### Commentary

The reduction in profit (increase in loss) for the half-year ended 31 December 2025 is primarily related to the acquisition of Broken Hill Mines Holdings Pty Ltd (“BHMH”) (“Acquisition”), re-compliance with Chapters 1 and 2 of the ASX Listing Rules (“Re-compliance”) and the business combination between BHMH and Broken Hill Operations Pty Ltd, completed in the prior period. A detailed commentary on the results for the period is contained in the Review of Operations section of the Directors’ Report.

	31 Dec 2025	31 Dec 2024
NET TANGIBLE ASSETS	\$	\$
Net tangible assets per share	0.17	(0.03)

In accordance with Chapter 19 of the ASX listing rules, net tangible assets per share represent total assets less intangible assets less liabilities ranking ahead of, or equally with, ordinary share capital, divided by the number of ordinary shares on issue at the end of the half-year. The Group has treated Right-of-use assets (leased assets) as tangible assets.

## Notes to the condensed consolidated financial statements

### For the half-year ended 31 December 2025

#### **Note 1. Corporate information**

This condensed consolidated financial report of Broken Hill Mines Limited (referred to hereafter as 'Broken Hill Mines', 'BHM' or the 'Company', formerly Coolabah Metals Limited) and its wholly owned subsidiaries (referred to hereafter as 'the Group') was authorised for issue in accordance with a resolution of the Board of Directors on 25 February 2026.

A description of the nature of the Group's operations and its principal activities is included in the Directors' report, which is not part of the consolidated financial statements.

Broken Hill Mines is a publicly listed company, incorporated and domiciled in Australia.

#### **Note 2. Summary of material accounting policies**

##### **(a) Statement of compliance**

The half-year financial statements are general purpose financial statements prepared in accordance with the Corporations Act 2001 and AASB 134 *Interim Financial Reporting*. Compliance with AASB 134 ensures compliance with International Financing Reporting Standard IAS 34 Interim Financial Reporting. These condensed consolidated interim financial statements do not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2025 and any public announcements made by the Company during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

Except for cash flow information, the consolidated financial statements have been prepared on an accruals basis and are based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets.

##### **(b) Going Concern**

The financial report has been prepared on the going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and the settlement of liabilities in the ordinary course of business.

For the half year ended 31 December 2025, the Group incurred a loss of \$29,941,000 (2024: profit of \$11,476,000) and net cash outflows from operating and investing activities of (\$5,464,000) (2024: \$4,076,000 inflow) and (\$32,763,000) (2024: \$800,000) respectively. Included in the loss was a reverse acquisition listing expense of \$7,567,000 and share based payments expense of \$1,907,000. As at 31 December 2025, the Group had a working capital surplus of \$18,516,000 (30 June 2025: \$26,797,000 deficit).

Management have prepared a forecast for the next 12 months which demonstrates the Group having the ability to meet its debts as and when they fall due. The ability of the Group to continue as a going concern is dependent upon the ability of the Group to successfully manage the Rasp Mine and is augmented by the Group's ability to secure funds by raising capital from equity and or debt markets and managing cashflow in line with available funds and if necessary deferring discretionary expenditure where appropriate.

The Directors are satisfied that the going concern basis of preparation is appropriate.

**(c) Basis of preparation**

These general-purpose consolidated financial statements have been prepared in accordance with the Corporations Act 2001, Australian Accounting Standards and Interpretations of the Australian Accounting Standards Board and International Financial Reporting Standards as issued by the International Accounting Standards Board. The Company is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

There have been no changes to accounting standards which have had a material effect on the financial statements.

**(g) Segment reporting**

An operating segment is a component of an entity that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity), whose operating results are regularly reviewed by the entity's chief operating decision makers to make decisions about resources to be allocated to the segments and assess their performance and for which discrete financial information is available. This includes start-up operations which are yet to earn revenues.

Operating segments have been identified based on the information presented to the chief operating decision maker – being the Board of Directors. Information about other business activities and operating segments that do not meet the quantitative criteria set out in AASB 8 "Operating Segments" are combined and disclosed in a separate category called "other".

**(h) Reverse acquisition**

The business combination completed during the period has been accounted for as a reverse acquisition. For accounting purposes, Broken Hill Mines Holdings Proprietary Limited has been identified as the acquirer (the accounting acquirer), and Broken Hill Mines Limited as the acquiree (the accounting acquiree), notwithstanding that Broken Hill Mines Limited is the legal parent entity.

As a consequence, these consolidated financial statements represent a continuation of the financial statements of Broken Hill Mines Holdings Proprietary Limited. The equity structure presented in these financial statements reflects the equity structure of Broken Hill Mines Limited (the legal parent entity), including the equity instruments issued as part of the reverse acquisition.

However, the equity balances prior to the acquisition date represent the equity of Broken Hill Mines Holdings Proprietary Limited.

**(i) Comparative information**

The comparative information presented in these financial statements is that of Broken Hill Mines Holdings Proprietary Limited and does not represent the historical financial information of Broken Hill Mines Limited.

The results of Broken Hill Mines Limited are included in the consolidated statement of profit or loss and other comprehensive income from the date of acquisition. Refer to Note 22 Business Combination for restatements determined within the provisional period.

### Note 3. Segments

The Group has identified its operating segments based on the internal reports that are used by the Chief Operating Decision Makers ('CODM'), in assessing performance and in determining the allocation of resources.

The operating segments are identified by the CODM based on the phase of operation within the mining industry. For management purposes, the Group has organised its operations into two reportable segments on the basis of life cycle as follows:

- Operating assets (the Rasp Mine); and,
- Development assets (the Pinnacles Project).

The CODM will regularly review the identified segments in order to allocate resources and assess performance. Operational information is reported to the CODM on a monthly basis.

Segment information that is evaluated by management is prepared in conformity with the accounting policies adopted for preparing the financial statements of the Group which are reported under Australian Accounting Standards, and includes EBITDA (earnings before interest, tax, depreciation and amortisation) that is used to measure segment performance. EBITDA is a non-IFRS measure used internally by management to assess performance of the business, make decisions on allocating resources and assess operational management.

***Finance Agreement – Hartree Metals LLC***

On 1 October 2025, the Group announced completion of a silver-lead concentrate offtake agreement and associated US\$25 million finance facility with Hartree Metals LLC. Tranche 1 (USD10,000,000) was drawn in September 2025. As at 31 December, USD15,000,000 remained undrawn.

The facility has a term of 4 years, including a 12-month principal and interest repayment grace period, before a straight-line repayment structure. The applicable interest rate is 3.5% over the Secured Overnight Financing Rate (SOFR). The facility is to be drawn in three tranches, with the second tranche of USD7,500,000 drawn subsequent to the end of the period. The facility has no covenants. Distributions (including dividends) are permitted subject to market standard restrictions including minimum cash balance, leverage and debt servicing thresholds. The facility is secured by a general security deed over all property and assets of the Group.

***Convertible notes – prior period***

During the prior period, the Group raised \$5,000,000 (before costs) via the issuance of 200 convertible notes, each with a face value of \$25,000. Upon receiving a conditional admission letter from the ASX on terms acceptable to the Group, each convertible note was to convert into shares of the listed entity on or before admission to the ASX. This letter was received on 4 July 2025. On 1 December 2024, the convertible notes were amended, and the noteholders were issued with one free option for every 10 shares issuable under the converting note deed. On 14 July 2025, the convertible notes converted into ordinary equity of BHM Limited, the options converted into BHM options with an exercise price of \$0.36 and expiry of 5 years and interest incurred was paid in cash. The convertible notes balance in the prior period constituted:

**Note 21. Reverse Acquisition**

On 9 July 2025, the Company acquired all the shares in Broken Hill Mine Holdings Proprietary Limited by issuing a total of 125,000,000 Bid Consideration Shares, 25,000,000 Bid Consideration Quoted Options and 40,000,000 unlisted cashless-exercise options giving Broken Hill Mines Holdings Proprietary Limited a controlling interest in the Company following the acquisition. The acquisition was not treated as a business combination as Broken Hill Mines Limited (then Coolabah Metals Limited) did not constitute a business under AASB 3 Business Combinations.

As such the consolidation of these two groups is on the basis of the continuation of Broken Hill Mines Holdings Proprietary Limited with no fair value adjustments, whereby Broken Hill Mines Holdings Proprietary Limited is deemed to be the accounting parent, with the consideration issued deemed to be a share-based payment, whereby Broken Hill Mines Holdings Proprietary Limited is deemed to have issued shares to the Company in exchange for the net assets held by Broken Hill Mines Limited.

In this instance the value of the Broken Hill Mines Limited shares provided has been determined as the notional number of equity instruments that the shareholders of Broken Hill Mines Holdings Proprietary Limited would have had to issue to Broken Hill Mines Limited to give the owners of Broken Hill Mines limited the same percentage ownership which is deemed to have been \$11,738,773.

The pre-acquisition equity balances of Broken Hill Mines Limited are eliminated upon acquisition resulting in a deemed listing fee expense of \$7,566,763 as set out below:

	<b>\$'000</b>
Deemed fair value of consideration	11,739
Less net assets of Broken Hill Mines Limited	(4,172)
<b>Amount recognised as listing expense</b>	<b>7,567</b>

**Note 22. Business combination**

On 31 October 2024, Broken Hill Mines Holdings Proprietary Limited acquired 100% of the outstanding shares in Broken Hill Operations Proprietary Limited (BHO) for \$1. The transaction was funded from cash reserves and under the terms of the Share Sale Agreement, Broken Hill Mines Holdings Proprietary Limited assumed all assets and obligations of BHO from the date of acquisition.

The business combination was accounted for on a provisional basis in accordance with AASB 3 Business Combinations, with finalisation required by 31 October 2025. During the measurement period (which did not exceed 12 months from the acquisition date), the Group finalised its assessment of the fair values of identifiable assets acquired and liabilities assumed and the provisional amounts recognised at acquisition date have been finalised without amendment since those adopted in the 30 June 2025 Financial Report. There have however been adjustments to the acquisition accounting initially adopted in the 31 December 2024 half-year Financial Report which resulted in an adjustment to the gain of \$11,483,000 (previously reported as 31 December 2024: nil). The comparable 31 December 2024 results have been restated accordingly and as permitted by AASB 3 Business Combinations.

The Group confirms that:

- the measurement period has ended;
- all identifiable assets and liabilities have been recognised at fair value as at the acquisition date; and,
- no further adjustments will be made to the acquisition accounting.

Finalised fair values of assets and liabilities acquired are as follows.

	<b>31 October 2024</b>
	<b>\$'000</b>
Cash and cash equivalents	685
Trade and other receivables	4,368

	<b>31 October 2024</b>
	<b>\$</b>
Net assets acquired	11,482,793
Less purchase consideration paid	(1)
<b>Gain on bargain purchase</b>	<b>11,482,792</b>

The bargain purchase arose as a result of the vendor's ultimate parent making a strategic decision to reduce their exposure to mining and their presence in the Australia market as part of a review of their global operations.

**Note 23. Dividends**

No dividend has been declared or paid by the Group during the half-year, and the Directors do not at present recommend a dividend. No dividends were declared or paid in the comparative periods.

**Note 24. Commitments and contingent liabilities**

The Group had the following commitments as at 31 December 2025. These obligations are not provided for in the financial report.

	<b>31 Dec 2025</b>	<b>30 Jun 2025</b>
	<b>\$'000</b>	<b>\$'000</b>
Mine development commitments	-	3,900
<b>Total</b>	<b>-</b>	<b>3,900</b>

Mine development commitments include an estimate of amounts likely to be paid to Byrnescut Australia Proprietary Limited in relation to mine development activities conducted at the Rasp Mine. On 29 January 2026, the Company announced that it had terminated this contract and will transition to an owner-operator development model from 1 February 2026. An estimate of termination expenditure has been included in Trade and other payables at 31 December 2025.

## INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF BROKEN HILL MINES LIMITED

### Conclusion

We have reviewed the accompanying half-year financial report of Broken Hill Mines Limited ("the Company") and Controlled Entities ("the Consolidated Entity") which comprises the condensed consolidated statement of financial position as at 31 December 2025, the condensed consolidated statement of profit or loss and other comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the half-year ended on that date, a summary of material accounting policies and other selected explanatory notes, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the Consolidated Entity does not comply with the *Corporations Act 2001* including:

- a. Giving a true and fair view of the Consolidated Entity's financial position as at 31 December 2025 and of its performance for the half-year ended on that date; and
- b. Complying with Accounting Standard AASB 134: *Interim Financial Reporting* and *Corporations Regulations 2001*.

### Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's review report.

### Responsibility of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

## Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Consolidated Entity's financial position as at 31 December 2025 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
