APPENDIX 4C AND REPORT ON QUARTERLY ACTIVITIES

Sydney, Australia, 30th January 2026: Victor Group Holdings (ASX: VIG) (“VIG” or “the Company”), releases its cash flow report for the December 2025 quarter (Appendix 4C) and provides an update on the key areas of activity during the quarter ended 31 December 2025.

Principal Activities

VIG and its controlled entities (the “Group”) provide:

- IaaS, SaaS & PaaS services to customers;
- Education cloud platforms which bring together best-in-class resources and applications from strategic partners such as education services and e-learning content providers, and

Key areas of activity during the quarter:

- IaaS, SaaS & PaaS service in PRC – VIG operates its cloud services and software development in PRC through its subsidiary, Shenghan. During the quarter, Shenghan collected around \$4.22 million in trade receivables, which was all contributed by the IaaS, SaaS and PaaS services. The software we delivered includes Data management and operating system software for different clients in different sectors. Compared with the last quarter, the company achieved a positive operating cash flow due to the strong collection of trade debts. The management team estimates the operating cash flow will remain healthy in the next quarter.
- Cash and cash equivalents for the consolidated entities totalled \$591K at the end of the quarter. Given that the Group, including its subsidiaries, has no external debt obligations, management has determined that external fundraising is not required to support current business operations in the PRC. The major shareholder has provided a letter of financial support to safeguard the Company against any potential default on debts or payables.
- E-learning and Cloud Education – The Company recorded no trade receivables in this segment and did not enter into any sales contracts during the quarter. However, the Company has established partnerships with qualified e-learning providers specialising in vocational training for IT and new media operations, which support the market positioning of our e-learning content. Management anticipates growth in this segment driven by increasing demand for IT and AI-related vocational training courses.

- A summary of revenue and expenditure (cash basis) incurred in respect of the Company's business activities is as follows:

Activities	Revenue \$A'000	Expenditure \$A'000
Day to Day Operation & Administration	-	(148)
IaaS, SaaS & PaaS Services	4,224	(4,035)
E-learning & Cloud Education	-	-

Comment on Appendix 4C

Positive net operating cash flow for the quarter was primarily attributable to robust collection of outstanding trade receivables. No capital expenditures were incurred during the period. Management anticipates that the Group will maintain a healthy cash flow position in the subsequent quarter

Related Party Payments

There were no related party payments in the December 2025 report.
