Quarterly Activities Report – December 2025

Battery, base and precious metals exploration company Yugo Metals Limited (**ASX:YUG**) (**Yugo** or the **Company**) is pleased to provide its activities report for the quarter ended 31 December 2025.

Highlights:

- **\$3.5M Placement completed to underpin gold focused diamond drilling program at Sinjakovo**
- **Four diamond drillholes have been drilled from the first drillpad, intersecting 1.8m drilling width of silver-zinc-lead mineralisation from 27.7m in drillhole KVDD001. Preparation is in progress for restarting with drilling activities after the festive season**
- **\$0.4M historic VAT refund received from the Bosnia-Herzegovina indirect taxation authority (UIO BiH)**
- **Dual listing on the Frankfurt and Dusseldorf Stock Exchanges**

Sinjakovo Project

Drilling commenced at Kovacevac Prospect in November 2025 with four diamond drill holes completed for a total depth of 279m from the first drilling pad. Drillhole KVDD001 (the most eastern of the drillholes) has intersected silver-zinc-lead mineralisation with over 1.8m width of sphalerite and galena from 27.7m depth, comprising dissemination (1-5% total), including 0.2m of semi-massive mineralisation (30-40%) immediately adjacent to the 0.3m core loss interval. Other holes (drilled down dip and along strike to west) have intersected weaker and/or narrower mineralised intervals, suggesting that mineralisation could potentially improve along strike to east. The drillcore has been logged, and samples were shipped to ALS laboratory in Bor, Serbia with the results pending.

In the January 2026 quarter, another drillhole is planned to be drilled from the current pad to test potential extension of mineralisation to the east. The drilling rig will then move to the already prepared western pad to drill a fan of drillholes on the western side of the Kovacevac Prospect, while awaiting the drilling results to provide a rationale for preparing additional drillpads further to the east.

The drillhole details for the entire drilling program will be provided upon execution of the program. See ASX Announcement dated 16 December 2025 for additional details, maps, drillcore photos and visual observation details).

Sockovac (Petrovo) Project

During the period, the Company continued with community engagement and consultations with local key stakeholders. The Company was engaged in consultations with the Government about the pending approval of the Petrovo tenement (10km²), encompassing the area with historical (1969) significant shallow drilling results on nickel (5.1m @ 6.6% Ni from 57.9m depth; cobalt not analysed) and zinc+lead (9.35m @ 8.2% Zn+Pb from 41.8m depth; silver and gold not analysed)¹, and recently identified gold-silver mineralisation on surface with rock-chip results up to 5.7g/t gold and 1,330g/t silver². The Company is optimistic about a favourable outcome and are in ongoing discussions with our advisors at the Ministry of Energy and Mining.

In addition, the Company is continuing to actively explore various prospects and assessing potential acquisitions in tier 1 jurisdictions that would be complimentary to the Company's asset portfolio and enhance shareholder value.

Corporate

Cash position and capital raise completed

Net cash inflow during the quarter was approximately \$2.6 million leaving the Company with a cash balance of approximately \$3.2 million as at 31 December 2025.

During the quarter the Company completed a two-tranche placement (Placement) of 77,777,778 fully paid ordinary shares at A\$0.045 per share (Placement Shares) to raise \$3,500,000 (before costs). The Placement included 1 free attaching unlisted option for every 2 shares applied for and issued under the Placement (Placement Options). The Placement Options are exercisable at \$0.10 each, expire 3 years from the date of issue.

CPS Capital Group Pty Ltd acted as Lead Manager to the Placement (refer to the Company's Appendix 3B lodged on 14 October 2025 for details on the Lead Manager fees).

\$0.4M VAT refund received

On 6 November 2025, Yugo confirmed it had received a historic VAT refund of approx. AUD \$385,000 from the Bosnia-Herzegovina indirect taxation authority (UIO BiH). The VAT refund received was previously written off, highlighting effective fiscal management, operational efficiency and significantly improved relations with local authorities.

Dual listing on German Stock Exchanges

During the quarter the Company completed the dual listing of the Company's ordinary shares on the Frankfurt and Dusseldorf Stock Exchanges (**FRA, DUS: L7I**), while maintaining a primary listing on the ASX. The dual listing will increase Yugo's exposure to European institutional and retail investors at a time of significant investor interest in base and precious metal projects that can potentially supply European demand.

The Company also appointed Stefan Lindham, principal at Aktiencheck.de AG, as the Company's European investor relations advisor to assist in broadening its investor base in Europe.

Related party transactions

Related party transactions during the quarter were limited to payments to the directors for salaries and directors' fees for a total amount of \$99,000 (included in item 6.1 of the attached Appendix 5B).

from the date of issue. The Lead Manager (CPS Capital and/or nominees) also received 45,000,000 unlisted options under the same terms as the Placement Options part consideration for the services provided to the Company.

² A total of 730,778 options have been exercised since 30 September 2025, resulting in the issue of 730,778 fully paid ordinary shares.

Exploration licences

At the end of the quarter Yugo held a 100% interest in exploration licences in three project areas located in Bosnia and Herzegovina, namely:

- Sinjakovo (including Jezero) – approximately 80.8km²
- Sockovac – approximately 49km² at Dobož (not including the area under current application at Petrovo)
- Cajnice - approximately 49.5km²

In accordance with ASX Listing Rule 5.3.2, Yugo confirms that its activities were restricted to exploration only and that it did not conduct any mining development or production activities during the quarter. In accordance with ASX Listing Rule 5.3.1: Exploration and Evaluation expenditure during the quarter was \$445,000.

This Quarterly Activities Report contains information extracted from ASX market announcements reported in accordance with the 2012 edition of the “Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves” (2012 JORC Code). Yugo confirms that it is not aware of any new information or data that materially affects the information included in any original ASX announcement referred to in this report.

This announcement has been authorised for release by the Board of Yugo Metals Limited.

Competent Persons Statement

The information in this announcement that relates to Exploration Results is based on information compiled and conclusions derived by Mr Mladen Stevanovic, a Competent Person, who is consultant and former Director of Yugo Metals Limited and is a Fellow member of the AusIMM (membership number 333579). Mr Stevanovic has sufficient experience that is relevant to the technical assessment of the Mineral Assets under consideration, the style of mineralisation and types of deposit under consideration and to the activity being undertaken to qualify as a Practitioner as defined in the 2015 Edition of the "Australasian Code for the public reporting of technical assessments and Valuations of Mineral Assets", and as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Stevanovic consents to the inclusion in this announcement of the matters based on his information in the form and context in which it appears.

Forward Looking Statements

This announcement contains forward-looking statements which involve several risks and/or uncertainties. These forward-looking statements are expressed in good faith and are believed to have a reasonable basis. These statements reflect current expectations, intentions or strategies regarding the future and assumptions based on currently available information. Should one or more of the risks and/or uncertainties materialise, or should underlying assumptions prove incorrect, actual results may vary from the expectations, intentions and/or strategies described in this announcement. No obligation is assumed to update forward-looking statements if these beliefs, opinions and/or estimates should change and/or to reflect other.

Note: polymetallic mineralisation is encountered at localities throughout the project area. For easier reporting and comparison of assay results, figures in this report sometimes include the "gold equivalent" results. This is a simpler reporting measure that combines the results from gold, silver, copper, lead, antimony and zinc (normalised by their market prices and the expected metallurgical recoveries).
