SCHEME OF ARRANGEMENT NOW UNCONDITIONAL AND NOTIFICATION OF PRODUCTION UPDATE

Scheme now unconditional

Positive progress in operations at Renergen's Virginia Gas Project with a production update to be delivered to the market at the end of January 2026

ASPI and Renergen are pleased to advise that all Conditions to the Scheme have now been fulfilled or, where applicable, waived and that the Scheme is accordingly unconditional.

Implementation will begin once the Takeover Panel issues the requisite compliance certificate, which is anticipated to be received on or about Thursday, 18 December 2025.

Upon receipt of the compliance certificate, ASPI and Renergen will publish the finalisation announcement, containing the remaining salient dates and times for implementation of the Scheme.

Commenting on today's announcement, Paul Mann, Executive Chairman of ASPI, said: "As 2025 comes to a close, we are excited to have received final regulatory approval for the pending acquisition of Renergen. We look forward to beginning the new year refreshed, energised and with incredible prospects as our focus turns to the integration of ASPI and Renergen and planning the roadmap for critical material supply. The more time the two companies have spent together, the more synergies we have identified, and we are excited for what the future holds for our combined company."

ASPI and Renergen are also pleased to advise that there has been positive progress in operations at Renergen's Virginia Gas Project and that a production update will be delivered to the market at the end of January 2026, post the implementation of the Scheme.
