

Appendix 4C Quarterly Cash Flow and Market Update

Australian Dairy Nutritionals Limited (**AHF** or the **Group**) today lodged its Appendix 4C and provided a review of the Group's progress for the quarter ended 31 December 2025 (**Q2 FY26**).

Quarterly Activity Report (QAR)

Financial Update

The Group is pleased to announce consolidated revenue of \$1.4m and of nutritional powders of \$776k for Q2 FY26. Nutritional powder sales represent a 152% increase on the pcp (Q2 FY25), with the result reflecting further pipeline and replenishment orders for increased distribution of the Future brand in China and contract pack sales to key customers. Nutritional powder sales in Q2 FY26 were negatively affected by sudden regulatory & registration changes in Vietnam, impacting packaging that resulted in stock returns. It is expected that shipments with revised packaging will begin at the end of Q3 FY26.

Total revenue in Q2 FY26 of \$1.4m is a 19% decrease on pcp (Q2 FY25) which was a direct result of stock returns in Vietnam and significantly lower milk and livestock sales v pcp, which was due to the exit from the lease of the North Brucknell farm. Total revenue for the H1 FY26 is 15% ahead of pcp (H1 FY25) and growth is expected to strongly accelerate in H2 FY26 due to the ongoing distribution build of Future brand in China, and the resolution of the regulatory issue in Vietnam.

Net cash outflows from operations were in line with expectations at \$1.11m for Q2 FY26. The Group ended Q2 FY26 with cash holdings of \$809k (Q1 FY26: \$1.9m). It is also noted the Groups 2-year, \$1.22m funding facility expired in December and security over assets has been removed.

Directors, being related parties of the Group, were paid remuneration in the amount of \$80k during the December quarter, as outlined in item 6.1 of the attached Appendix 4C, which is consistent with the previous quarter.

Sales update

The business continues to invest in building distribution and consumer trial of the Future brand in the o2o channel in China via the M2C global shopping app. Distribution has been expanded to seven provinces in China and it is planned that further distribution and province penetration expansion will continue throughout H2 FY26, and is expected to reach 1,000 active stores by the end of FY26.

The release of this announcement was authorised by the Board of AHF.
