

Lotterywest awards contract for gaming and digital solution to Brightstar Lottery

Jumbo Interactive Limited (**ASX: JIN**) (**Jumbo**) refers to today's announcement by Lotterywest that it has awarded a contract for the development, implementation and support of a gaming solution and digital solution to replace its existing gaming and digital solutions platform to Brightstar Lottery PLC (**NYSE: BRSL**) (**Brightstar**). Jumbo is pleased to announce that it will work with Brightstar on a subcontractor arrangement to provide components of the solution.

Under the proposed arrangement, Brightstar will provide gaming and digital systems to Lotterywest, including the software and hardware required to support both retail and digital channels. Jumbo will partner with Brightstar to integrate key capabilities from its proprietary Jumbo Lottery Platform (JLP) by supplying the website and mobile applications for the digital system, as well as contributing elements of Jumbo's Player Account Management¹ module to the broader gaming system.

Jumbo's existing SaaS agreement held directly with Lotterywest, through which Jumbo operates the "Lotterywest by OzLotteries" digital channel remains unchanged.

The transition from Lotterywest's existing platform to the new Brightstar-led solution will be executed in phases, with go-live currently targeted for Q3 2027. The timing for delivery of the digital component is expected to follow thereafter, although the precise implementation timeline is still to be determined.

The final terms of the proposed subcontract arrangement between Jumbo and Brightstar remain subject to negotiation and board approval. Jumbo will provide a further update to the market once the subcontract has been executed.

- Ends -

Authorised for release by the Board of Directors.

¹ Player Account Management (PAM) module is the system that manages a player's lottery account. It provides centralised capabilities for player registration and identity verification, secure authentication, wallet and payment management, responsible play settings, and transaction history. The PAM acts as the single source of truth across both retail and digital channels, ensuring all interactions, entitlements and preferences are synchronised across the entire lottery ecosystem.

About Jumbo Interactive

Jumbo Interactive Ltd (**ASX:JIN**) brings together technology, creativity, and purpose to deliver winning experiences through digital lotteries and prize draws. Our B2B SaaS platforms and Managed Services power both government and charity fundraising programs, while our B2C brands - including Oz Lotteries, Dream Car Giveaways, and Dream Giveaway - connect millions of customers to life-changing prizes and meaningful causes.

Since 1995, Jumbo has grown from a single-computer start-up into an ASX-listed global group operating across Australia, the United Kingdom, and North America. Today, we're reimagining how people engage with lotteries and prize draws online - making it simpler, more engaging, and more impactful for everyone involved.
