

13 February 2026

Cleansing Notice

Black Dragon Gold Corporation (“ASX:BDG”; “Company”) confirms that on 12 February 2026 it completed the issue of 3,750,000 shares in the form of Chess Depositary Interests in the Company. The shares were issued at an issue price of \$0.03 per share and pursuant to the conversion of unlisted options.

The Company gives notice pursuant to section 708A(5)(e) of the Corporations Act 2001 (Cth) (Corporations Act) that:

1. the Company issued the Shares without disclosure under Part 6D.2 of the Corporations Act; and
2. as at the date of this notice, the Company has complied with:
 - (a) the provisions of Chapter 2M of the Corporations Act as they apply to the Company; and
 - (b) section 674 of the Corporations Act; and
3. as at the date of this notice, there is no information to be disclosed which is excluded information (as defined in sections 708A(7) and 708A(8) of the Corporations Act) that is reasonable for investors and their professional advisers to expect to find in a disclosure document. ‘Excluded Information’ is information:
 - (a) that has been excluded from a continuous disclosure notice in accordance with the ASX Listing Rules; and
 - (b) that investors and their professional advisers would reasonably require for the purpose of making an informed assessment of:
 - (i) the assets and liabilities, financial position and performance, profits and losses and prospects of the Company; orthe rights and liabilities attaching to the Shares.

Approved for release by the EMC Gold Board of Directors

About EMC Gold Corporation

EMC Gold Corporation (ASX:EM3) is an exploration company with a global portfolio of exploration assets. The Company's flagship project is Salave, one of the largest undeveloped gold projects in Europe. Salave is 100 per cent owned by the Company and located in the north of Spain in the Principality of Asturias.

The Company acquired Australian mineral explorer Marlee Gold Pty Ltd. The Company retains one exploration permit in Western Australia, Ivan Well, presenting an opportunity to explore for surface and sub-surface gold in the future. For more information visit www.emcgold.com.au.

About Salave Gold Project

The project has a Measured Mineral Resource of 1.6 million tonnes grading 3.82 g/t Au, containing 0.2 million ounces of gold; an Indicated Mineral Resource of 11.3 million tonnes grading 2.90 g/t Au, containing 1.06 million ounces of gold, plus Inferred Resources totalling 4.1 million tonnes grading 2.34 g/t Au, containing 0.31 million ounces of gold.

The information in this announcement that relates to the Mineral Resource estimate for the Salave project was released by the Company in its news release entitled 'Updated Scoping Study Salave Gold' dated 31 March 2025.

EMC Gold confirms that it is not aware of any new information or data that materially affects the information included in the original announcement and that all material assumptions and technical parameters underpinning the estimate in the previous announcement continue to apply and have not materially changed.

A full technical report summarising the Mineral Resource estimate completed by Bara Consulting is available on the Company's web site (www.emcgold.com.au) and posted on SEDAR. In addition to the current Mineral Resource, historical exploration work suggests there is the potential for additional mineralisation within EMC Gold's landholdings.
