## Company Highlights

- **Aspire holds a 100% interest in the Ovoot Coking Coal Project (OCCP)**, which has:
  - JORC (2012) compliant **Total Coal Resource of 219.4 Mt** and **Total Coal Reserve of 130.1 Mt** supporting a forecast 31-year mine life from commencement of production, supporting an overall **NPV<sub>10</sub> exceeding US\$1.5 billion<sup>1</sup>**;
  - Mining Licence MV-017098 which is valid until August 2042, and able to be extended twice for additional 20-year terms; and
  - Key statutory approvals in place to support the planned mining, processing, transportation and logistics infrastructure construction and operation.
- **Aspire maintains a strong balance sheet**, with cash and cash equivalents of approximately US\$5.0 million at the end of the Quarter and no debt outstanding.

## Quarter Highlights

- **EPC Contract Execution:** Entered a US\$69.9 million EPC contract to deliver the Coal Handling and Preparation Plant (**CHPP**) and Erdenet Rail Terminal (**ERT**) coal handling infrastructure in support of the OCCP with tier-one partner the International Engineering Company of China Coal Technology and Engineering Group Corp (**CCTEG-IEC**)<sup>2</sup>. The contract materially reduces capital cost uncertainty and provides a clear pathway toward targeted first coal production and export in Q4 2027.
- **PPP Endorsement:** Mongolia's Cabinet endorsed the Murun-Uliastai Highway Project to be implemented under a Build-Operate-Transfer (**BOT**) style Public-Private-Partnership (**PPP**), with the planned alignment overlapping the road Aspire plans to support the Ovoot project haul road<sup>3</sup>.
- **PPP Tendering:** The tender process for the Murun-Uliastai Highway Project PPP Agreement was initiated by the Ministry of Economy and Development (**MED**), and the Company prepared and lodged its submission within the required deadline in the week following the end of the Quarter

## OCCP Development

Aspire reached a definitive milestone in the development of the OCCP during the Quarter with the execution of an EPC contract for delivery of the CHPP infrastructure to be built within the Ovoot mining license in Tsetserleg soum (district), Khuvsgul aimag (province), and the ERT coal handling infrastructure to be built at the planned coal unloading and loading rail terminal in Jargalant soum, Orkhon aimag.

Significant progress was also made advancing road development plans with tender proposal submitted in the week after the Quarter for the Murun-Uliastai Highway Project, which has now been confirmed by the PPP Centre (an agency within the MED) to have successfully passed the preliminary selection stage of the tender evaluation process.

- **CHPP and ERT Infrastructure:** Following the contract with CCTEG-IEC becoming effective in December, work has progressed advancing designs for construction. Contractor mobilisation is scheduled within Q1 2026. Due diligence by China Export & Credit Insurance Corporation (**Sinosure**) is

progressing in relation to Supplier's Credit Insurance for CCTEG-IEC, to enable vendor financing of 60% of US\$69.9 million contract price.

- **Murun-Uliastai Highway Project:** Having passed the preliminary stage of tender evaluation, the Company will continue to engage with the PPC Centre in the second and final stage of the defined tendering process to negotiate terms acceptable to both parties in relation to the PPP Agreement sought with focus on ensuring that these terms will be attractive to international third-party investors. This process is targeted for completion in Q1 2026, and in parallel Aspire is engaging with potential investors, EPC contractors and project management companies in readiness to commence construction work.
- **Ovoot Site Infrastructure:** Designs and permissions in relation to site infrastructure planned for construction onsite within the Ovoot mining license continued to be advanced, with increased focus on supporting infrastructure to be constructed within the Mine Infrastructure Area. Following completion of camp expansion and workshop/warehouse/office facility construction in Q3 2025, minimal further support infrastructure required to commence pre-stripping operations, and the designs and permissions are mostly related to long-term infrastructure not immediately required.
- **Coal Marketing:** Liaison with potential coal off-takers in northern and northeastern China continued during the Quarter in support of identifying end-users and building relationships to support development of Memorandums of Understanding leading to Cooperation Agreements and Sales and Purchase Agreements. Prices for comparative coals on market remained relatively strong, and have further strengthened following the end of Quarter.
- **Community Relations:** Face-to-face consultation was conducted with citizens and local government representatives in Tsetserleg, Burentogtokh, Ikh-Uul and Tarialan soums in relation to planned development activities in 2026 at Ovoot and along the road route. Donations and sponsorship were provided in support of the Cultural Centre of Tsetserleg soum, local athletes participating in national and international competitions, and tertiary scholarships were awarded to 20 youth from Khuvsgul aimag. Sponsorship was also provided for the Zorig Foundation's Environmental Leadership Program for a fifth consecutive year, benefitting young professionals interested to understand and improve sustainable environmental practices in Mongolia.

Payments to related parties and their associates totalled US\$216 thousand, comprising Directors' fees and executive remuneration, and an amount of US\$9.6 thousand paid to Mongolia International Capital Corporation LLC for services in preparation for fund-raising.

The off-market transition of share ownership between Talaxis Ltd (**Talaxis**) to NordSteppe Private Investment Fund LLC (**NordSteppe**) in the deal that enabled Aspire to regain exclusive marketing and other rights over the Ovoot and Nuurstei projects<sup>4</sup> progressed, with Tranche 2 completed on 15 October 2025 resulting in Nordsteppe PIF becoming a substantial holder. Completion of the transaction remains on target to be completed within March 2026.
