

ASX RELEASE 3 February 2026

EPSILON HEALTHCARE LIMITED

Epsilon Pharma Achieves Halal Australia Certification for CBD and THC Oil Dosage Forms

Highlights

- Halal Australia has granted Halal Certification to Epsilon Pharma for CBD and THC oil dosage forms.
- The certification confirms compliance with the Halal Australia Certification Scheme and alignment with the GSO/UAE.S 2055-1 standard for receipt of raw materials, processing, storage and distribution.
- Strengthens Epsilon Pharma's ability to service Halal regulated export markets and partner requirements across the Middle East, Southeast Asia and other regions.

Epsilon Healthcare Limited (ASX: EPN) ("Epsilon" or "the Company") is pleased to announce that its wholly owned contract development and manufacturing subsidiary, Epsilon Pharma Pty Ltd has been formally granted Halal Certification by Halal Australia, marking an important milestone in the company's ongoing commitment to maintaining the highest standards of quality, integrity and global compliance.

Following a thorough assessment, Halal Australia has certified that Epsilon Pharma has fully complied with the Halal Australia Certification Scheme and operates in conformity with GSO/UAE.S 2055-1, the internationally recognised standard governing the receiving of raw materials, processing, storage and distribution of various CBD and THC oil dosage forms.

This certification affirms that Epsilon Pharma's Australian based manufacturing systems, processes and handling protocols meet stringent Halal requirements, ensuring that its onshore Queensland operations align with the expectations of consumers and regulatory bodies across key international markets.

A Significant Endorsement of Advanced Manufacturing Capability

The Certificate of Halal Compliance represents another major endorsement of Epsilon Pharma's highly specialised and compliant manufacturing capabilities.

Epsilon Healthcare Group Chief Executive & Managing Director, Peter Giannopoulos, said the certification underscores the company's technical excellence and supports its strategic objective of expanding access to high quality, compliant products across global markets:

"Being granted Halal Certification by Halal Australia validates the precision and robustness of our onshore manufacturing systems. It reflects our commitment to maintaining world class standards and supporting market pathways that require the highest levels of compliance."

This achievement enhances our competitive position and demonstrates our readiness to supply diverse global markets with confidence and integrity.”

Enhanced Market Access and Strategic Growth Opportunities

The certification strengthens Epsilon Pharma’s ability to access Halal regulated international markets in the Middle East, Southeast Asia and other regions where compliance with GSO/UAE.S 2055-1 is essential. The Halal certification is expected to create new commercial opportunities for Epsilon Pharma within regions where Halal compliant products are a prerequisite for market access, further strengthening the company’s competitive position in the sector.

Epsilon Pharma believes this milestone will support:

- New international commercial partnerships;
- Expansion into Halal compliant markets;
- Long-term strategic growth in premium regulated product segments.

Commitment to Excellence

Epsilon Pharma will continue to invest in quality systems, advanced processing technologies and regulatory compliance frameworks to ensure its facilities & operating systems remain aligned with evolving global standards.

ENDS

This announcement has been unanimously approved for release by the Board of Directors.

Alan Beasley
Chairman
