

6 MARCH 2026

Sale of Bryah Basin Tenements to Catalyst Metals Completed

HIGHLIGHTS

- Sale of a portion of the Company's Bryah Basin tenement package to Catalyst Metals (ASX:CYL) completed.
- \$1,000,000 in cash and 105,387 CYL shares received.

Albright Metals Limited (ASX:ABR, "Albright Metals" or "the Company") has completed the sale of a portion of its Bryah Basin exploration tenements to Catalyst Metals Limited (ASX:CYL, "Catalyst") for \$1,000,000 in cash and 105,387 CYL shares. The shares were issued based on the VWAP for the five trading days preceding execution of the agreement.¹

CEO, Greg Hill comments, *"The completion of this transaction unlocks value from non-core assets and provides non-dilutive funding to advance our flagship Golden Pike Project in Canada."*

Proceeds from the Bryah Basin tenement sale will be used to progress Albright Metals' Golden Pike Gold and Antimony Project in New Brunswick, Canada. The Golden Pike Project includes the Vail Road high-grade gold deposit and is highly prospective for gold, antimony and base metals exploration.

¹ ASX announcement dated 18 February 2026 'Catalyst Metals to Purchase Bryah Basin Tenements'

ABOUT ALBRIGHT METALS

Albright Metals' current projects are located in Canada and Western Australia, both Tier One mining and exploration jurisdictions.

Albright Metals has executed an agreement with Globex Mining Enterprises Inc. (GMX-TSX, GLBXF-OTCQX, GIMN-FSE) to acquire the Golden Pike Gold and Antimony Project in New Brunswick, Canada.² The project covers approximately 3,292ha of contiguous mining claims which includes the Vail Road high-grade gold deposit classified under NI 43-101,³ and the exploration-stage Bond Road antimony prospect. The Golden Pike Project is in an area that is close to road, rail, port and grid power infrastructure. Southern New Brunswick is on the Canadian east coast, adjacent to Maine, USA. It enjoys a mild maritime climate, allowing year round exploration activities. The province has a mature mining services industry and has historically produced antimony and gold from multiple mines.

Albright Metals has a substantial \$7M manganese joint venture on its Bryah Basin licences with OM (Manganese) Ltd, a wholly owned subsidiary of ASX listed OM Holdings Limited (ASX: OMH), with OM having already spent over \$4.5 million to earn-in to the Manganese Rights of the project.

Albright Metals holds a suite of mineral rights, including copper, nickel and gold, over the Gabanintha project, near Meekatharra, which has a JORC 2012 Mineral Resource for Cu, Ni, Co and additional structural gold potential.⁴

Albright Metals was formerly known as Bryah Resources, trading under the ASX code BYH.

FORWARD LOOKING STATEMENTS

This announcement may contain certain “forward-looking statements” which may not have been based solely on historical facts, but rather may be based on the Company’s current expectations about future events and results. Where the Company expresses or implies an expectation or belief as to future events or results, such expectation or belief is expressed in good faith and believed to have a reasonable basis. However, forward looking statements are subject to risks, uncertainties, assumptions and other factors which could cause actual results to differ materially from future results expressed, projected or implied by such forward-looking statements. Readers should not place undue reliance on forward looking information. The Company does not undertake any obligation to release publicly any revisions to any “forward looking statement” to reflect events or circumstances after the date of this report, or to reflect the occurrence of unanticipated events, except as may be required under applicable securities laws.
