

ASX ANNOUNCEMENT

24 December 2025

REMINDER: OPTIONS PLACEMENT OFFER CLOSING 20 JANUARY 2026 – ACT NOW TO SECURE YOUR ENTITLEMENT AND SHORTFALL OPTIONS

MEC Resources Limited (“**MEC**” or the “**Company**”) (ASX:MMR) wishes to remind Eligible Participants that the Options Placement Offer (**Offer**) under the Prospectus lodged with ASIC and ASX on 2 December 2025 remains open and is scheduled to close at 5:00pm (AWST) on Tuesday, 20 January 2026 (unless extended).

Documentation including personalized entitlement and acceptance forms were sent out by share registry Boardroom Pty Ltd either by email or mail, depending on shareholder communication preferences, on or about 4 December 2025. If you have not received your documentation, please contact Boardroom Pty Ltd as outlined below and they will assist.

As a Pooled Development Fund registered with the Australian Federal Government, MEC provides most shareholders with significant tax advantages, including tax-free capital gains on shares and tax-free dividends. This Offer represents a low-cost opportunity at just \$0.001 per New Option to maintain or increase your exposure to MEC's ongoing development in energy and resources, with New Options exercisable at \$0.03 within 12 months from issue.

The Company strongly encourages all Eligible Participants to take up their full Entitlement on a 1-for-1 basis for every expired MMRO Option held as at 21 November 2025. Additionally, you may apply for Shortfall Options in excess of your Entitlement – allocations will be at the Board's absolute discretion, and early applications are recommended to maximize your chances, as demand may exceed availability.

Directors David Breeze and Peter Richards have already committed to taking up their full Entitlements (8,024,224 and 6,349,229 New Options respectively) following shareholder approval at the Company's AGM on 27 November 2025...

Funds raised (up to approximately \$359,162 before expenses) will bolster general working capital, supporting MEC's strategic initiatives in a dynamic energy market.
