Quarterly Business Activities and Outlook

During Q2 FY26, c.7,452 \$Bn new capital funds were raised on the Complii platform across 1077 unique offerings from numerous AFSL client firms using Complii's proprietary Capital Raising System ("Adviser Bid/Corporate Highway").

This quarter saw Complii continue in advanced conversations and the **finalisation of requirements for tier 1 client opportunities**, which should lead to **signing in Q3 FY26**. This tier 1 opportunity brings a significant **upgrade of features for Complii's Capital Raising system** and the Institutional module within, with development commencing in the quarter as well. The team also delivered **Stage 1 (of 4 stages) release of the new CRM**, to its first client.

Stage 1 release of the CRM project marks a major milestone and the most critical stage release within Complii operations, as it is a complete rebuild of the core system and infrastructure and a brand new Compliance driven CRM. This will deliver stronger performance and user experience with 'build your own' workflows for any compliance obligation or operational process. The New CRM will allow existing users and new users to be able to subscribe to selectable services. This change is an opportunity to enter into new markets which require only certain compliance functions, like staff trading, AML checks or Compliance Registers.

Quarterly Business Activities and Outlook continued

Stage 2, 3 and 4 will see conversion of Complii existing modules into the new Core system and infrastructure along with the migration of customers to the new system.

From Q3 FY26 the Complii team will begin **migrating a hybrid solution of the new CRM** and current system modules to the first group of existing customers, who will benefit from the current functionality within the existing and increased functionality in the new system. The team also remain focused on stage 2 of **converting the first major module into the new core system**, for a complete migration to follow.

The Business unit remains motivated to see a cash positive (Complii system expenses vs usage revenue) system in FY27 through the completed delivery this project.

PrimaryMarkets

During the quarter, the PrimaryMarkets Platform saw a **sizable lift in momentum**, driven by a surge of activity in Animoca Brands. The catalyst was a sequence of market-facing updates early in the quarter, including a public listing via a reverse merger announcement in November, followed by a December shareholder meeting where the company provided further clarity on direction and outlook. This resulted in increased investor attention, enquiries and a swift rise of live bids and offers.

More broadly, trading activity remained steady across a range of securities, with investors actively using the Platform to establish market depth and progress transactions. This continued flow of orders reinforces PrimaryMarket's **role as a trusted venue** for transparent price discovery and private market liquidity, even in subdued conditions.

Strategically, the business advanced a number of initiatives, including working with third parties to strengthen its ecosystem and distribution. In addition, the business has **established a new referral arrangement** with a major private company to help direct interested buyers to the Platform.

Looking ahead, a pipeline of initiatives is being prepared across both our Liquidity product lines, **aimed at strengthening deal flow, improving investor engagement and enhancing Platform efficiency**. The business also remains active in exploring partnership opportunities with aligned financial service providers to broaden offerings and distribution, creating additional value for stakeholders.

MIntegrity

Q2 FY26 was characterised by a strong start in October followed by a seasonal wind-down as major projects concluded in December for the holidays. This period marked the first full quarter under the sole leadership of CEO Amanda Mark following the departure of Co-Founder Andrew Tait on 3 October 2025. Anti-Money Laundering and Counter Terrorism Financing (AML/CTF) uplift projects are in full swing with the 31 March 2026 deadline for existing AUSTRAC reporting entities closing in. Development continues for AML training content with Think Caddie.

MIntegrity, in conjunction with Complii, has finalised its Complii Lite offering. **A Compliance Subscription service** leveraging Complii technology with MIntegrity Compliance expertise, to be launched Q3 FY26.

ThinkCaddie

In Q2 FY26, the ThinkCaddie team focused on continued content delivery, progressing new product initiatives, and advancing strategic partnership opportunities. During the quarter, 27 new learning activities were released, further strengthening Caddie's technical and compliance libraries.

Work also continued on key new business initiatives, including the AML product being developed in collaboration with MIntegrity. Scoping and planning have been completed, with development scheduled to commence in Q3 FY26. In addition to the AML product, further scope was developed for additional standalone products, including a 9hr ethics CPD pack, which will provide further revenue opportunities for Caddie.

Directors, being related parties of the Company, were paid remuneration in the amount of \$188k during the December Quarter. No other related party payments were made.

The Company acknowledges its cash position at the end of the quarter and its estimated cash available for future operating activities. The Directors closely monitor cash flows and funding requirements to ensure that the Company can continue to pursue the growth opportunities of the businesses. The Directors remain conscious of the cash flow requirements of the Group but also seek to ensure that funding is appropriate so as to preserve value and limit dilution for all shareholders.

Overall, each business unit and key management personal within the company are focused on increasing revenue generation in FY26 and ongoing cost management initiatives. The Company continues to monitor its cash position closely and will implement further measures as required to ensure it remains adequately funded.

Further details of the cash flows of the Company are set out in the attached Appendix 4C.

This announcement was authorised to be given to ASX by the Board of Directors of Complii FinTech Solutions Ltd.
