

## Connexion Mobility Signs Agreement to Provide OnTRAC Software to GM Canada

**Melbourne, Australia:** Connexion Mobility Ltd (“Connexion” or “the Company”) is pleased to advise that it has signed an Agreement with General Motors Canada (“GM Canada”) for the provision of its OnTRAC software platform as part of GM Canada’s national launch of its Enhanced Exposure Program (“EEP”).

### Enhanced Exposure Program

GM Canada’s Enhanced Exposure Program (EEP) is GM Canada’s modernized, technology enabled evolution of the traditional Exposure Program. The EEP provides GM Canada a conduit through which to support its retail network’s deployment of rental, courtesy transportation and test drive experiences to customers.

The EEP will leverage OnTRAC’s access to GM vehicle connectivity, providing dealers with productivity tools, in both English and French, to use and manage vehicles under the EEP for the benefit of both prospective and existing dealership customers.

### Launch

EEP is scheduled for national launch in February. Connexion’s Managing Director, Aaryn Nania, commented *“We are delighted to extend our working relationship with GM Canada in support of the national launch of its Enhanced Exposure Program. I would like to thank the GM Canada and Connexion teams for their collaborative efforts in launching this national program with efficiency, along with the ongoing support of GM. We look forward to this relationship benefitting an array of stakeholders across the General Motors ecosystem.”*

There are no other material conditions that need to be satisfied before the parties become legally bound to proceed with the terms of the agreement and there is no other material information relevant to assessing the impact of the agreement on the price or value of the Company’s securities.
