

\$6.2 million Asia Pacific contract

- DroneShield has received a \$6.2 million contract for an Asia Pacific military end-customer.
- Delivery and cash payment is expected in 2026.

DroneShield Limited (ASX:DRO) (DroneShield or the Company) is pleased to announce it has received a standalone contract for \$6.2 million from an in-country reseller for delivery to a military end-customer in an Asia Pacific country. The reseller is a wholly-owned subsidiary of a multi-billion dollar, global, publicly listed customer that is contractually required to distribute solutions to a major Asia Pacific military government department. The solutions include selected 3rd party hardware, interoperable with DroneShield's command-and-control software platform, DroneSentry-C2. DroneShield expects to complete the delivery and receive payment in 2026. No additional material conditions need to be satisfied.

DroneShield has previously received 14 standalone contracts from this reseller over the past 2 years totalling over \$48 million. There is no obligation for any additional contracts from this customer.

DroneShield confirms that:

- it does not consider the identity of the counterparty/customer to be information that a reasonable person would expect to have a material effect on the price or value of DroneShield's securities; and
- the announcement contains all material information relevant to assessing the impact of the contract on the price or value of DroneShield's securities and is not misleading by omission.
