The principal risks that could affect the financial and market performance of the Company are detailed in Section 2 of this Prospectus. The New Options on offer under this Prospectus should be considered speculative. Accordingly, before deciding to invest in the Company, investors should read this Prospectus in its entirety and should consider all factors in light of their individual circumstances and seek appropriate professional advice.

### **1.13 Overseas Shareholders**

The Offers do not, and are not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value of New Options these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Offers are not being extended and New Options will not be issued to Shareholders with a registered address which is outside Australia or New Zealand.

## **2. RISK FACTORS**

---

### **2.1 Introduction**

The New Options offered under this Prospectus should be considered speculative because of the nature of the Company's business.

Whilst the Directors recommend that Shareholders take up their entitlement to New Options, there are however numerous risk factors involved. Some of these risks can be mitigated by the use of safeguards and appropriate systems and controls, but some are outside the control of the Company and cannot be mitigated. Accordingly, an investment in the Company carries no guarantee with respect to the payment of dividends, return of capital or price at which the New Options will trade (subject to satisfying ASX of the quotation requirements) or the underlying Shares.

The following is a summary of the more material matters to be considered and should be read in conjunction with specific matters referred to in the Company's announcements and reports. However, the summary is not exhaustive and potential investors should examine the contents of this Prospectus in its entirety and consult their professional advisors regarding an investment in the Company.

### **2.2 Company specific**

#### **(a) Regulatory Risk**

ECS Botanics is licenced by the Therapeutic Goods Administration, the Federal Office of Drug Control (ODC) and the Victorian Department of Health and Human Services.

Failure to comply with our licence terms and conditions could result in a fine, a suspension of our operations or in extreme circumstances a loss of our licence.

ECS has a TGA manufacturing licence that it has held for 4 years. The TGA undertakes audits to renew the licence. In the event of a major breach ECS would have to correct the deficiencies in an assigned period. During this period ECS would not be able to export product causing loss of sales and possible loss of contract.

A major security breach as a result of failure by the Company to adhere to agreed security arrangements could result in a suspension or termination of the ODC licence.

#### **(b) Risks associated with product quality**

Product that does not comply with the Quality standards (TGO93) or medicine labelling requirements (TGO91) could result in damage to our customers' brands or in extreme circumstances a product recall.

As Cannabis flower is a botanical product with a limited shelf life the risk of imperfect flower that meets the TGO93 still exists, and customer complaints are received and investigated.

#### **(c) Risk of a serious workplace safety incident**

Farm-related safety incidents are one of the highest causes of workplace fatalities in Victoria and ECS sees safety as our highest priority. Incidents causing death or serious injury will negatively impact the company's operations. Additional risk is created by undertaking in-house construction of the PCE's.

(d) **Competitive Risk from Imports**

The medicinal cannabis industry is undergoing rapid growth and an increasing volume of demand which could lead to oversupply and price erosion. The ODC allows large volumes of imports from low cost countries such as Thailand and Columbia which add to the existing high levels of product imported from Canada due to Canadian market being over stocked and selling below cost. If these trends continue ECS may find it difficult to compete in both local and export markets.

(e) **Agricultural Risks**

Risk associated with agriculture are inherent to the industry. These risks relate to weather events, pests' and disease all of which may impact flower yield. By constructing more PCE's the company is reducing this risk. Loss of yield may adversely impact ECS' revenue, profit and business operations.

Pollination of Cannabis by Hemp cultivation results in seed formation and reduces the product quality, yield and price.

(f) **Contract Manufacture Risk**

ECS relies on third parties to undertake certain manufacturing activities such as extraction, formulation, manufacture of soft gel caps pastilles and bottling oils. If a contract manufacturer was unable to perform these activities supply may be disrupted which could impact ECS' revenue, profit and business operations.

(g) **Loss of key customers and distributors**

ECS Botanics are reliant on various third-party contract (binding and non-binding) throughout its business operations.

To the extent that ECS cannot obtain and/or retain customer or distributor contracts (due to disputes, increased competition or changes in the market), ECS' revenue, profitability and growth, additional, financial performance may be materially and adversely affected.

(h) **Uncontracted arrangements risk**

A large proportion of ECS' B2B business relationships are the subject to agreements which are subject to standard terms and conditions rather than comprehensive agreements which protect ECS' interest (as is considered standard in the medicinal cannabis industry).

Given the nature of these contractual relationships, it is not possible for ECS to contractually guarantee consistency of sales volumes, price or terms going forward.

Further, there is a risk that these customer relationships may not be able to be maintained, or new relationships may not be formed on terms acceptable to the Company.

(i) **Reputation, trade marks and protection of intellectual property.**

ECS has entered into contracts for the use of IP such as VESIorb. This provides ECS with a unique product technology. Although the agreement is for a further 8 years there is a risk of another similar or better technology being developed which would reduce the value proposition.

ECS's key brands are protected.

(j) **Risk of adverse future regulatory changes**

The operations of ECS Botanics are subject to a variety of laws, regulations, and guidelines in its market, at federal and state levels including (but not limited to) product content requirements, labelling and packaging, regulations.

The sales of medicinal cannabis products are considered an unapproved medicine. If the medical regulator (APHRA or AMA) determine that stricter controls on prescribing is required, the market size will reduce and potentially ECS's revenue.

(k) **Insurance**

ECS will endeavour to maintain insurance to mitigate the risks that the Company will face. However, ECS cannot insure against all risks, or guarantee that the level of insurance cover it obtains will be adequate, either because appropriate or necessary cover is not available or because Directors consider the required premiums to be excessive in relation to the benefits that would accrue.

If ECS incurs losses or liabilities for which it is uninsured, this may have a negative impact on the Company's financial performance and ability to operate its business.

(l) **Counterparty and credit risk**

The business operations of ECS require the involvement of a number of third parties, including suppliers, contractors. Not being able to reach a binding agreement with a third party, financial failure, default, or contractual non-performance on the part of such third parties including failure to pay amounts due to ECS pursuant to its agreements, may have a material impact on the operations and performance of the Company.

(m) **Product price risk**

ECS' business is subject to Australian and overseas medicinal cannabis prices.

Prices of cannabis vary and are affected by a variety of local and global factors that are beyond the control of the Company.

These factors include (but are not limited to) local and global supply and demand, production costs, weather and environmental conditions, governing authority regulations and flux (such as local and global growing programs and policies, sanctions and barriers), and also local and global plant diseases. Cannabis prices are also affected by general local and global economic conditions.

Adverse changes in cannabis prices may have an adverse impact on ECS' operations and business.

(n) **Unforeseen risks**

There may be other risks which Directors or management are unaware of at the time of issuing this Prospectus which may impact on ECS, its operations and/or the valuation and performance of ECS.

## 2.3 General risks

(a) **Equity market conditions**

Securities listed on the stock market can experience extreme price and volume fluctuations that are often unrelated to the operating performances of such

companies. The market price of Shares may fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general.

General factors that may affect the market price of Shares include economic conditions in both Australia and internationally (particularly Australian, US and Chinese economic conditions), investor sentiment, local and international share market conditions, changes in interest rates and the rate of inflation, the global security situation and the possibility of terrorist disturbances, changes to government regulation, policy or legislation, changes which may occur to the taxation of companies as a result of changes in Australian and foreign taxation laws, changes to the system of dividend imputation in Australia, and changes in exchange rates.

**(b) Climate change**

Climate Change presents physical and transition risks arising from increased frequency and severity of extreme weather events, temperature variability and potential pressure on water availability, which may impact crop yields, quality, harvest timing and operating costs. In addition, evolving climate-related regulation, energy market volatility and broader ESG expectations may increase compliance, reporting and cost pressures over time. These factors could contribute to operational disruption, input cost variability and financial performance volatility if not effectively managed.

**(c) Force majeure**

Events completely out of the control of ECS have the potential to negatively impact the Company's operations including, for example, war, political unrest, riot, extreme weather conditions, strikes, explosion, terrorist activity and product sabotage.

**(d) Litigation risks**

The Company is exposed to possible litigation risks including intellectual property claims, contractual disputes, occupational health and safety claims and employee claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, financial performance and financial position. The Company is not currently engaged in any litigation.

**(e) Reliance on key personnel**

The Company's operational success will depend substantially on the continuing efforts of senior executives. The loss of services of one or more senior executives may have an adverse effect on the Company's operations. Furthermore, if the Company is unable to attract, train and retain key individuals and other highly skilled employees and consultants, its business may be adversely affected. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees cease their employment.

**(f) General economic and political risks**

Changes in the general economic and political climate in Australia and on a global basis may impact on economic growth, such as, interest rates, the rate of inflation, taxation and tariff laws and domestic security, which may affect the value and viability of any activities that may be conducted by the Company.

**(g) Shareholders may be diluted**

In the event that the Company elects in the future to issue shares or to raise further capital to fund investments or acquisitions, Shareholders may have their shareholding

diluted as a result of such share issues or capital raising. Any capital raising or share issue must be conducted in accordance with the Listing Rules and the limits on the securities that a listed company may issue in any 12-month period.

(h) **Unforeseen expenditure risks**

Expenditure may need to be incurred which has not been taken into account in the preparation of this Prospectus. Although the Company is not aware of any such additional expenditure requirements, however if such expenditure is subsequently required or incurred, this may adversely impact budgeted expenditure proposals by the Company.

(i) **Corporate and business taxation**

ECS is currently subject to a range of taxation obligations, potentially including income taxes (Australia federal, state and municipal income taxes), indirect taxes (Australian Goods and Services Tax), payroll taxes, superannuation and pension obligations, property taxes, and other taxes and levies.

There is potential for changes to any domestic tax laws. Any change to the current rates of taxes imposed on ECS is likely to affect returns to shareholders.

Any change in tax rules and tax arrangements or their implementation could have an adverse effect on the level of shareholder returns.

## **2.4 Speculative investment**

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the New Options offered under this Prospectus.

Therefore, the underlying Shares carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Shares.

Potential investors should consider that the investment in the Company is speculative and should consult their professional advisers regarding an investment in the Company.

### **3. PURPOSE AND EFFECT OF THE OFFERS**

---

#### **3.1 Purpose of the Offers**

The primary purposes of this Prospectus are to:

- (a) issue the New Options under the Offers;
- (b) obtain Quotation of the New Options;
- (c) facilitate secondary trading of the New Options issued under the Offers; and
- (d) facilitate secondary trading of any Shares issued upon exercise of the New Options issued under the Offers.

Section 707(3) of the Corporations Act generally requires that a prospectus is issued in order for a person to whom securities were issued without disclosure under Part 6D of the Corporations Act to on-sell those securities within 12 months of the date of their issue.

The Company is precluded from issuing a 'cleansing notice' in respect of the New Options as they are not in a class of securities that were quoted securities at all times in the past three (3) months. This Prospectus has also been prepared for the offer of the New Options so the relief provided under *ASIC Corporations (Sale Offers That Do Not Need Disclosure) Instrument 2016/80*, with respect to the on-sale provisions of section 707 of the Corporations Act, is available. If the New Options are issued with disclosure under this Prospectus, then the Shares issued upon the exercise of any of the New Options can be on-sold within 12 months of their issue without a disclosure document being required for that on-sale, as the New Options are issued with disclosure and the exercise of the New Options does not involve any further offer. Consequently, the Company has issued this Prospectus in respect of the Offers to the Placement Participants or Joint Lead Managers. Issuing the New Options under this Prospectus will enable persons who are issued the New Options to on-sell their New Options, and any Shares issued on exercise of the New Options pursuant to *ASIC Corporations (Sale Offers That Do Not Need Disclosure) Instrument 2016/80*. The purpose of the Loyalty Offer is also to recognise the support and loyalty the Company has received from its Shareholders to date. Refer to Section 5.10 for details of the estimated expenses of the Loyalty Offer.

#### **3.2 Financial effect of the Offers**

There will be no net proceeds from the Offers, after the costs of the Offers have been met. The Company will meet the expenses of the Offer from its existing cash reserves. The effect of the Offers on the Company's financial position will be a net decrease in cash held of approximately \$53,166 (exclusive of GST).

If all New Options are issued and exercised, the Company will receive approximately \$6,385,591. However, there is no certainty that any New Options will be exercised, and the proportion exercised will depend on the Share price relative to the exercise price during the exercise period. It is anticipated that any funds raised by the exercise of New Options will be used toward continued development of the Company's existing projects and for working capital. The application of funds will depend on when the New Options are exercised and the status of the Company's projects and requirements at the relevant time.

The above is a statement of current intentions as at the date of this Prospectus. As with any budget, intervening events (such as project and general market risk factors affecting the Company) and new circumstances have the potential to affect the ultimate way funds will be applied. The Directors reserve the right to alter the way funds are applied on this basis.

### 3.3 Effect on capital structure

The effect of the Offers on the capital structure of the Company, assuming all New Options offered under the Prospectus are issued (ignoring the effects of rounding of fractional Entitlements, and assuming no further Securities are issued prior to the Record Date), is set out below.

Security	Number
<b>Shares<sup>1</sup></b>

<b>Total Shares on issue on completion of the Offers</b>	<b>1,596,049,567</b>

<b>Total Performance Rights on issue on completion of the Offers</b>	<b>17,500,000</b>

**Notes:**

- 1 The rights and liabilities attaching to the Shares are summarised in Section 4.1.
- 2 Comprising:
  - (a) 20,000,000 unlisted Options (ASX: ECSAH) exercisable at \$0.033 and expiring on 28 February 2026; and
  - (b) 20,000,000 unlisted Options (ASX: ECSAI) exercisable at \$0.024 and expiring on 31 December 2029.
- 3 Exercisable at \$0.011 and expiring thirty (30) months from the issue date. The Company will apply for Official Quotation of the Loyalty Options offered under this Prospectus. The full terms and conditions of the Loyalty Options are set out in Section 4.2.
- 4 Exercisable at \$0.011 and expiring thirty (30) months from the issue date. The Company will apply for Official Quotation of the Placement Options offered under this Prospectus. The full terms and conditions of the Placement Options are set out in Section 4.2.
- 5 Exercisable at \$0.011 and expiring thirty (30) months from the issue date. The Company will apply for Official Quotation of the Joint Lead Manager Options offered under this Prospectus. The full terms and conditions of the Joint Lead Manager Options are set out in Section 4.2.

### 3.4 Effect on control of the Company

The Company is of the view that the Offers will not affect the control (as defined by section 50AA of the Corporations Act) of the Company as only Options are being issued. No investor or existing Shareholder will have a voting power greater than 20% as a result of the completion of the Offers.

There will be no change to any Shareholder's voting power as a result of the issue of the New Options under this Prospectus. Where the New Options are exercised into Shares, the voting power of the Shareholders who exercise the Options will increase. The likelihood of Options being exercised is dependent on the price of Shares from time to time until the Options expire.

### 3.5 Potential dilution

No immediate dilution will occur as a result of the issue of New Options under this Prospectus. However, Shareholders should note that if they do not participate in the Offers, their holdings are likely to be diluted if New Options are issued and subsequently exercised (as compared to their holdings and number of Shares on issue as at the date of the Prospectus). Examples of how the dilution from the Offer may impact Shareholders is set out in the table below:

Holder	Shareholding as at Record date	% at Record Date	Entitlement under Loyalty Offer	% if full Entitlement taken up	% if no Entitlement taken up
Shareholder 1	5,000,000	0.31%	833,333	0.31%	0.27%
Shareholder 2	2,500,000	0.16%	416,666	0.16%	0.13%
Shareholder 3	1,000,000	0.06%	166,666	0.06%	0.05%
Shareholder 4	750,000	0.05%	125,000	0.05%	0.04%
Shareholder 5	500,000	0.03%	83,333	0.03%	0.03%

**Notes:**

- 1 The table is based on a share capital of 1,596,049,567 as at the date of this Prospectus and assumes that all New Options are issued and that no other Shares are issued, including on exercise of existing Options or conversion of existing Performance Rights.
- 2 The dilutionary effect shown in the table is the maximum percentage on the assumption that all New Options issued are exercised. In the event that not all New Options are subsequently exercised after being issued, the dilution effect for each Shareholder not accepting their Loyalty Options would be a lesser percentage.

### 3.6 Details of substantial holders

Based on public information as at the date of this Prospectus, the persons who (together with their associates) have a relevant interest in 5% or more of Shares are set out below:

Shareholder	Shares	%
Nan Maree Scheorie and associates <sup>1</sup>	121,166,667	7.59
Windpac Pty Ltd	109,723,710	6.87

**Notes:**

- 1 Comprising:
  - (a) 54,166,667 Shares held indirectly by Flowerday Holdings Pty Ltd <Flowerday Farm Hold Disc A/C>, an entity of which Ms Scheorie is a director; and
  - (b) 67,000,000 Shares held indirectly by Schoerie Fides Pty Ltd <Schoerie SMSF A/C>, an entity of which Ms Schoerie is a beneficiary.

The Offers will have no effect on the quantity of Shares held by these substantial holders as only Options are being issued.

## 4. RIGHTS ATTACHING TO SECURITIES

---

### 4.1 Rights and liabilities attaching to Shares

The following is a summary of the more significant rights and liabilities attaching to the Shares being the underlying securities of the New Options to be issued pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

#### (a) General meetings

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with Section 249D of the Corporations Act and the Constitution.

#### (b) Voting rights

Subject to any rights or restrictions for the time being attached to any class or classes of Shares, at general meetings of Shareholders or classes of Shareholders:

- (i) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative or if a determination has been made, by direct vote;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote (even though he or she may represent more than one member); and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall (or where a Direct Vote has been lodged), in respect of each fully paid Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for the Share, but in respect of partly paid Shares, shall have such number of votes being equivalent to the proportion which the amount paid (not credited) is of the total amounts paid and payable in respect of those Shares (excluding amounts credited).

#### (c) Dividend rights

Subject to and in accordance with the Corporations Act, the Listing Rules, the rights of any preference Shareholders and to the rights of the holders of any shares created or raised under any special arrangement as to dividend, the Directors may from time to time declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares. The Directors may rescind a decision to pay a dividend if they decide, before the payment date, that the Company's financial position no longer justifies the payment.

The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. No dividend shall carry interest as against the Company.

Subject to the ASX Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment plan on such terms and conditions as the Directors think fit and which provides for any dividend which the Directors may declare from time to time and payable on Shares which are participating Shares in the dividend reinvestment plan, less any amount which the Company shall either pursuant to the Constitution or any law be entitled or obliged to retain, be applied by the Company to the payment of the subscription price of Shares.

(d) **Restricted Securities**

The Company shall comply in all respects with the requirements of the Listing Rules with respect to Restricted Securities.

Without limiting the generality of the above:

- (i) a holder of Restricted Securities must not Dispose of, or agree or offer to Dispose of, the Securities during the escrow period applicable to those Securities except as permitted by the Listing Rules or the ASX;
- (ii) if the Restricted Securities are in the same class as quoted Securities, the holder will be taken to have agreed in writing that the Restricted Securities are to be kept on the Company's issuer sponsored subregister and are to have a Holding Lock applied for the duration of the escrow period applicable to those Securities;
- (iii) the Company will refuse to acknowledge any Disposal (including, without limitation, to register any transfer) of Restricted Securities during the escrow period applicable to those Securities except as permitted by the Listing Rules or the ASX;
- (iv) a holder of Restricted Securities will not be entitled to participate in any return of capital on those Securities during the escrow period applicable to those Securities except as permitted by the Listing Rules or the ASX; and
- (v) if a holder of Restricted Securities breaches a Restriction Deed or a provision of this Constitution restricting a Disposal of those Securities, the holder will not be entitled to any dividend or distribution, or to exercise any voting rights, in respect of those Securities for so long as the breach continues.

(e) **Winding-up**

If the Company is wound up, the liquidator may, with the authority of a special resolution of the Company, divide among the shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders. No member is obliged to accept any Shares, securities or other assets in respect of which there is any liability.

The liquidator may, with the authority of a special resolution of the Company, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any Shares or other securities in respect of which there is any liability.

(f) **Shareholder liability**

As the Shares issued will be fully paid shares, they are not subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(g) **Transfer of Shares**

Subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act or the ASX Listing Rules, the Shares are freely transferable.

(h) **Variation of rights**

Pursuant to Section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to Shares.

If at any time the share capital is divided into different classes of Shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three-quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

(i) **Alteration of Constitution**

The Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

## 4.2 **Terms and conditions of Loyalty Options, Placement Options and Joint Lead Manager Options**

Each Option entitles the holder to subscribe for one Share upon exercise of the Option.

(b) **Exercise Price**

Subject to paragraph (j), the amount payable upon exercise of each Option is \$0.011 (**Exercise Price**).

(c) **Expiry Date**

Each Option will expire at 5:00 pm (AWST) on the date that is thirty (30) months from the date of issue. An Option not exercised before the Expiry Date will automatically lapse on the Expiry Date.

(d) **Exercise Period**

The Options are exercisable at any time on or prior to the Expiry Date (**Exercise Period**).

(e) **Notice of Exercise**

The Options may be exercised during the Exercise Period by notice in writing to the Company in the manner specified on the Option certificate (**Notice of Exercise**) and payment of the Exercise Price for each Option being exercised in Australian currency by electronic funds transfer or other means of payment acceptable to the Company.

(f) **Exercise Date**

A Notice of Exercise is only effective on and from the later of the date of receipt of the Notice of Exercise and the date of receipt of the payment of the Exercise Price for each Option being exercised in cleared funds (**Exercise Date**).

(g) **Timing of issue of Shares on exercise**

Following the Exercise Date and within the time period specified by the ASX Listing Rules, the Company will:

- (i) issue the number of Shares required under these terms and conditions in respect of the number of Options specified in the Notice of Exercise and for which cleared funds have been received by the Company;
- (ii) if required, give ASX a notice that complies with section 708A(5)(e) of the Corporations Act, or, if the Company is unable to issue such a notice, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors; and
- (iii) if admitted to the official list of ASX at the time, apply for official quotation on ASX of Shares issued pursuant to the exercise of the Options.

If a notice delivered under (g)(ii) for any reason is not effective to ensure that an offer for sale of the Shares does not require disclosure to investors, the Company must, no later than 20 Business Days after becoming aware of such notice being ineffective, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors.

(h) **Shares issued on exercise**

Shares issued on exercise of the Options rank equally with the then issued shares of the Company.

(i) **Reconstruction of capital**

If at any time the issued capital of the Company is reconstructed, all rights of a holder are to be changed in a manner consistent with the Corporations Act and the ASX Listing Rules at the time of the reconstruction.

(j) **Participation in new issues**

There are no participation rights or entitlements inherent in the Options and holders will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the Options without exercising the Options.

(k) **Transferability**

The Options are transferable subject to any restriction or escrow arrangements imposed by ASX or under applicable Australian securities laws.
