ASX release

Worley awarded framework agreement by Equinor Energy in Norway

Worley Limited (ASX: WOR) (“Worley”) has been selected by Equinor Energy AS (“Equinor”) to enter a framework agreement to provide support for selected oil and gas facilities on the Norwegian Continental Shelf.

The framework agreement is expected to support offshore maintenance, installation and modification activities that Worley will provide at selected installations including the Sleipner and Johan Sverdrup facilities. Commencing May 2026, the five-year agreement has options to extend.

The agreement builds on Worley’s existing relationship with Equinor and marks an important step in extending long-term services arrangements with Equinor.

“We value the trust Equinor has placed in Worley through this framework agreement, reflecting our strong local presence and expertise in Norway, supported by our global network of additional specialized resources to support Equinor’s offshore operations as required”, said Chris Ashton, Chief Executive Officer of Worley.

Authorized for release by Nuala O’Leary, Group Company Secretary.
