Dear Sirs

Section 708A Notice – Share Issue

PTR Minerals Limited (**Company**) hereby provides notice to the ASX for the purpose of section 708A(5)(e) of the *Corporations Act 2001* (Cth) that it has issued 46,800,000 fully paid ordinary shares in the Company (**Shares**) without disclosure to investors under Part 6D.2 of the *Corporations Act 2001* (Cth).

The Company states that as at the date of this notice it:

- has complied with the provisions of Chapter 2M of the *Corporations Act 2001* (Cth) as they apply to the Company;
- has complied with sections 674 and 674A of the *Corporations Act 2001* (Cth); and
- is not aware of any excluded information within the meaning of sections 708A(7) and 708A(8) of the *Corporations Act* (Cth).

An Appendix 2A with respect to the issue of Shares was lodged by the Company with the ASX on 8 December 2025

Yours faithfully,

Katelyn Adams
Company Secretary

- END -

This announcement has been authorised for release on the ASX by the Company's Board of Directors.

About PTR Minerals Limited

PTR Minerals Limited (ASX: PTR) is a critical minerals explorer focused on the discovery of world-class deposits in both frontier and mature mineral provinces.

The Company has a major project holding in the northern Gawler Craton in South Australia where recent exploration has uncovered significant concentrations of titanium rich heavy mineral sands (HMS) over large areas at its Muckanippie Project, which remains open and prospective for increased mineralisation.

Mineralogical test work from the Rosewood East area have indicated HMS with up to >95% Valuable Heavy Mineral content, composed primarily of high value titanium minerals. In addition, the coarse-grained nature of the discovery suggests it is likely to be amenable to producing very high recoveries using conventional gravity spiral processing techniques.

The Company also has highly prospective copper, gold and rare earth projects. Its Woomera and Mabel Creek copper-gold projects are located in the world-class Olympic Copper-Gold Province of South Australia. Work has uncovered Iron-Oxide Copper-Gold style alteration/mineralisation and geophysical targeting work has identified several compelling Tier-1 Copper-Gold targets which are drill ready. The Company's Comet Project is historically noted for its numerous gold occurrences however early stage greenfields drilling has identified significant Rare Earths hosted in shallow clays over large areas, at 3 Prospect sites.
