fridges
- Ward fridge monitoring
- Kitchen-to-ward compliance, allergens

Aged Care
- Facility-wide monitoring
- Meal & allergen safety
- Compliance automation

Retail & Supermakets
- Refrigeration monitoring
- Incoming goods logging
- Asset performance & health

Powering safety, compliance & operational efficiency across all key sectors

MeridianCT

Solving Industrial & Complex Challenges

constellation technologies

MeridianCT

Real-Time Intelligence for Safer Roads

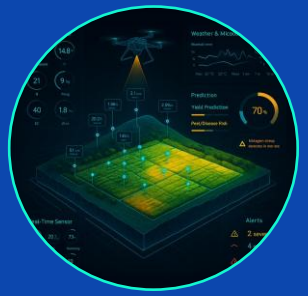
- **Real-time cameras continuously monitor flood-prone roads**, feeding live video into the MCT intelligent detection system
- **Automated responses activate instantly**, including switching on roadside flood-warning signs and pushing alerts to councils and emergency agencies
- **MCT enables coordinated emergency management**, providing a unified platform for situational awareness, rapid decision-making and public safety protection

Enables Government, agricultural and infrastructure partners to operate safely & efficiently

MeridianCT

Next-Generation Farming: Data-Driven, Predictive, Sustainable

- **Comprehensive digital monitoring** across soil health, NPK nutrients, microclimate, and drone-based multispectral imaging delivers a complete real-time picture of crop and field conditions.
- **Digital Twin Engine** models farms, vineyards, and critical agricultural infrastructure with high accuracy, enabling scenario testing, early-risk detection, and smarter operational decisions.
- **AI-powered insights** unify sensor telemetry, GIS layers, and historical patterns to optimise inputs, enhance yield, and improve long-term sustainability across diverse farming systems



Enables Government, agricultural and infrastructure partners to operate safely & efficiently

MeridianCT

Digital Twins–See Clearly. Predict Early. Act Instantly.

- **GIS visualisation** delivers spatial intelligence with NDVI maps, sensor overlays and zone-level crop insights
- **Predictive analytics** identifies stress, forecasts yield, and highlights risks before they impact productivity
- **Real-time telemetry** streams continuous soil, climate and crop data for immediate, data-driven decisions

Enables Government, agricultural and infrastructure partners to operate safely & efficiently

Thank you
