#### ASX release

#### Worley awarded EPC contract by ConocoPhillips Skandinavia AS

Worley (ASX: WOR) ("Worley") has been awarded an Engineering, Procurement and Construction (EPC) contract, following the Front-End Engineering Design (FEED) for the Previously Produced Fields Project (PPF) for ConocoPhillips Skandinavia AS. The EPC covers top side brownfield modifications on existing platforms at the Ekofisk Complex on the Norwegian Continental Shelf.

The FEED work was completed by Worley Rosenberg in August with the EPC phase scheduled to start in early 2026, with delivery planned in 2028.

This award falls under an existing Frame Agreement as part of the delivery to the PPF project, which is a joint redevelopment of the Albuskjell, Vest Ekofisk and Tommeliten Gamma fields, tied back to the Ekofisk Complex.

"This award reinforces our established partnership with ConocoPhillips in Norway and strengthens our position as a leading EPC delivery company. We look forward to delivering another successful project and showcasing our expertise in offshore field development," says Chris Ashton, Chief Executive Officer of Worley.

Authorized for release by Nuala O'Leary, Group Company Secretary.
