

Investor and Shareholder Webinar

Executive Chairman Christopher Piggott to host a live webinar on Thursday December 11, 2025

Leeuwin Metals Ltd (ASX: LM1) is pleased to advise that Executive Chairman Christopher Piggott will host a live investor webinar on Thursday December 11, 2025.

During the presentation, Mr Piggott will discuss the maiden resource at Leeuwin's Marda Gold Project in WA and its upcoming exploration and drilling activity aimed at growing the inventory.

The mineralisation at Marda remains wide open and Leeuwin has identified numerous targets to test.

Webinar Details:

The webinar will be hosted live and will commence at **8.00am AWST / 11.00am (AEDT) on Thursday, December 11, 2025.**

Investors, shareholders and media can register to join the webinar via the link below:

About Us

Leeuwin Metals Ltd (ASX: LM1) is an ASX-listed exploration company focused on discovering and developing high-value mineral resources across a diversified portfolio.

Led by a skilled team with expertise in project generation, discovery, development, operations, and transactions.

Marda Gold Project (Western Australia): A significant gold asset added to the portfolio in 2025, strategically located near established regional infrastructure and processing facilities. The maiden Mineral Resource Estimate provides a strong foundation for further growth through planned drilling and exploration programs.

West Pilbara Iron Ore Project (Western Australia): Featuring high-grade iron ore (>50% Fe) over a 2.4-kilometre strike length, strategically located near Rio Tinto's Mesa A mine.

Nickel, Copper, PGE, and Lithium Projects (Canada and Western Australia): Highly prospective exploration targets supporting the global demand for critical battery metals in North America, with strong exploration upside.
