## ENGINEERING, PROCUREMENT AND CONSTRUCTION (EPC)

Mondium is an engineering, procurement and construction (EPC) company formed by Monadelphous and Lycopodium to target and deliver EPC projects in the mineral and resources processing sector domestically and selected international markets.

Mondium brings together the complementary strengths, resources and experience of Monadelphous in multidisciplinary construction works with Lycopodium's innovative, fit for purpose, technical engineering expertise in minerals project delivery. With this combined wealth of experience and resources we can provide full project development and execution services, from conceptual early design through to complete project EPC delivery.

Mondium has full vertical EPC capability from initial consultation through to detailed design, construction, commissioning and handover of projects.

This EPC capability includes:

- mineral and resources processing plants and associated infrastructure for both greenfields and brownfields
- plant upgrades and expansions
- plant site buildings
- mine services facilities
- borefield and dewatering facilities
- overland piping including transmission pipelines
- powerline design and construction
- power generation and substations
- asset management
- accommodation camps and facilities
- rail design.
