- (Performance and Vesting Conditions):** The Performance Rights are subject to the achievement of the Performance Conditions and Vesting Conditions specified below:

Between 8% and 12%	Pro-rata between 50% and 100%												
12% and above	100%												

**Notes:**

ATSR measures the total return to Shareholders by calculating the increase (or decrease) between a 30-trading day volume weighted average market price (**VWAP**) of the Shares for the 30 trading days up to and including 30 June 2025 and the 30 trading days up to and including 30 June 2028 (Performance Rights), plus any dividends paid to Shareholders during this period.

- (Abnormal Event)** In respect to the Performance Rights, the Board, in its sole and absolute discretion, may determine that an 'Abnormal Event' has occurred in circumstances where, in the final year of the Performance Period, there is:
  - a general ASX share market correction of at least 10%; or
  - an unusual or abnormal event outside of management's control,which results in a temporary reduction in the Company's Share price but which does not reflect the actual performance of the Company or its underlying value.

Following an Abnormal Event, the Board may determine that the Performance Condition will be retested and measured over an additional year (**Extended Performance Period**), with correspondingly higher CAGR-ATSR hurdles over that extended test period.
