MACH7 SIGNS NEW LOGO WITH UNITYPOINT HEALTH

- UnityPoint Health signs 5-year subscription licence for Flamingo Architecture product.
- Year 1 ARR¹ contribution of ~A\$0.6M based on 1.5M studies per annum.
- ARR contribution expected to increase to ~A\$1.0M ARR with projected growth in annual volumes to 3M studies during 5-year period.
- New contract effective from 3 December 2025 with FPU¹ expected within 12 months.

Mach7 Technologies Limited (“**M7T**” or “the **Company**”) (ASX:M7T) today announces it has signed a 5-year subscription licence agreement with first time customer UnityPoint Health for its new Flamingo Architecture products including its communication workflow engine and archive cache.

UnityPoint Health is an integrated not-for-profit health system based in Iowa, western Illinois and southern Wisconsin that serves almost eight million patients in hospitals, clinics and home health settings.

Following FPU, the five-year subscription licence will initially contribute approximately A\$0.6 million to ARR, growing to approximately A\$1 million. This is based on an increase in usage from a minimum of 1.5 million studies per year to an anticipated 3 million studies per year over the five-year term.

Mach7 CEO and Managing Director Teri Thomas said: “We are delighted to welcome UnityPoint Health to the Mach7 family. This agreement is not for our VNA nor our eUnity Viewer; instead, it represents the first commercial deployment of our new Flamingo Architecture, a modular offering positioned between the VNA and the eUnity viewer.

“UnityPoint is licensing specific components of Flamingo: our communication engine and archive cache, demonstrating the flexibility of this new architecture and underscoring Mach7’s strength in delivering speed, scale, and data independence across complex imaging workflows. With the recent reset of our sales organisation and marketing strategy, this agreement signals new momentum that we expect to further build through our active engagements with prospective customers at RSNA.”

Released on authority of the Board by Teri Thomas, Managing Director and Chief Executive Officer.
