

INVESTMENT OBJECTIVE & STRATEGY

The Dominion Income Trust 1 (ASX: DN1) seeks to provide monthly income through investing in a portfolio note targeting distributions to Unitholders of approximately the **1-month BBSW rate plus a Margin of 3.50% per annum net of fees**. The note primarily invests in a portfolio of debt securities, loans, trusts, notes, and bank facilities, and has a maturity date of 6 years, which Realm intends to call on the optional redemption date in 5 years from the issue date. The note is expected to execute the strategy largely through investing in a blend of various investment funds managed by Realm, however, retains the ability to directly hold securities outside of the funds.

WHY DOMINION INCOME TRUST 1?

<p>MONTHLY INCOME</p> <p>Targeted monthly distribution of 3.50% p.a. above the 1-month BBSW. The nature of the structure provides a high level of certainty around the ability to meet the targeted return.</p>	<p>EMBEDDED EQUITY THRESHOLD</p> <p>Realm & Co-Investors provide an Equity Threshold held underneath trust assets as loss absorption to protect holders until maturity date of the note. Any net income must be used to restore the Equity Threshold rather than be distributed.</p>
<p>MATURITY DATE & MARGIN STEP UP</p> <p>Note issued with a maturity date of 6 years, intended to be called in 5 years from issue date. If the note is not called after 5 years, the Margin for the remaining term is increased by 1% per annum until maturity date.</p>	<p>PORTFOLIO DIVERSIFICATION</p> <p>A Note is a debt instrument and is expected to have low correlation to public equities, and expected to be more correlated to credit markets. The portfolio will benefit from being exposed to Realm's broad investment strategies and universe.</p>
