

## ASX ANNOUNCEMENT

15 December 2025

### Forestry Department Approval Received – Casablanca Antimony Project

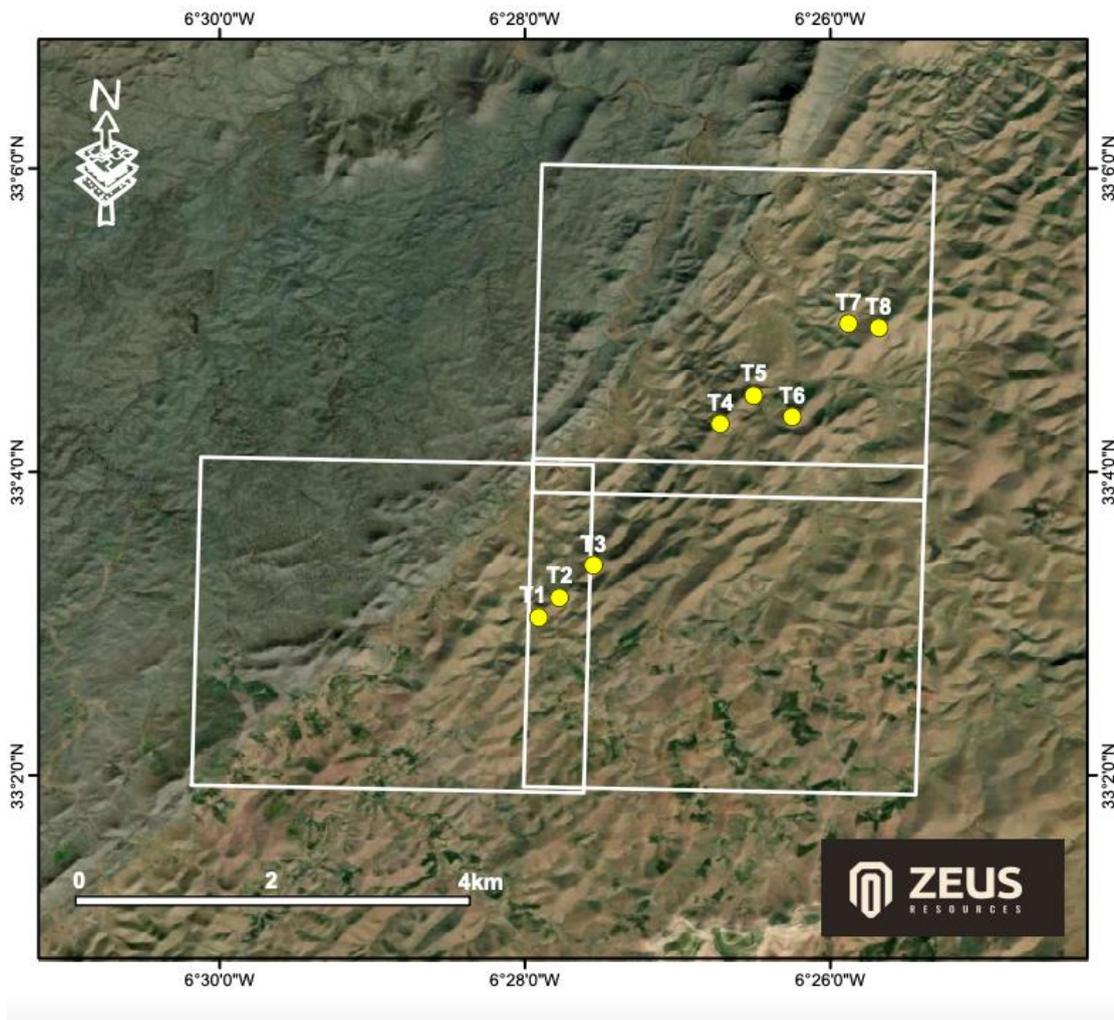

Zeus Resources Limited (ASX: ZEU) (“Zeus” or “the Company”) advises that it has received formal authorisation from the relevant Forestry Department to undertake trenching activities across Trenches 2 to 8 at the Casablanca Antimony Project in Morocco.

The approval applies to trench locations situated on Forestry-administered land and completes the regulatory permitting requirements for the Company’s planned trenching programme across these areas. With this authorisation now in place, trenching activities across Trenches 2 to 8 are expected to commence shortly.

The trenching programme is designed to support geological mapping and sampling of priority structural targets.

UTM WGS 84 - Zone 29						
Trench No.	West	North	Strike	Length (m)	Width (m)	Depth (m)

## About Zeus Resources Limited

**Zeus Resources Limited** is an emerging explorer focused on high-impact critical mineral projects in underexplored jurisdictions. Led by a multidisciplinary team with proven experience in resource discovery, project development, and corporate growth, Zeus is committed to creating early-stage value through disciplined exploration and strategic advancement of its portfolio.

The Company is listed on the ASX with the ticker ZEU and secondary listed on Frankfurt with code ZEU (**WKN A1J8CV**).

## About Casablanca Antimony Project

The Casablanca Antimony Project is a high-grade mineral exploration initiative in central Morocco and comprises six exploration licenses targeting antimony. Significant assay results returned from rock chip sample collected during site due diligence returned exceptionally high-grade antimony between 7.8% **Sb** to 46.52% **Sb** based on its twenty (20) rock chip samples collected targeting Stibnite-Bearing Quartz Veins across the southern license area<sup>1</sup>.

## About Antimony

Antimony is classified as a critical mineral by major economies including US, EU, Japan and Australia, due to its vital role in flame retardants, lead-acid batteries, and semiconductors - essential to the defence, energy storage, and electronics sectors. With supply constrained and dominated by a small number of producers, antimony is increasingly viewed as a strategic material. Zeus provides investors direct exposure to this essential and supply-constrained market.

## About Morocco's Mining Industry

Morocco's modern exploration and mining regulatory framework provides an attractive destination for mining investment. Morocco's mining sector continues to attract foreign investment and offers significant opportunities for exploration and development, particularly in antimony. Morocco's well resolved mining & exploration strategy presents a unique opportunity to Zeus including • Stable and Mining-Friendly Government • Strong Geological Potential • Modern Mining Code • Strategic Location • Skilled Workforce & Local Expertise • Political and Economic Stability.
