

Gawler Craton Project, South Australia

Indiana Strengthens Technical Team

Discovery-focused exploration geologist Ms Barbara Duggan appointed to drive growth at Minos and the overall Gawler Craton Project.

Indiana Resources Limited (ASX: IDA) (*Indiana* or the *Company*) is pleased to announce it has appointed Ms Barbara Duggan as Head of Regional Exploration.

Barbara brings more than 20 years of experience in mineral exploration, extending from early-stage project generation through to advanced project development. Her experience spans a range of geological environments, including gold, magmatic nickel-copper sulphides, VMS, IOCG and PGE systems. She has played key roles in several discoveries, resource growth and the advancement of exploration projects in Australia, Canada and overseas.

Ms Duggan is widely recognised for her strong technical capability, her leadership of multi-disciplinary teams and her ability to identify the key mineral systems within a region. Her career highlights include:

- Adding ~500,000 ounces of gold to the resource inventory in the Gidgee Gum Creek Greenstone Belt;
- Discovering two new magmatic nickel-copper systems in Western Australia; and
- Contributing to the discovery of ~1 million tonnes of nickel in the Agnew-Wiluna Greenstone Belt.

Barbara holds a Bachelor of Science (Hons) from Queen's University in Canada and a Master of Science in Geology from the University of Western Australia, where her research focused on lithogeochemistry and mineral spectroscopy in the St Ives Goldfields, Western Australia.

She is an active member of the Australian Institute of Geoscientists (AIG) and the Australasian Institute of Mining & Metallurgy (AusIMM).

Indiana Managing Director Matthew Bowles said:

"We are pleased to welcome Barbara to Indiana, as Head of Regional Exploration. Barbara's vast experience in early-stage exploration and resource growth will be invaluable as we seek to unlock the full value of our Gawler Craton Project. We have an aggressive exploration program planned for 2026, backed up by our strong cash position, and Barbara's expertise will be vital as we leverage this opportunity".

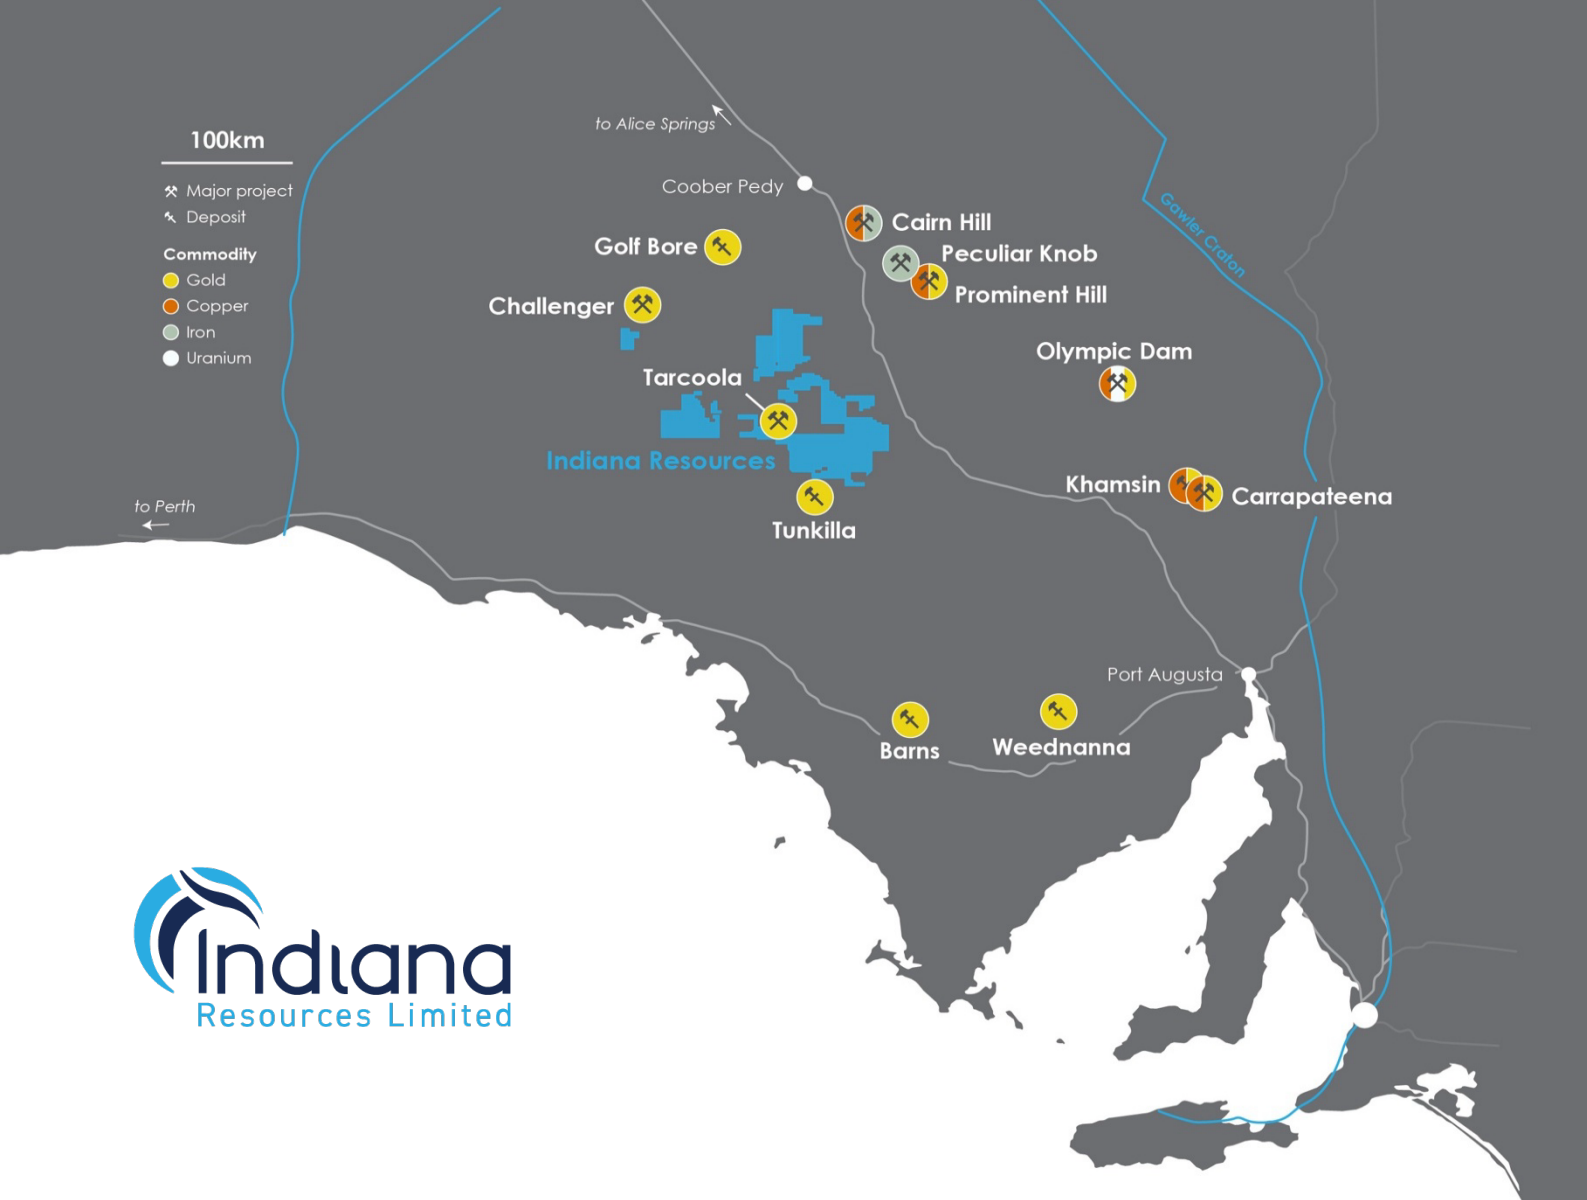

This announcement is authorised for release by the Board of Directors of Indiana Resources Limited.

Indiana Resources (ASX: IDA) is an exploration company focused on advancing a portfolio of tenements, which include rare earths, gold and base metals, in the highly prospective Central Gawler Craton Province in South Australia.

Indiana's ground position in the Gawler Craton covers over 5,000km², with the Company's tenements strategically located between the historic gold mining centres of Tunkilla (1.7m ounce gold resource) and the historic Tarcoola gold mine.

Forward Looking Statements

Indiana Resources Limited has prepared this announcement based on information available to it. No representation or warranty, express or implied, is made as to the fairness, accuracy, completeness or correctness of the information, opinions and conclusions contained in this announcement. To the maximum extent permitted by law, none of Indiana Resources Limited, its directors, employees or agents, advisers, nor any other person accepts any liability, including, without limitation, any liability arising from fault or negligence on the part of any of them or any other person, for any loss arising from the use of this announcement or its contents or otherwise arising in connection with it. This announcement is not an offer, invitation, solicitation or other recommendation with respect to the subscription for, purchase or sale of any security, and neither this announcement nor anything in it shall form the basis of any contract or commitment whatsoever.

This announcement may contain forward looking statements that are subject to risk factors associated with exploration, mining and production businesses. It is believed that the expectations reflected in these statements are reasonable but they may be affected by a variety of variables and changes in underlying assumptions which could cause actual results or trends to differ materially, including but not limited to price fluctuations, actual demand, currency fluctuations, drilling and production results, reserve estimations, loss of market, industry competition, environmental risks, physical risks, legislative, fiscal and regulatory changes, economic and financial market conditions in various countries and regions, political risks, project delay or advancement, approvals and cost estimate.
