

ASX Announcement

08 December 2025

Green Critical Minerals renamed to GCM Corporation

GCM Corporation Limited ('GCM' or 'the Company') (ASX: GCM), formerly Green Critical Minerals Limited, is pleased to advise that, following shareholder approval at the Company's Annual General Meeting on 25 November 2025, the Company's name change has now been formally registered with the Australian Securities and Investments Commission (ASIC) and will officially trade on the Australian Securities Exchange (ASX) at the commencement of trading on 9 December 2025. The Company will continue to trade on the ASX under the ticker code GCM.

This name change reflects a decisive step-change in GCM's growth and ambition, reflecting its evolution into a producer of commercially impactful thermal management products through the application of its Very High Density (VHD) technology. Rebranding as GCM Corporation Limited reflects a broader strategic vision, focused on creating and scaling products with immediate relevance to global markets. The new name underscores a diversified, global outlook while maintaining consistency through the retained ASX ticker, GCM.

GCM Corporation's Managing Director, Clinton Booth, commented: *"Over the past year, we have transformed our business and sharpened our strategic focus. Renaming the Company to GCM Corporation Limited recognises this evolution and better reflects the scale and direction of the opportunities ahead.*

"With a clear pathway to commercialisation and growing global engagement, we believe the new name provides a stronger platform to communicate our vision and create long-term value."

About GCM Corporation

GCM is a leading manufacturer and producer of high-performing thermal management and cooling products for the technology, electronics, and industrials sectors.

With global demand for advanced cooling growing and few innovative solutions available, GCM's VHD technology is positioned to support the transformation of the forecast +US\$2 trillion technology and electrification markets, delivering tailored solutions across critical energy-intensive industries.

Forward Looking Statements

This announcement contains general information about GCM's activities current as at the date of the announcement. The information is provided in summary form and does not purport to be complete.

This release contains estimates and information concerning our industry and our business, including estimated market size and projected growth rates of the markets for our products. Unless otherwise expressly stated, we obtained this industry, business, market, and other information from reports, research surveys, studies and similar data prepared by third parties, industry, and general publications, government data and similar sources. This announcement also includes certain information and data that is derived from internal research. While we believe that our internal research is reliable, such research has not been verified by any third party. Estimates and information concerning our industry and our business involve a number of assumptions and limitations. Although we are responsible for all of the disclosure contained in this announcement and we believe the third-party market position, market opportunity and market size data included in this announcement are reliable, we have not independently verified the accuracy or completeness of this third-party data. Information that is based on projections, assumptions and estimates of our future performance and the future performance of the industry in which we operate is necessarily subject to a high degree of uncertainty and risk due to a variety of factors, which could cause results to differ materially from those expressed in these publications and reports.
