

## Nova Announces Pricing of US\$20m NASDAQ Offering

**Nova Minerals Limited** (Nova or the **Company**) (ASX: **NVA**, NASDAQ: **NVA**, NVAWW OTC: **NVAAF**, FSE: **QM3**) a gold and critical minerals exploration stage company focused on advancing the Estelle Gold and Critical Minerals Project in Alaska, U.S.A., today announced the pricing of an underwritten public offering of 2,928,300 American Depository Shares (“**ADS**”), with an ADS-to-ordinary-share ratio of 1 to 12, at a price to the public of US\$6.83 per ADS, for gross proceeds of approximately US\$20,000,000 (A\$30,200,000), before deducting underwriting discounts and offering expenses. In addition, Nova has granted the underwriters a 45-day option to purchase up to an additional 439,245 ADSs to cover over-allotments (“**Over Allotment ADS**”), if any.

The Company intends to use the proceeds for planned exploration and development activities on its Estelle Project, including additional drilling and exploration, feasibility and environmental studies, camp expansion, permits and approvals, initial development activities, and for general corporate purposes and working capital.

The offering is expected to close on December 22, 2025, subject to satisfaction of customary closing conditions.

The shares are to be issued using the Company’s available placement capacity under LR7.1 An Appendix 3B will be released to the ASX simultaneously with this release.

The 35,139,600 ordinary shares, which are represented by the 2,928,300 ADS, will be issued using the Company’s existing placement capacity pursuant to ASX Listing Rules 7.1. The Over Allotment ADSs will be issued using the existing placement capacity pursuant to ASX Listing Rules 7.1.

ThinkEquity is acting as sole book-running manager for the offering.

The securities will be offered and sold pursuant to a prospectus supplement to the Company’s shelf registration statement on Form F-3 (File No. 333-292084), including a base prospectus, filed with the U.S. Securities and Exchange Commission (the “SEC”) on December 11, 2025 and declared effective on December 17, 2025. The offering will be made only by means of a written prospectus. A final prospectus supplement and accompanying prospectus related to the offering will be filed with the SEC and made available on the SEC’s website. Copies of the final prospectus supplement and the accompanying prospectus relating to the offering may also be obtained, when available, from the offices of ThinkEquity, 17 State Street, 41st Floor, New York, New York 10004. The final prospectus is expected to be filed with the SEC on 19 December 2025 (USET) and will be available on the SEC’s website located at <http://www.sec.gov>.

The Company confirms that it is in compliance with Listing Rule 3.1 and that the Prospectus contains no material information required by Listing Rule 3.1.

This press release shall not constitute an offer to sell or a solicitation of an offer to buy, nor shall there be any sale of these securities in any state or jurisdiction in which such an offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such state or jurisdiction.

This announcement has been authorized for release by the Executive Directors.

## About Nova Minerals Limited

Nova Minerals Limited is a Gold, Antimony and Critical Minerals exploration and development company focused on advancing the Estelle Project, comprised of 514 km<sup>2</sup> of State of Alaska mining claims, which contains multiple mining complexes across a 35 km long mineralized corridor of over 20 advanced Gold and Antimony prospects, including two already defined multi-million ounce resources, and several drill ready Antimony prospects with massive outcropping stibnite vein systems observed at surface. The 85% owned project is located 150 km northwest of Anchorage, Alaska, USA, in the prolific Tintina Gold Belt, a province which hosts a >220 million ounce (Moz) documented gold endowment and some of the world's largest gold mines and discoveries including, Kinross Gold Corporation's Fort Knox Gold Mine. The belt also hosts significant Antimony deposits and was a historical North American Antimony producer

## Forward Looking Statements

This press release contains "forward-looking statements" that are subject to substantial risks and uncertainties. All statements, other than statements of historical fact, contained in this press release are forward-looking statements. Forward-looking statements contained in this press release may be identified by the use of words such as "anticipate," "believe," "contemplate," "could," "estimate," "expect," "intend," "seek," "may," "might," "plan," "potential," "predict," "project," "target," "aim," "should," "will" "would," or the negative of these words or other similar expressions, although not all forward-looking statements contain these words. Forward-looking statements are based on Nova Minerals Limited's current expectations and are subject to inherent uncertainties, risks and assumptions that are difficult to predict. Further, certain forward-looking statements are based on assumptions as to future events that may not prove to be accurate. These and other risks and uncertainties are described more fully in the section titled "Risk Factors" in the final prospectus related to the public offering filed with the Securities and Exchange Commission. Forward-looking statements contained in this announcement are made as of this date, and Nova Minerals Limited undertakes no duty to update such information except as required under applicable law.
