

West Erregulla Update

Strike Energy Limited (Strike - ASX: STX) provides an update on the timing of the release of its West Erregulla and Erregulla Deep reserves and resources certification.

As previously communicated, Strike had anticipated releasing the updated reserves and resources position in December. While substantial progress has been made, further work remains to be done before the certification can be finalised for release.

The additional time required reflects the Company's commitment to ensuring that its reserves and resources disclosure is robust, defensible and fully aligned with best-practice reporting standards in line with the Petroleum Resource Management System (PRMS).

Importantly, the delay should not be interpreted as an indication of any adverse technical outcome.

Revised Timing

Strike now expects to complete the independent review and finalise its reserves and resources certification in Q1 2026, subject to relevant governance and joint venture review processes.

This announcement is authorised for release by the Managing Director and Chief Executive Officer.
