

Supplementary Announcement: Secures \$2.1m of Project Work – Additional Disclosure

DXN Limited (“DXN” or “the Company”), a prefabricated modular data centre specialist, refers to its announcement released earlier today titled ‘Secures \$2.1m of project work’ (the “Original Announcement”).

This supplementary announcement is released in response to a query from ASX regarding the disclosure of the counterparty to the \$1.4 million contract announced in the Original Announcement.

In accordance with the ASX’s Compliance Update no.02/25 and Guidance Note 8, DXN confirms the following:

DXN does not consider the identity of the customer to be information that a reasonable person would expect to have a material effect on the price or value of its securities.

DXN further confirms that this announcement contains all material information relevant to assessing the impact of the contract on the price or value of its securities and is not leading by omission.

The above description of the customer is sufficient to describe any market sensitive information about the customer, including its standing and creditworthiness.

There is no other material information relevant to assessing the impact of the contract on the price or value of DXN’s securities beyond that already disclosed in the Original Announcement.

Ends-

This announcement was authorised for release by the Board of Directors.

About DXN Limited

DXN Limited is a vertically integrated manufacturer and operator of modular data centres across Asia Pacific. The Company designs, engineers, manufactures, and operates high-quality, prefabricated facilities for government and blue-chip enterprise customers.

DXN operates through three core divisions:

1. **Modular Division** – Delivers prefabricated, scalable EDGE data centres and critical infrastructure, tailored to diverse industries including telecom, mining, defence, and subsea cable operators.
2. **Data Centre Operations** – Owns and manages data centres in Darwin and Hobart, providing colocation, monitoring, and managed hosting services.
3. **Data Centre as a Service (DCaaS)** – A capital-light “facility as a service” model, offering bespoke data centre

and satellite ground station solutions with end-to-end management, maintenance, and 24/7 monitoring.
