3. BACKGROUND AND OVERVIEW

3.1 Shareholder Loans

Between 24 December 2024 and 27 November 2025, the Company entered into a series of shareholder loans with Colinton Capital Partners Pty Ltd (**Colinton**) and Wentworth Williamson Management Pty Limited (**Wentworth Williamson**) to support the Company's working capital needs during depressed trading conditions for the Company (**Shareholder Loans**). The Company has previously announced the Shareholder Loans in announcements released on 31 January 2024, 25 February 2025, 31 July 2025, 28 August 2025 and 31 October 2025.

A summary of the terms of the Shareholder Loans is set out in Section 7.

Under the Shareholder Loans:

- (a) Colinton has loaned the Company a total of \$3,800,000 (**Colinton Shareholder Loans**); and
- (b) Wentworth Williamson has loaned the Company a total of \$450,000 (**Wentworth Williamson Shareholder Loans**).

As of 12 December 2025 the total amount owed under the Shareholder Loans is:

- (a) Colinton Shareholder Loans: \$4,101,554; and
- (b) Wentworth Williamson Shareholder Loans: \$500,796.

Colinton and Wentworth Williamson are also Shareholders of the Company. As such, they are entitled to participate in the Offer up to their Entitlement. The Company has agreed with each of Colinton and Wentworth Williamson to enable them to offset their respective Entitlements against the outstanding balance of the loan on the basis that:

- (a) funds raised from the Offer are intended to be partially used to reduce the Company's debt levels; and
- (b) offsetting the debt against their respective Entitlements is easier than receiving funds from those Shareholders and then returning the monies to them as a payment of debt.

3.2 Background on the Colinton Associates

Colinton Capital Partners Pty Ltd is a Sydney-based fund management company with approximately \$350 million in funds under management, across thirteen active portfolio companies, including the Company.

Colinton Capital Partners Fund I (A) Pty Ltd is the trustee of the Colinton Capital Partners Fund I (A) Trust and is a shareholder of the Company for the purpose of holding Shares in the Company for the Colinton Fund. Randall Lane	11,057,313	0.67	7,610,471	7,610,471	\$45,663	5,015,863	\$30,095	\$75,758

Notes:

- As approved at the Company's annual general meeting held on 21 November 2025, the Company will issue Shares to the Non-Executive Directors (Mr Lane, Mr Moore, Dr Stenson, Mr Strickland and Mr Williamson) (or their nominee(s)) in lieu of directors' fees. Shares for directors' fees earned through 30 November 2025 will be issued prior to the Record Date and are, therefore, included in the number of Shares outstanding as of the Record Date.

As referred to in Section **Error! Reference source not found.** above, Colinton has provided a series of shareholder loans to the Company with the total amount outstanding at 12 December 2025 under these loans being \$4,101,554 and Wentworth Williamson has provided a series of shareholder loans to the Company with the total amount outstanding at 12 December 2025 under these loans being \$500,796. It is intended that the Shareholder Loans will be offset against Colinton and Wentworth Williamson's subscribing for their entitlements under the Offer and their underwriting of the Offer.

3.5 Acquisition

As announced on 15 December 2025, the Company has agreed to acquire Microtek Laboratories, Inc.'s (**Microtek**) microencapsulation for Phase Change Materials business, associated technology/intellectual property and inventory on hand (**Acquisition**). As consideration for the Acquisition, the Company will issue to Microtek, Shares equal to 11.56% of the Shares on issue in the Company on completion of the Offer. Completion of the Acquisition is conditional upon the Offer being completed and the Shareholder Loans as at 12 December 2025 being repaid.

3.6 Effect of the Offer

Refer to Sections 4.7. and 4.11 for further information with respect to the effect of the Offer and the Acquisition on the control of the Company and the Company's capital structure.

A pro forma balance sheet showing the effect of the Offer and Acquisition is set out in Section 4.8.

4. DETAILS OF THE OFFER

4.1 The Offer

The Offer is being made as a non-renounceable entitlement offer of 3.4414 New Shares for every 5 Shares held by Eligible Shareholders registered at the Record Date at an issue price of \$0.006 per Share. Fractional entitlements will be rounded up to the nearest whole number.

Based on the capital structure of the Company as set out in Section 4.7 of this Offer Document, a maximum of approximately 1,127,664,547 Shares will be issued pursuant to this Offer to raise up to approximately \$6,765,987.

As at the date of this Offer Document, the Company has no Options on issue.

The Company presently has 223,779,735 Share Appreciation Rights on issue, none of which are expected to vest and convert into Shares prior to the Record Date of the Offer.

All of the Shares offered under this Offer Document will rank equally with the Shares on issue at the date of this Offer Document.

The Directors may at any time decide to withdraw this Offer Document and the offer of Shares made under this Offer Document in which case the Company will return all Application monies (without interest) within 28 days of giving such notice of withdrawal.

4.2 Use of Funds

As referred to in Sections **Error! Reference source not found.** and 3.4 above, Colinton has provided a series of shareholder loans to the Company with the total amount currently outstanding under these loans being \$4,101,554 and Wentworth Williamson has provided a series of shareholder loans to the Company with the total amount currently outstanding under these loans being \$500,796.

It is intended that the Shareholder Loans will first be offset against the Entitlements of Colinton and Wentworth Williamson, meaning that the Company will not receive actual funds from those Shareholders for their Entitlements, but will instead be entitled to reduce the amount of the debt owing under the respective Shareholder Loans. This will have the effect of reducing the Company's liabilities under the Shareholder Loans but will also have the effect of reducing the cash raised under the Offer.

Assuming all Shareholder take up their entitlements under the Offer (so no Underwriting Shares are issued), the Company intends to apply the funds raised under the Offer as follows:

Items of Expenditure	\$	%
Microtek Asset Purchase Transaction Expenses	150,000	2%
Repayment of Colinton Shareholder Loan ¹	4,101,554	61%
Repayment of Wentworth Williamson Shareholder Loan ¹	500,796	7%
Expenses of the Offer	80,000	1%
Working capital ²	1,933,637	29%
Total	6,765,987	100%

Note:

1. As described above, part of these amounts will be offset against the respective Entitlements of Colinton and Wentworth Williamson.
2. A portion of the funds allocated to working capital will be used for administration expenses of the Company, including administration fees, Director's remuneration and other administration and obligatory overheads.

Assuming no Shareholders other than the Underwriters take up their entitlements under the Offer¹ (so the number of Underwriting Shares referred to in Section 3.4 are issued), after the offset of \$664,618 of the Colinton Shareholder Loan and the Wentworth Williamson Shareholder Loan, the Company intends to apply the actual funds raised under the Offer as follows:

Items of Expenditure	\$	%
Microtek Asset Purchase Transaction Expenses	150,000	2%
Expenses of the Offer	80,000	1%
Working capita ²	1,933,637	29%
Total	2,163,637	100%

2. A portion of the funds allocated to working capital will be used for administration expenses of the Company, including administration fees, Director's remuneration and other administration and obligatory overheads.

The above tables are a statement of the Board's current intentions as at the date of this Offer Document. However, Shareholders should note that, as with any budget, the allocation of funds set out in the above table may change depending on a number of factors, including the outcome of operational and development activities, regulatory developments and market and general economic conditions. In light of this, the Board reserves the right to alter the way the funds are applied.

4.8 Pro-forma balance sheet

The unaudited balance sheet as at 30 November 2025 and the unaudited pro-forma balance sheets as at 30 November 2025 (both post-closing of the Rights Offering and post Acquisition) shown below have been prepared on the basis of the accounting policies normally adopted by the Company and reflect the changes to its financial position.

The pro-forma balance sheet post acquisition includes the impacts of the post-closing balance sheet as well as the impact of the Acquisition as specified in Section 3.5 above. Note that the Company took a simplistic approach to the accounting treatment of the Acquisition which may or may not change after the full analysis has been completed and reviewed by our auditors. The Company has also entered into property and equipment leases with the seller on an arms-length basis and those will commence at the time of acquisition. The impact (if any) of the leases has not been accounted for in the pro forma balance sheet below.

The pro-forma balance sheets have been prepared to provide investors with information on the assets and liabilities of the Company and pro-forma assets and liabilities of the Company as noted below. The historical and pro-forma financial information is presented in an abbreviated form, insofar as it does not include all of the disclosures required by Australian Accounting Standards applicable to annual financial statements.

4.11 Effect of the Offer on control and voting power in the Company

The Company has entered into an underwriting agreement with each of the Underwriters under which the Underwriters have agreed to underwrite the Offer. A summary of the material terms and conditions of the Underwriting Agreements are set out in Section 7.2 of this Offer Document.

Set out below is a summary of how the Offer and Acquisition will impact the control of the Company. The tables demonstrate two scenarios at either end of the spectrum, however the final voting power of the Colinton Associates and the Wentworth Williamson Associates will depend on the extent to which Eligible Shareholders take up their Entitlement.

Scenario 1: Assumes that no Eligible Shareholders, other than the Underwriters and Dr Stenson¹, participate in the Offer and that each of the Underwriters is required to subscribe for their full underwriting commitment.

- Other than Director, Dr Paul Stenson who has confirmed to the Company that he will subscribe for \$37,879 of his Entitlement under the Offer. The Underwriters have each confirmed that they will take up their Entitlement under the Offer.

The Company notes that the voting power shown in Scenario 1 is the maximum voting power that may be obtained by the Underwriters, including Substantial Shareholders Colinton Associates and the Wentworth Williamson Associates, on completion of the Offer and Acquisition. Shares issued to Eligible Shareholders under the Offer will reduce the voting power of the Underwriters below this maximum.

In the event that all eligible Shareholders subscribe for their entitlement under the Offer, then the approximate voting power of the Underwriters is likely to be as detailed in the table below:

Scenario 2: Assumes that all Eligible Shareholders participate in the Offer (including the Underwriters) and no Shares are issued under the Underwriting.

(a) By BPAY®

For payment by BPAY®, please follow the instructions on the Entitlement and Acceptance Form. You can only make a payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions. Please note that should you choose to pay by BPAY®:

- (i) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form; and
- (ii) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Shares which is covered in full by your Application monies.

You should be aware that your own financial institution may implement earlier cut-off times with regard to electronic payment, and you should therefore take this into consideration when making payment. **It is your responsibility to ensure that funds submitted through BPAY® are received by 5:00pm (WST) on the Closing Date. Guidance where you have more than one CRN (Shareholding of Shares)

If you have more than one shareholding of Shares and consequently receive more than one Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those Shareholdings only use the CRN specific to that Shareholding as set out in the applicable Entitlement and Acceptance Form. **Do not use the same CRN for more than one of your Shareholdings.** This can result in your Application monies being applied to your Entitlement in respect of only one of your Shareholdings

(with the result that any Application in respect of your remaining Shareholdings will not be valid).

(b) **By Electronic Funds Transfer (overseas applicants)**

For payment by Electronic Funds Transfer (**EFT**) for overseas Eligible Shareholders, please refer to your personalised letter accompanying the Offer Document for instructions. You can only make a payment via EFT if you are the holder of an account that supports EFT transactions to an Australian bank account. Please note that should you choose to pay by EFT:

- (ii) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Shares which is covered in full by your Application monies.

(c) **Payment by offset of debt**

If, as at the date of this Offer Document, the Company owes you money (e.g. through debt agreements, financing facilities or as any other creditor), you are permitted to pay for your Entitlement by way of offset of the Application monies against those amounts owing to you by the Company.

To elect to satisfy the Application monies in respect of your Entitlement by converting some or all of the existing debt owed to you by the Company, you will need to complete the appropriate section in the Entitlement and Acceptance Form.

This will require you specifying the total amounts owing to you by the Company for which you intend to offset payment under the Offer, which will be based on an issue price of \$0.006 per Share. For clarity, the payment by way of offsetting does not enable any creditor Shareholders to take up more Securities under the Offer than if the facility was not available. That is, creditor Shareholders may only convert the amount owed to them (including interest accrued on debt) by the Company for Application monies in respect of application of Securities under their Entitlement for Underwriting Securities.

The offset will be undertaken on a dollar-for-dollar basis (subject to foreign exchange conversion) at the issue price of the Offer (being A\$0.006 per Share), and, in the case of any fractional entitlements, the number of Securities arising from the conversion of the debt shall be rounded up to the nearest whole number.

To the extent that Entitlements are taken up through the use of the offsetting debt facility, the debt payable to creditor relevant Shareholders will reduce by the equivalent amount from the effective cash proceeds of the Offer.

(d) **By cheque**

Payment by cheque or cash will not be accepted.

5.3 Implications of an acceptance

Returning a completed Entitlement and Acceptance Form or paying any Application monies by BPAY® or EFT will be taken to constitute a representation by you that:

- (a) you have received a copy of this Offer Document and the accompanying Entitlement and Acceptance Form, and read them both in their entirety;
- (b) you acknowledge that once the Entitlement and Acceptance Form is returned, or a BPAY® or EFT payment instruction is given in relation to any Application monies, the application may not be varied or withdrawn except as required by law.

5.4 Minimum subscription

There is no minimum subscription.

The Underwriting Offer is a separate offer made pursuant to this Offer Document and will remain open for up to three months following the Closing Date. The issue price for each Share to be issued under the Underwriting Offer shall be \$0.006 being the price at which Shares have been offered under the Offer.

No Applicant under the Underwriting Offer has any assurance of being allocated all or any Shares applied for. The allocation of Underwriting Shares by Directors in will be as follows:

- (a) first to Colinton until the Colinton Shareholder Loans are repaid in full; and
- (b) then to be divided between the Underwriters at a ratio equal to their respective Underwriting commitments.

For further information on the Underwriting please refer to Sections **Error! Reference source not found.**, 4.11 and 7.2.

6. RISK FACTORS

6.1 Introduction

The Shares offered under this Offer Document should be considered speculative because of the nature of the Company's business.

There are numerous risk factors involved with the Company's business. Some of these risks can be mitigated by the use of safeguards and appropriate systems and controls, but some are outside the control of the Company and cannot be mitigated. Accordingly, an investment in the Company carries no guarantee with respect to the payment of dividends, return of capital or price at which securities will trade.

The following is a summary of the more material matters to be considered. However, this summary is not exhaustive and potential investors should examine the contents of this Offer Document in its entirety and consult their professional advisors before deciding whether to apply for the New Shares.

6.2 Key investment risks

Potential investors should be aware that subscribing for Shares in the Company involves a number of risks. Prospective investors should read this Offer Document in its entirety before deciding whether to apply for Shares under this Offer Document.

These risks together with other general risks applicable to all investments in listed securities not specifically referred to, may affect the value of the Shares in the future. Accordingly, an investment in the Company should be considered highly speculative. Investors should consider consulting their professional advisers before deciding whether to apply for Shares pursuant to this Offer Document.

(a) Going Concern Risk

The Company's financial report released to the Company's ASX platform (ASX:AJX) on 28 August 2025 (**Financial Report**) contains an independent auditor's review report which highlights the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. For further information, refer to Note 2(w) to the Financial Report.

Notwithstanding the 'going concern' note included in the Financial Report, the Directors believe that upon the successful completion of the Offer and Placement, the Company will have sufficient funds to adequately meet the Company's short to medium term working capital requirements. However, it is highly likely that further funding will be required to meet the long-term working capital costs and growth capital needs of the Company.

In the event that the Offer is not completed successfully there is significant uncertainty as to whether the Company can continue as a going concern, and which is likely to have a material adverse effect on the Company's activities.

(b) Ability to source chemicals

The Company's core business, being the deployment of chemical solutions, requires the Company to source various chemicals. If the

Company is unable to continually source such chemicals or identify suitable alternative materials, it may adversely impact the Company's ability to provide its products to third parties or fulfil any third-party contracts. Any such failure would likely have an impact on the Company's revenue.

The Company generally purchases raw materials based on supply agreements linked to market prices and therefore results of operations are subject to short-term fluctuations in raw materials prices. These fluctuations limit the Company's ability to accurately forecast future raw material costs and hence profitability.

(c) **Acquisition Risk**

Completion of the Acquisition is subject to the fulfilment of certain conditions. The ability of the Company to achieve its stated objectives will depend on the performance by the parties of their obligations under the Acquisition agreement. If, for any reason, the Acquisition agreement is breached by any party, the Acquisition may not proceed in which case the Company will need to consider the impact of this on its future strategy. Refer to the Company's announcement of the announcement dated 15 December 2025 for further information in relation to the Acquisition.

(d) **Regulatory and compliance risk**

Some of the raw materials the Company handles, and its products and facilities, are subject to environmental, health and safety laws and government regulations. These laws and regulations affect the manufacturing processes, handling, uses and applications of the Company's products. The use and handling of these materials is regulated and some of these regulations require product registrations, which also are subject to renewal and potential revocation. These regulations may affect the Company's ability to market certain chemicals it may produce.

There is also a risk that other key raw materials or one or more of the Company's products may be found to have, or be recharacterised as having, a toxicological or health-related impact on the environment or on the Company's customers or employees. If such a discovery or recharacterisation occurs, the relevant materials, chemicals or products, including products of our customers incorporating the Company's materials or chemicals, may be recalled or banned or the Company may incur increased costs in order to comply with new regulatory requirements. Change in regulations, or their interpretation, may also affect the marketability of certain of the Company's products. The Company cannot predict how these and other findings from regulatory agencies may affect our cash flows or results of operations.

The nature of the chemicals industry exposes the Company to risks of liability under these laws and regulations related to the production, storage, transportation, disposal and sale of chemicals and materials that can cause contamination or personal injury if released into the environment. Compliance with environmental laws generally increases the costs of manufacturing, the cost of registration/approval requirements, the costs of transportation and storage of raw materials and finished products, as well as the costs of the storage and disposal of

waste and could have a material adverse effect on the Company's results of operations.

(e) **Competition risk**

The industries in which the Company operates are subject to both global and domestic competition. Although the Company will exercise all reasonable care and due diligence in its decisions and business operations, the Company will have no influence or control over the activities or actions of its competitors, which activities or actions may, positively or negatively, affect the operation and financial performance of the Company's projects and business.

(f) **Intellectual property risk**

The Company's success depends to a significant degree upon its ability to protect and preserve its intellectual property rights, which rights the Company own or use pursuant to licenses granted to the Company by third parties. The confidentiality and nondisclosure agreements the Company enters into with most of its key employees and third parties to protect the confidentiality, ownership and use of intellectual property may be breached, may not be enforceable, or may provide for joint ownership or ownership by a third party. In addition, the Company may not have adequate remedies for a breach by the other party, which could adversely affect the Company's intellectual property rights. The use of the Company's intellectual property rights or intellectual property similar to the Company's by others or the Company's failure to protect such rights could reduce or eliminate any competitive advantage the Company has developed, adversely affecting the Company's net sales. If the Company must sue to protect, defend or enforce its intellectual property rights, any suits or proceedings could result in significant costs and diversion of company resources and management attention, and the Company may not prevail in such action. In addition, competitors or new market entrants may manufacture products substantially similar to the Company's products.

The Company conducts research and development activities with third parties and license certain intellectual property rights from third parties and the Company plans to continue to do so in the future. The Company endeavours to license or otherwise obtain intellectual property rights on terms favourable to it. However, the Company may not be able to license or otherwise obtain intellectual property rights on such terms or at all. The Company's inability to license or otherwise obtain such intellectual property rights could have a material adverse effect on the Company's ability to create a competitive advantage and create innovative solutions for the Company's customers, which will adversely affect the Company's net sales and its relationships with its customers.

(g) **Failure to protect patents and proprietary rights**

The Company's future success will depend to a significant extent on its ability to:

- (i) obtain and keep patent protection for its products and technologies on an international basis;
- (ii) enforce its patents to prevent others from using its inventions;

- (iii) maintain and prevent others from using its trade secrets; and
- (iv) operate and commercialise products without infringing on the patents or proprietary rights of others.

The Company cannot assure you that its patent rights will afford any competitive advantages and these rights may be challenged or circumvented by third parties. Further, patents may not be issued on any of the Company's pending patent applications in the U.S. or abroad.

(h) **Infringing the intellectual property rights of third parties**

Although it is the Company's intention to avoid infringing or otherwise violating the intellectual property rights of others, the Company's processes and products may infringe or otherwise violate the intellectual property rights of others. The Company may be subject to legal proceedings and claims, including claims of alleged infringement by the Company or any future licensees of the patents, trademarks and other intellectual property rights of third parties. Intellectual property litigation is expensive and time-consuming, regardless of the merits of any claim, and could divert the Company's management's attention from operating the Company's businesses. If the Company were to discover or be notified that its processes or products potentially infringe or otherwise violate the intellectual property rights of others, the Company may need to obtain licenses from these parties or substantially re-engineer the Company's products and processes in order to avoid infringement. The Company's might not be able to obtain the necessary licenses on acceptable terms, or at all, or be able to re-engineer the Company's products successfully. Moreover, if the Company is sued for infringement and lose the suit, the Company could be required to pay substantial damages and/or be enjoined from using or selling the infringing products or technology. Any of the foregoing could cause the Company to incur significant costs and prevent the Company from selling its products.

(i) **Difficulties managing growth**

The Company's success will depend on its ability to expand and manage its growth. The Company's may not be able to manage its growth or successfully assimilate and train new employees. If the Company continues to grow, its existing management skills and systems may not be adequate and it may not be able to manage any additional growth effectively. If the Company fails to achieve any of these goals, there could be a material adverse effect on the Company's business, financial condition or results of operations.

(j) **Market and customer concentration**

The Company's historical sales have been heavily concentrated in the bedding market and primarily with Tier 1 customers of a single bedding manufacturer. While the Company has made progress diversifying its sales into adjacent and breakthrough markets and among various customers, there is no guarantee that this plan will continue to be successful. Continued sluggish sales in the bedding market or a downturn in operations with a single large customer could have a material adverse effect on the Company.

(k) **Lack of revenue growth**

In order for the Company to be able to obtain a profitable status and be able to self-fund its operations with a positive cash flow, it must grow revenues while maintaining a healthy gross margin. While the Company has begun increasing its commercial staff and has a robust sales pipeline, it may not be able to close on potential sales due to a variety of reasons including delays in adoption of new products, competition, price and lack of resources. If the Company is not able to grow revenue, it is unlikely it will be able to have sustainable, positive cash flow from operations which would negatively impact the Company's ability to continue as a going concern on a long-term basis.

6.3 General Risks

(a) Additional requirements for capital

The funds raised under the Offer and Placement are considered sufficient to meet the current proposed objectives of the Company. Additional funding may be required in the event future costs exceed the Company's estimates and to effectively implement its business and operations plans in the future, to take advantage of opportunities for acquisitions, joint ventures or other business opportunities, and to meet any unanticipated liabilities or expenses which the Company may incur.

The Company may seek to raise further funds through equity or debt financing, joint ventures or other means. Failure to obtain sufficient financing for the Company's activities and future projects may result in delay and indefinite postponement of its research and development programmes. There can be no assurance that additional finance will be available when needed or, if available, the terms of the financing might not be favourable to the Company and might involve substantial dilution to Shareholders.

(b) General economic conditions

Economic conditions, both domestic and global, may affect the performance of the Company. Factors such as fluctuations in currencies, commodity prices, inflation, interest rates, supply and demand and industrial disruption may have an impact on operating costs and share market prices. The Company's future possible revenues and share price can be affected by these factors, all of which are beyond the control of the Company or its Directors.

(c) Equity market conditions

Securities listed on the stock market can experience extreme price and volume fluctuations that are often unrelated to the operating performances of such companies. The market price of Shares may fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general.

General factors that may affect the market price of Shares include economic conditions in both Australia and internationally (particularly Australian, US and Chinese economic conditions), investor sentiment, local and international share market conditions, changes in interest rates and the rate of inflation, variations in commodity prices, the global security situation and the possibility of terrorist disturbances, changes to government regulation, policy or legislation, changes which may occur to the taxation of companies as a result of changes in Australian and

foreign taxation laws, changes to the system of dividend imputation in Australia, and changes in exchange rates.

(d) **Change in government policy and legislation**

Any material adverse changes in relevant government policies or legislation of Australia may affect the viability and profitability of the Company, and consequent returns to investors. The activities of the Company are subject to various federal, state and local laws governing prospecting, development, production, taxes, labour standards and occupational health and safety, and other matters.

6.4 Investment Speculative

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the securities offered under this Offer Document. Therefore, the securities to be issued pursuant to this Offer Document carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those securities.

Potential investors should consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for securities pursuant to this Offer Document.
