**Amended Appendix 4C for the Quarter Ended 31 December 2025
Summary of Changes from 27 January 2026 Lodgement**

TZ Limited (ASX: TZL) (“**Company**”) refers to its previously lodged Appendix 4C for the quarter ended 31 December 2025.

Following further internal review, the Company has identified certain information in the original Appendix 4C that requires clarification or correction. An amended Appendix 4C for the same reporting period is therefore attached.

The amendments relate to:

1. **Item 8.6:** the amount of the ‘significant sum’ received after the quarter end has now been disclosed as AU\$350,000 (contractually due on 16 December 2025 and was received in January 2026 after quarter end).
2. **Item 8.6.1:** TZL does not expect to continue at the current level of net operating cash outflows.

The Company expects operating cash flows to improve during Q3 and Q4 FY26 due to:

- “SaaS subscription monies” come in concentrated periods throughout the year and the Company is approaching a strong inflow period;
- the receipt of contracted revenues currently in the installation and commissioning phase;
- increased sales activity in the Smart Locker and Data Centre Security divisions;
- improved working capital management following the anticipated implementation of a trade finance/factoring facility; and
- ongoing cost management initiatives.

On this basis, the Company does not expect to continue at the current level of net operating cash outflows and expects a reduction in cash outflows during the second half of FY26. The Company’s cashflow is volatile due to large projects and an uneven flow of “SaaS subscription monies” through the year.

3. **Item 7.6:** The Causeway Finance facility is AU\$4.75 million and fully drawn. The interest rate is 12% per annum. The repayment of AU\$2.75 million under the facility, was disclosed in error as mid-February 2026 in the 27 January 2026 announcement. This has been corrected to 27 February 2026. The remaining balance of AU\$2 million is repaid in

quarterly amounts of AU\$250,000 starting from the March quarter 2026. The facility with Causeway Finance has primary security.

The Company has a debenture facility with its largest shareholder, First Samuel Limited, of AU\$1.5 million. The interest rate is 12% per annum and has a maturity date of 30 June 2026.

4. **Item 8.6.2:** disclosure relating to the proposed factoring or trade finance facility has been updated to clearly describe the current status, including that it remains in progress and unfinalised.

A factoring facility is most attractive, but TZL must satisfy criteria around “a minimum annual amount”. Additional lenders have tentatively offered (pending lender Due Diligence) a Trade facility. The Board will compare when all options are present.

The amendments are corrective in nature. The amended Appendix 4C presents, in the Company’s view, a true and fair view of the Company’s cash flows for the reporting period.

The amended Appendix 4C and the contents of this announcement has been authorised by the Board of Directors.

Quarterly cash flow report for entities subject to Listing Rule 4.7B

8.6 If item 8.5 is less than 2 quarters, please provide answers to the following questions:

8.6.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: No. The net operating cash outflow reported for the quarter was materially impacted by the timing of a major customer receipt of approximately A\$350,000, which was contractually due on 16 December 2025 and was received in January 2026 after quarter end.

In addition, the Company expects operating cash flows to improve during Q3 and Q4 FY26 due to:

- the receipt of contracted revenues currently in the installation and commissioning phase;
- increased sales activity in the Smart Locker and Data Centre Security divisions;
- improved working capital management following the anticipated implementation of a trade finance/factoring facility; and
- ongoing cost management initiatives.

On this basis, the Company does not expect to continue at the current level of net operating cash outflows and expects a reduction in cash outflows during the second half of FY26, subject to timely project delivery.

8.6.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: The Company is progressing several funding initiatives, including refinancing discussions in relation to existing debt facilities, the proposed establishment of a trade finance/factoring facility, and engagement with potential equity investors.

The Company notes that a prior reference to mid-February 2026 was made in error. The maturity of the Causeway Finance facility for the initial A\$2.75m was extended to 27 February 2026.

Discussions in relation to the proposed trade finance/factoring facility remain ongoing, and no binding agreement has yet been entered into. TZ has provided documentation to satisfy minimum facility size of US\$3m.

8.6.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes. Based on the receipt of contracted revenues, expected improvement in operating cash flows, ongoing funding initiatives, and continued support from financiers, the Company expects to be able to continue its operations and meet its business objectives.

Note: where item 8.5 is less than 2 quarters, all of questions 8.6.1, 8.6.2 and 8.6.3 above must be answered.
